Christchurch Kindergarten Children's Nursery Limited

Glossary

The following terms are used throughout this publication and refer to:

Early Years Foundation Stage (EYFS) – the statutory framework for care and early learning in England. It is mandatory for all early years providers including maintained schools, non-maintained schools, independent schools, all providers on the Early Years Register and all providers registered with an early years childminder agency. Providers are responsible for ensuring they follow the current version of the framework for their provider type.

Ofsted – is the Office for Standards in Education, Children's Services and Skills and regulates and inspects early years providers in England against the EYFS.

Parents – for the purpose of this publication the term 'parents' will be used to describe all types of primary caregivers, such as biological and adoptive parents, foster carers and guardians. You may want to adapt the example documents to use the terminology you feel most comfortable with.

Practitioner – any adult who works with children in a nursery.

Key person – the named member of staff assigned to a child. Their role is to help ensure that every child's care is tailored to meet their individual needs, to help the child become familiar with the setting, to offer a settled relationship for the child, and to build a relationship with their parents.

A policy is a collectively agreed statement of beliefs. It is a course of action recommended or adopted by an organisation. Policies inform procedures.

A procedure is a way of doing something; a written method or course of action to be taken in particular circumstances.

Christchurch Kindergarten Children's Nursery Limited

Safeguarding Children and Child Protection Policy

PART 1: Safeguarding children and child protection procedures

Introduction

Christchurch Kindergarten Children's Nursery Limited is dedicated to supporting, developing, and promoting high-quality care and education for the benefit of our children, families, and community. We are committed to safeguarding children and promoting their welfare through building a safer organisational culture.

All staff, students and volunteers have a responsibility for safeguarding children, being vigilant and identifying and reporting any safeguarding concerns, in line with this and supporting policies, including:

Acceptable internet use policy	Nappy changing policy
Attendance policy	Online safety policy
Data protection and confidentiality policy	Promoting positive behaviour policy
Emergency lockdown policy	Recruitment, selection and suitability of staff policy
Inclusion and equality policy	Respectful intimate care policy
Late collection and non-collection of children policy	Social networking policy
Lone working policy	Special educational needs and disabilities (SEND) policy
Looked after children policy	Staff code of conduct
Low-level concern policy	Supervision of children policy
Missing child from nursery policy	Supervision of visitors policy
Missing child from outings policy	Volunteers policy
Mobile phone and electronic device use policy	Whistleblowing policy

We ensure all staff, students and volunteers have the necessary knowledge and skills to carry out their duties and are confident to implement these policy and procedures on an ongoing basis to support them in promoting and safeguarding the welfare of children. This is achieved through recruitment and induction processes and by offering ongoing training and support to all staff, appropriate to their specific role, in line with the criteria set out in Annex C of the EYFS Page 53.

This policy is reviewed annually to ensure it remains in line with statutory guidance. Its effectiveness is monitored through staff and stakeholder reviews, appraisals and feedback to ensure appropriate knowledge and awareness is in place.

It is the responsibility of every staff member, student and volunteer to report any breaches of this policy to the Designated Safeguarding Lead (DSL).

Policy intention

The policy makes it clear that all staff, students and volunteers have a responsibility to safeguard children and young people and to protect them from harm. It aims to raise awareness of how to safeguard and promote the welfare of children and provides procedures should a child protection issue arise.

This policy applies to all children up to the age of 18 years whether living with their families, in state care, or living independently (*Working together to safeguard children*).

Safeguarding and promoting the welfare of children, in relation to this policy, is defined as:

- Providing help and support to meet the needs of children as soon as problems emerge
- Protecting children from maltreatment, whether that is within or outside the home, including online
- Preventing impairment of children's mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Promoting the upbringing of children with their birth parents, or otherwise family network through a kinship care arrangement, wherever possible and where this is in the best interests of the children
- Taking action to enable all children to have the best outcomes in line with the outcomes set out in the Children's Social Care National Framework.

Child protection is an integral part of safeguarding children and promoting their overall welfare. In this policy, child protection shall mean:

- The activity that is undertaken to protect specific children who are suspected to be suffering, or likely to suffer, significant harm. This includes harm that occurs inside or outside the home, including online. (*Working together to safeguard children*)

To safeguard children and promote their welfare we will:

- Develop a safe organisational culture where staff are confident to raise concerns about professional conduct
- Ensure all staff are able to identify the signs and indicators of abuse, including the softer signs of abuse, and know what action to take
- Understand and be sensitive to factors, including economic and social circumstances and ethnicity, which can impact children and families' lives
- Share information with other agencies as appropriate.

We promote:

- Always listening to children
- Positive images of children
- Children developing independence and autonomy as appropriate for their age and stage of development
- Safe and secure environments for children
- Tolerance and acceptance of different beliefs, cultures and communities
- British values
- Providing intervention and help for children and families in need.

We have a duty to act quickly and responsibly in any instance that may come to our attention. If in any doubt about what constitutes a safeguarding concern, refer to the Designated Safeguarding Lead (DSL). If there is a concern, never do nothing (Laming, 2009), always do something, including sharing information with any relevant agencies. Safeguarding is everybody's responsibility.

The nursery aims to:

- Keep the child at the centre of all we do, providing sensitive interactions that develop and build children's well-being, confidence and resilience. We will support children to develop an awareness of how to keep themselves safe, healthy and develop positive relationships
- Be aware of the increased vulnerability of children with Special Educational Needs and Disabilities (SEND), isolated families and vulnerabilities in families, including the additional potential impact of the trio of vulnerabilities on children and Adverse Childhood Experiences (ACEs)
- Ensure that all staff feel confident and supported to act in the best interest of the child, maintaining professional curiosity around the welfare of children, sharing information, and seeking help that a child may need at the earliest opportunity
- Ensure that all staff are trained at least every two years and updated regularly with child protection training and procedures, and kept informed of changes to local and/or national procedures, including thorough annual safeguarding updates
- Make any child protection referrals in a timely way, sharing relevant information as necessary in line with procedures set out by the **local authority**.
- Ensure that information is shared only with those people who need to know in order to protect the child and act in their best interest
- Ensure that staff identify, minimise and manage risks while caring for children

- Follow clear whistleblowing procedures by taking any appropriate action relating to poor or unsafe practices and allegations of serious harm or abuse against any person working with children, including reporting such allegations to Ofsted and other relevant authorities
- Ensure parents are fully aware of our safeguarding and child protection policies and procedures when they register with the nursery and are kept informed of all updates when they occur

Designated Safeguarding Lead (DSL)

The DSL has overall responsibility for the Safeguarding children and child protection policy and procedures. It is their role to ensure that the policy and procedures are implemented to safeguard and promote the welfare of children. They are responsible for coordinating safeguarding and child protection training for staff across the organisation.

There is always at least one designated person on duty during the opening hours of the setting. The designated persons receive comprehensive training, consistent with the training criteria provided in Annex C of the EYFS Page 53. The safeguarding Lead and the officer attend the training from the local authority. They, in turn they must cascade training and support the ongoing development and knowledge of the staff team whenever updating but at least once a year.

Designated Safeguarding Lead	
Officer Safeguarding Lead	

In the unlikely event that both the DSL and Deputy DSL are absent, and to ensure immediate action can be taken, contact the Local Safeguarding Partnership (LSP).

The role of the DSL

The role of the DSL is to:

- Monitor and update the Safeguarding children and child protection policy and procedures in line with new legislation and to ensure it is effective. This will be done by making sure that everyone understands the correct procedures during their individual annual review
- Ensure updates and new legislation are reflected in our services as soon as they are known
- Act as a source of support, advice and expertise for all staff, students, volunteers, children and parents who have child protection concerns
- Ensure detailed, accurate, secure written records of concerns and referrals
- Review all written safeguarding reports
- Assess information provided promptly, carefully and refer as appropriate to external agencies
- Provide signposting to other organisations
- Consult with statutory child protection agencies and regulatory bodies where required

- Make formal referrals to statutory child protection agencies or the police, as required.

In addition, the DSL is required to:

- Keep up to date with good practice and national requirements for safeguarding and child protection
- Provide information on safeguarding and child protection for the setting
- Raise awareness of any safeguarding and child protection training needs and implement where necessary
- *Retain up-to-date knowledge of local child protection procedures, including how to liaise with local statutory children's services agencies and with the local safeguarding partners to safeguard children.*

The DSL does not investigate whether a child has been abused or investigate an allegation or disclosure. Investigations are for the appropriate authorities, usually the police and social services.

Sharing low-level concerns

On occasion, inappropriate, problematic or concerning behaviour by staff or other adults is observed but does not meet the threshold for significant harm. This may be classed as a 'low-level' concern, although this does not mean that it is insignificant.

See the Low-level concerns policy for full details.

We define a low-level concern as:

- Any concern, no matter how small, that an adult working with children may have acted in a way that is inconsistent with our Staff code of conduct policy, including inappropriate behaviour outside of work
- A concern that may be a sense of unease or a 'nagging doubt' and does not meet the harm threshold or is serious enough to refer to the LADO.

We encourage a culture of openness, trust and transparency, with clear values and expected behaviour, and we monitor and reinforce these across all staff. All concerns or allegations, however small, will be shared and responded to. *All concerns will be shared with the DSL*, or other nominated person, as in our reporting procedures. We encourage concerns to be shared as soon as reasonably practicable and preferably within 24 hours of becoming aware of it. However, it is never too late to share a low-level concern.

It is not expected that staff will be able to determine whether the behaviour in question is a concern, a complaint, or an allegation before sharing the information. If the DSL is in any doubt as to whether the information meets the harm threshold, they will consult the LADO.

Occasionally, a member of staff may find themselves in a situation which could be misinterpreted or appear compromising to others. If this occurs, staff are encouraged to self-report to the DSL. Equally, a member of staff may have behaved in a manner which, on

reflection, falls below the standards set in our Staff behaviour policy. If this occurs, staff are encouraged to self-report to the DSL. We encourage staff to be confident to self-refer and believe it reflects awareness of our standards of conduct and behaviour.

When the DSL receives the information, they will need to determine whether the behaviour:

- Meets, or may meet, the harm threshold (and so contact the LADO)
- Meets the harm threshold when combined with previous low-level concerns (and so contact the LADO)
- Constitutes a 'low-level' concern
- Is appropriate and consistent with the law and our Staff behaviour policy.

The DSL will make appropriate records of all information shared, including:

- With the reporting person
- The subject matter of the concern
- Any relevant witnesses (where possible)
- Any external discussions, such as with the LSP or LADO
- Their decision about the nature of the concern
- Their rationale for that decision
- Any action taken.

This constitutes a record of low-level concern. We retain all low-level concerns in a separate low-level concerns file, with concerns regarding a single individual kept as a chronology. These records are kept confidential and securely held, accessible only to those with appropriate authority. Records will be retained at least until the individual leaves their employment.

If the low-level concern raises concerns about misconduct, appropriate actions will be taken in accordance with our Disciplinary procedures. Records will be kept in personnel files and in the low-level concerns file.

Monitoring children's attendance

As part of our requirements under the statutory framework, we must follow up on absences promptly. See our Attendance policy for further details on the processes we will implement to meet this requirement.

We are required to monitor children's attendance patterns and trends to ensure they are consistent and no cause for concern. We ask parents to inform the nursery before their children take holidays or days off, and all incidents of sickness absence should be reported to the nursery the same day so that nursery management can account for a child's absence.

If a child has not arrived at nursery within one hour of their normal start time, the parents will be contacted to ensure the child is safe and healthy. If the parents are not contactable, then the emergency contact numbers listed will be used to ensure all parties are safe. Staff will work their way down the emergency contact list until contact is established and we are made aware that all is well with the child and family.

If contact cannot be established, we would assess whether a home visit is required to ensure that all parties are safe. If contact is still not established, we would assess whether it would be appropriate to contact relevant authorities, including the police, to investigate further.

Where a child is part of a child protection plan, or during a referral process, any absences will immediately be reported to the Local Authority children's social care team to ensure the child remains safe and well.

Informing parents

Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the Local Authority children's social care team, police or LADO does not allow this to happen.

This will usually be the case where the parent or family member is the likely abuser or where a child may be endangered by this disclosure. In these cases, the investigating officers will inform parents.

Support to families

The nursery takes every step in its power to build up trusting and supportive relationships among families, staff, students and volunteers within the nursery.

The nursery will continue to welcome a child and their family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interest of the child.

Confidentiality

Confidentiality must not override the right of children to be protected from harm. However, every effort will be made to maintain confidentiality for all concerned if an allegation has been made and is under investigation.

If uncertain about whether sensitive information can be disclosed to a third party, contact the DSL or call the Information Commissioner's Office *helpline on 0303 123 1113*. They will provide advice on the particulars of each individual case, including what can and cannot be shared.

Staff must not make any comments either publicly or in private about the supposed or actual behaviour of a parent, child or member of staff.

Record keeping and data protection

Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate and in line with guidance of the Local Authority with the proviso that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.

The nursery keeps appropriate records to support the early identification of children and families which would benefit from early help. Factual records are maintained in a chronological order with parental discussions. Records are reviewed regularly by the DSL to look holistically at identifying children's needs.

Our Data protection and confidentiality policy will be applied with regards to any information received from an individual. Only persons involved in the investigation should handle this information, although any investigating body will have access to all information stored in order to support an investigation.

PART 2: Definitions of abuse

Definition of significant harm

The Children Act 1989 introduced the concept of significant harm as 'the threshold that justifies compulsory intervention in family life in the best interests of children'. It gives LAs a duty to make enquiries to decide whether they should take action to safeguard or promote the welfare of a child who is suffering, or likely to suffer, significant harm.

Whilst there are no absolute criteria to rely on when judging what constitutes significant harm, consideration should be given to:

- The severity of the ill-treatment, including the degree of harm
- The extent and frequency of abuse and/or neglect
- The impact this is likely to have, or is having, on the child involved.

This may be a single traumatic event, such as a violent assault, suffocation or poisoning, or it can be a combination of events (both acute and long-standing) that impairs the physical, intellectual, emotional, social or behavioural development of the child.

Definitions of abuse and neglect

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused within a family, institution or community setting by those known to them or, more rarely, a stranger.

Perpetrators of abuse can be an adult, or adults, another child or children.

(What to do if you're worried a child is being abused: Advice for practitioners and Working together to safeguard children)

The signs and indicators listed below may not necessarily indicate that a child has been abused, but can help to indicate that something may be wrong, especially if a child shows a number of these symptoms, or any of them to a marked degree.

Indicators of child abuse

- | |
|--|
| <ul style="list-style-type: none">• <i>Failure to thrive and meet developmental milestones</i> |
|--|

- *Fearful or withdrawn tendencies*
- *Unexplained injuries to a child or conflicting reports from parents or staff*
- *Repeated injuries*
- *Unaddressed illnesses or injuries*
- *Significant changes to behaviour patterns.*

Softer signs of abuse as defined by the National Institute for Health and Care Excellence (NICE) include:

Emotional states: Fearful, withdrawn, low self-esteem.

Behaviour: Aggressive, habitual body rocking.

Interpersonal behaviours:

- Indiscriminate contact or affection seeking
- Over-friendliness to strangers including healthcare professionals
- Excessive clinginess, persistently resorting to gaining attention
- Demonstrating excessively 'good' behaviour to prevent parent disapproval
- Failing to seek or accept appropriate comfort or affection from an appropriate person when significantly distressed
- Coercive controlling behaviour towards parents
- Lack of ability to understand and recognise emotions
- Very young children showing excessive comforting behaviours when witnessing parental or carer distress.

Child-on-child abuse

Child-on-child abuse is also known as peer-on-peer abuse; children are included as potential abusers in our policies. Child-on-child abuse may take the form of bullying, physically hurting another child, emotional abuse or sexual abuse. Reporting procedures in these instances remain the same, although additional support from relevant agencies may be required to support both the victim and the perpetrator. Children who develop harmful behaviours are also likely to be victims of abuse or neglect.

If **child-on-child abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Physical abuse

A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child.

If **physical abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Fabricated or induced illness (FII)

This abuse is when a parent fabricates the symptoms of, or deliberately induces, illness in a child. The parent may seek out unnecessary medical treatment or investigation. They may exaggerate a real illness and symptoms or deliberately induce an illness through poisoning with medication or other substances, or they may interfere with medical treatments. This may also be presented through false allegations of abuse or encouraging the child to appear disabled or ill to obtain unnecessary treatment or specialist support.

FII is a form of **physical abuse**, and any concerns must be reported in line with our safeguarding procedures.

Female genital mutilation (FGM)

FGM is a procedure where the female genital organs are injured or changed with no medical reason. The procedure may be carried out shortly after birth, during childhood or adolescence, just before marriage or during a woman's first pregnancy, according to the community.

It is frequently a very traumatic and violent act for the victim and can cause harm in many ways. The practice can cause severe pain, and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother, and/or death (definition taken from the *Multi-agency statutory guidance on female genital mutilation*). Other consequences include shock, bleeding, infections (tetanus, HIV and hepatitis B and C) and organ damage.

FGM is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures. In addition, there is a mandatory duty to report to police any case where an act of FGM appears to have been carried out on a girl under the age of 18.

Breast ironing or breast flattening

Breast ironing, also known as breast flattening, is a process where young girls' breasts are ironed, massaged and/or pounded down using hard or heated objects in order for the breasts to disappear or to delay the development of the breasts entirely. It is believed that by carrying out this act, young girls will be protected from harassment, rape, abduction and early forced marriage. These actions can cause serious health issues such as abscesses, cysts, itching, tissue damage, infection, discharge of milk, asymmetry of the breasts, and severe fever.

Breast ironing/flattening is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures.

Emotional abuse

Working together to safeguard children defines emotional abuse as 'the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development.' Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur separately.

Examples of emotional abuse include:

- Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person
- Not giving a child opportunity to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate
- Age or developmentally inappropriate expectations being imposed, such as interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction
- Serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children
- A child seeing or hearing the ill-treatment of another.

A child may also experience emotional abuse through witnessing domestic abuse or alcohol and drug misuse by adults caring for them. In England, The Domestic Abuse Act (2021) recognises in law that children are victims of emotional abuse if they see, hear or otherwise experience the effects of domestic abuse.

Signs and indicators may include delay in physical, mental and/or emotional development, sudden speech disorders, overreaction to mistakes, extreme fear of any new situation, neurotic behaviour (rocking, hair twisting, self-mutilation), extremes of passivity or aggression, appearing to lack confidence or self-assurance.

If **emotional abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Sexual abuse

Sexual abuse involves forcing, or enticing, a child to take part in sexual activities. Sexual abuse does not necessarily involve a high level of violence and includes whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse.

Sexual abuse can take place online and technology can be used to facilitate offline abuse. Adult males are not the sole perpetrators of sexual abuse; women also commit acts of sexual abuse, as do other children. This policy applies to all children up to the age of 18 years.

Action must be taken if staff witness symptoms of sexual abuse including a child indicating sexual activity through words, play or drawing, having an excessive preoccupation with sexual matters or having an inappropriate knowledge of adult sexual behaviour, or language, for their developmental age. This may include acting out sexual activity on dolls or

toys or in the role-play area with their peers, drawing pictures that are inappropriate for a child, talking about sexual activities or using sexual language or words.

Additional signs of emotional and physical symptoms are shown below.

Emotional signs	Physical signs
• Being overly affectionate or knowledgeable in a sexual way inappropriate to the child's age or stage of development • Personality changes, such as becoming insecure or clingy • Regressing to younger behaviour patterns, such as thumb sucking or bringing out discarded cuddly toys • Sudden loss of appetite or compulsive eating • Being isolated or withdrawn • Inability to concentrate • Lack of trust or fear of someone they know well, such as not wanting to be alone with a carer • Becoming worried about clothing being removed.	• Bruises • Bleeding, discharge, pains or soreness in their genital or anal area • Sexually transmitted infections • Pregnancy.

If **sexual abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Neglect

Working together to safeguard children defines neglect as 'the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development.'

Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve adults involved in the care of the child failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect them from physical harm or danger

- Ensure adequate supervision (including the use of inadequate caregivers)
- Ensure access to appropriate medical care or treatment
- Respond to their basic emotional needs.

The NSPCC statistics briefing for 2024 has found neglect continues to be the most common form of abuse, with one in ten children in the UK having been neglected. Concerns around neglect have been identified for half of children who are the subject of a child protection plan or on a child protection register in the UK. Younger children are more likely than older children to be the subject of a child protection plan in England because of neglect, although research suggests that the neglect of older children is more likely to go overlooked.

Signs of neglect include a child persistently arriving at nursery unwashed or unkempt, wearing clothes that are too small (especially shoes that may restrict the child's growth or hurt them), arriving at nursery in the same nappy they went home in, or a child having an illness or identified special educational need or disability that is not being addressed. A child may be persistently hungry if a caregiver is withholding, or not providing enough, food. A child who is not receiving the attention they need at home may crave it from other adults, such as at nursery or school.

If **neglect** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Domestic abuse

The definition of domestic abuse from the Domestic Abuse Act, 2021 is:

Behaviour of a person (A) towards another person (B) is 'domestic abuse' if:

- *A and B are each aged 16 or over and are personally connected to each other*
- *The behaviour is abusive.*

Behaviour is 'abusive' if it consists of any of the following:

- *Physical or sexual abuse*
- *Violent or threatening behaviour*
- *Controlling or coercive behaviour*
- *Economic abuse (any behaviour that has a substantial adverse effect on B's ability to acquire, use or maintain money or other property and/or obtain goods or services)*
- *Psychological, emotional or other abuse.*

It does not matter whether the behaviour consists of a single incident or a course of conduct.

Domestic abuse can happen to anyone regardless of gender, age, social background, religion, sexuality or ethnicity and domestic abuse can happen at any stage in a relationship.

Signs and symptoms of domestic abuse include:

- Changes in behaviour (for example, becoming very quiet, anxious, frightened,

tearful, aggressive, distracted, depressed etc.)

- Visible bruising or single, or repeated, injury with unlikely explanations
- Change in the manner of dress (for example, clothes to hide injuries that do not suit the weather)
- Stalking, including excessive phone calls or messages
- Partner or ex-partner exerting an unusual amount of control or demands over work schedule
- Frequent lateness or absence from work.

All children can witness and be adversely affected by domestic abuse in the context of their home life. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children.

Where incidents of domestic abuse are shared by our own staff, students or volunteers we will respect confidentiality at all times and not share information without their permission. However, we will share this information, without permission, in cases of child protection or where we believe there is an immediate risk of serious harm to the person involved.

If **domestic abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Contextual safeguarding

As young people grow and develop, they may be vulnerable to abuse or exploitation from outside their family. These extra-familial threats might arise at school and other educational establishments, from within peer groups, or more widely from within the wider community and/or online.

As part of our safeguarding procedures, we will work in partnership with parents and other agencies to safeguard children and provide support around contextual safeguarding concerns.

Child sexual exploitation (CSE) and Child criminal exploitation (CCE)

Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation (Keeping children safe in education).

Child sexual exploitation (CSE)

CSE is where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into **sexual** activity. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology and may be without the

child's immediate knowledge such as through others copying videos or images they have created and posted on social media.

Signs and symptoms include:

- Physical injuries such as bruising or bleeding
- Having money or gifts they are unable to explain
- Sudden changes in their appearance
- Becoming involved in drugs or alcohol, particularly if it is suspected they are being supplied by older men or women
- Becoming emotionally volatile (mood swings are common in all young people, but more severe changes could indicate that something is wrong)
- Using sexual language beyond that expected for their age or stage of development
- Engaging less with their usual friends
- Appearing controlled by their phone
- Switching to a new screen when you come near the computer
- Nightmares or sleeping problems
- Running away, staying out overnight, missing school
- Changes in eating habits
- Talk of a new, older friend, boyfriend or girlfriend
- Losing contact with family and friends or becoming secretive
- Contracting sexually transmitted diseases.

Child Criminal Exploitation (CCE)

*CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any **criminal** activity. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through technology.*

Other examples include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country forced to shoplift or pickpocket, or to threaten other young people. Signs and symptoms of CCE are similar to those for CSE.

If **CSE** or **CCE** is suspected, then any concerns must be reported in line with our safeguarding procedures.

County Lines

The National Crime Agency (NCA) defines county lines as gangs and organised criminal networks involved in exporting illegal drugs from big cities into smaller towns, using dedicated mobile phone lines or other form of 'deal line.' Customers live in a different area to the dealers, so drug runners are needed to transport the drugs and collect payment.

Perpetrators often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. A child is targeted and recruited into county lines

If involvement in **county lines** is suspected, then any concerns must be reported in line with our safeguarding procedures.

through schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and care homes.

Signs and symptoms include:

- Changes in dress style
- Unexplained, unaffordable new things (for example, clothes, jewellery, cars etc.)
- Missing from home or school and/or significant decline in performance
- New friends with those who don't share any mutual friendships with the victim, gang association or isolation from peers or social networks
- Increase in anti-social behaviour in the community including weapons
- Receiving more texts or calls than usual
- Unexplained injuries
- Significant changes in emotional well-being
- Being seen in different cars or taxis driven by unknown adults
- A child being unfamiliar with where they are.

Cuckooing

Cuckooing is a form of county lines crime. In this instance, the drug dealers take over the home of a vulnerable person in order to criminally exploit them by using their home as a base for drug dealing, often in multi-occupancy or social housing properties.

Signs and symptoms include:

- An increase in people, particularly unknown people, entering or leaving a home or taking up residence
- An increase in cars or bikes outside a home
- A neighbour who hasn't been seen for an extended period
- Windows covered or curtains closed for a long period
- Change in resident's mood and/or demeanour (for example, secretive, withdrawn, aggressive or emotional)
- Substance misuse and/or drug paraphernalia
- Increased anti-social behaviour.

If **cuckooing** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child trafficking and modern slavery

Child trafficking and modern slavery are when children are recruited, moved, transported and then exploited, forced to work or are sold.

For a child to have been a victim of trafficking there must have been:

- **Action:** recruitment, transportation, transfer, harbouring or receipt of a child for the purpose of exploitation
- **Purpose:** sexual exploitation, forced labour or domestic servitude, slavery, financial exploitation, illegal adoption, removal of organs.

Modern slavery includes slavery, servitude and forced or compulsory labour and child trafficking. Victims of modern slavery are also likely to be subjected to other types of abuse such as physical, sexual and emotional abuse.

Signs and symptoms for children include:

- Being under control and reluctant to interact with others
- Having few personal belongings, wearing the same clothes every day or wearing unsuitable clothes
- Being unable to move around freely
- Appearing frightened, withdrawn, or showing signs of physical or emotional abuse.

If **child trafficking** or **modern slavery** are suspected, then any concerns must be reported in line with our safeguarding procedures.

Forced marriage

A forced marriage is defined as 'a marriage in which one, or both spouses, do not consent to the marriage but are coerced into it. Duress can include physical, psychological, financial, sexual and emotional pressure.'

Where incidents of forced marriage are shared by our own staff, students or volunteers, we will always respect confidentiality and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If it is suspected that a **forced marriage** is being planned, then any concerns must be reported in line with our safeguarding procedures.

'Honour' based abuse (HBA)

HBA is described as 'incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing.' (Keeping children safe in education). Such abuse can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their 'honour' code. It is a violation of human rights and may be domestic, emotional and/or sexual abuse such as being held against their will, threats of violence or actual assault. It often involves wider family networks or community pressure and so can include multiple perpetrators.

Signs and symptoms of HBA include:

- Changes in how the child dresses or acts, such as not 'western' clothing or make-up

- Visible injuries, or repeated injury, with unlikely explanations
- Signs of depression, anxiety or self-harm
- Frequent absences
- Restrictions on friends or attending events.

Where incidents of HBA are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If **honour-based abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child abuse linked to faith or belief (CALFB)

Child abuse linked to faith or belief (CALFB) can happen in families when there is a concept of belief in:

- Witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs)
- The evil eye or djinns (traditionally known in some Islamic faith contexts) and dakini (in the Hindu context)
- Ritual or multi-murders where the killing of children is believed to bring supernatural benefits, or the use of their body parts is believed to produce potent magical remedies
- Use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation
- Children's actions are believed to have brought bad fortune to the family or community.

If **CALFB** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Extremism and radicalisation

Under the Counter-Terrorism and Security Act 2015, there is a duty 'to help prevent the risk of people becoming terrorists or supporting terrorism'. This includes safeguarding learners from extremist ideologies and radicalisation to prevent them from being drawn into terrorism. This is known as the Prevent Duty.

Children can be exposed to different views and receive information from various sources and some of these views may be considered radical or extreme. Radicalisation is the way a person comes to support or be involved in extremism and terrorism; usually it's a gradual process so those who are affected may not realise what's happening. Radicalisation is a form of harm.

The process may involve:

- Being groomed online or in person
- Exploitation, including sexual exploitation
- Psychological manipulation
- Exposure to violent material and other inappropriate information
- The risk of physical harm or death through extremist acts.

For further information visit [The Prevent Duty](#) website.

If **radicalisation or extremism** is suspected, then any concerns must be reported in line with our safeguarding procedures. This includes reporting concerns to the police.

Online safety

While the growth of the internet and mobile device use brings many advantages, the use of technology has become a significant component of many safeguarding issues, such as child sexual exploitation and radicalisation.

There are four main areas of risk associated with online safety:

- Content - being exposed to illegal, inappropriate or harmful material such as pornography, fake news, racist or radical and extremist views
- Contact - being subjected to harmful online interaction with other users such as commercial advertising or adults posing as children or young adults
- Conduct - personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images and online bullying
- Commerce - risks such as online gambling, inappropriate advertising, phishing and or financial scams.

Report **online safety concerns** to the DSL and to the Child Exploitation and Online Protection Centre (CEOP): <https://www.ceop.police.uk/Safety-Centre/>
Inappropriate content received via email must be reported to the DSL and to the Internet Watch Foundation (IWF): <https://www.iwf.org.uk/en/uk-report/>

Up-skirting/down-blousing

Upskirting and downblousing are criminal offences. They involve taking pictures of someone's genitals, buttocks or other intimate images under their clothing without them knowing, either for sexual gratification or in order to humiliate or distress the individual.

If **up skirting or down blousing** is suspected, then any concerns must be reported in line with our safeguarding procedures.

PART 3: Reporting procedures

Public interest disclosure (whistleblowing)

Whistleblowing is the term used when a worker passes on information concerning wrongdoing. All safeguarding allegations, internal or external, current or historical, must be passed on the DSL. We will fully cooperate with the authorities involved and follow any guidance provided. *See the Whistleblowing policy, which outlines our procedures, including where staff may raise concerns about poor or unsafe practices in our safeguarding provision. All concerns will be taken seriously by the senior leadership team.*

We believe keeping children safe is the highest priority, and if, for whatever reason, concerns cannot be reported to the DSL or deputy DSL, or where a staff member feels that their genuine concerns are not being addressed, concerns can be reported anonymously to the LA social services safeguarding children team, the NSPCC, the police, or Ofsted.

Allegation against our staff

An allegation against our staff may relate to a person who has:

- *Behaved in a way that has harmed a child, or may have harmed a child*
- *Possibly committed a criminal offence against or related to a child*
- *Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, or*
- *Behaved or may have behaved in a way that indicates they may not be suitable to work with children.*

We will make every effort to maintain the confidentiality of all parties while an allegation or concern is being investigated. Dealing with an allegation can be a stressful experience and, to support the staff member, a named person (usually the DSL or Deputy DSL) to liaise with will be offered. The timeframes for an investigation will follow the guidelines of other involved authorities.

We reserve the right to suspend a staff member until the investigation is concluded. Further action will be determined by the outcome of the investigation.

Founded allegations are considered gross misconduct, in accordance with our disciplinary procedures, and may result in the termination of employment. DBS will be informed to ensure their records are updated and Ofsted will be informed. We retain the right to dismiss any member of staff in connection with founded allegations following an inquiry.

All safeguarding records are kept until the person reaches normal retirement age or for 22 years, if that is longer. This will ensure accurate information is available for references and future DBS checks and avoids unnecessary reinvestigation.

Unfounded allegations *will result in the reinstatement of all rights. A return-to-work plan will be put in place for any member of staff returning to work after an allegation has been deemed unfounded. Individual support will be offered to meet the needs of the staff member and the nature of the incident, such as more frequent supervisions, coaching and mentoring or external support services.*

If the member of staff resigns during the investigation, we will inform DBS, Ofsted and the police, where appropriate.

Support for staff during safeguarding incidents

The DSL will support staff throughout any of the processes listed above and will organise appropriate counselling should this be required.

Any member of staff who has concerns about the content of this policy and its procedures, should speak to the DSL as soon as possible. If any member of staff wishes to talk confidentially about any safeguarding concern or any other issue relating to child protection or personal circumstance, it is important to do this as soon as possible.

Reporting procedure

We will always act on behalf of the child and will do everything possible to ensure the safety and welfare of any child and so will take all allegations of potential abuse seriously. All concerns reported to staff will be pursued, regardless of the nature of the concern and to whom the allegation relates.

All staff have a responsibility to report safeguarding and child protection concerns and suspicions of abuse. These concerns will be discussed with the DSL as soon as possible, as follows:

	Staff member role on receiving information that causes a safeguarding concern	DSL role on receiving information that causes a safeguarding concern
Step 1	• Contact the DSL immediately. This must be a verbal conversation to ensure the concern is clearly understood and action is taken • If the DSL is unavailable, contact the OSL, LSP, NSPCC, social services or police until you are able to have a verbal conversation • For children who arrive at nursery with an existing injury, an 'incident outside nursery' form will be completed. If there are queries or concerns regarding the injury or information given, follow these procedures	• If it is believed a child is in immediate danger, contact the police

Step 2	• Write an objective report including: – Child's name and address – Age and date of birth – Date, time and location of the observation or disclosure – Exact words spoken by the child (as close to word-for-word as possible) and non-verbal communication – Outline of the concern – Exact position and type of any injuries or marks seen – Exact observation of any incident or concern reported and the names of any other person present at the time – Any known confidentiality issues – Signature and date of person making the report and the DSL or other nominated individual receiving the report	• Sign and date report received from staff member • Securely store the information according to the nursery procedures • If the safeguarding concern relates to a child, contact the Local Authority children's social care team, report concerns and seek advice immediately, or as soon as it is practical to do so • If the safeguarding concern relates to an allegation against an adult working or volunteering with children, contact the Local Authority Designated Officer (LADO) and request a confirmation email of the report, then report the concern to Ofsted • A full investigation into any allegation will be carried out by the appropriate professionals to determine how this will be handled • Note any actions requested by LADO / Ofsted and follow any instructions received
Step 3	• If you feel the report is not being taken seriously or are worried about an allegation getting back to the person in question, then it is your duty to inform the Local Authority children's social care team yourself directly • Follow all instructions from the Local Authority children's social care team and/or Ofsted, co-operating where required	• If appropriate, discuss the concerns or incidents with parent(s), unless it is believed that this would place the child at greater risk of harm • Record all discussions (remember parents will have access to these records on request in line with GDPR and data protection guidelines) • Follow all instructions from the Local Authority children's social care team and/or Ofsted, co-operating where required • Record information and actions

		taken
Step 4		If the DSL is not the owner/manager and there is an allegation against a member of staff, then the owner/manager must be informed as they have a duty of care for their employees
Step 5		- If the Local Authority children's social care team have not been in contact within the timeframe set out in Working Together to Safeguard Children, it must be followed up - Never assume that action has been taken
Step 6	Safeguarding procedures will be reviewed to ensure the process has been applied in line with the policy	

If a concern is raised anonymously and we have no contact details, we will treat the concern as valid and follow the procedures as above. If a malicious call is suspected, the procedures will still be followed: a child may be in danger. The Information Commissioners Office (ICO) will be contacted to ensure permitted data sharing.

PART 4: Recruitment, selection, induction and training

Recruitment and selection

By implementing our Safer Recruitment of Staff policy, we endeavour to prevent unsuitable individuals from becoming members of staff. We assess the suitability of new recruits in accordance with the procedures outlined in the Recruitment, Selection and Suitability of Staff policy.

Procedures include relevant checks, such as obtaining references, establishing the applicant's identity, and conducting criminal record disclosures prior to employment. Where required, staff and stakeholders have enhanced DBS checks. Clear person specification criteria and processes during the recruitment and selection process enable us to determine a candidate's suitability for the role.

We have specific responsibilities, as outlined in this policy, for any staff, apprentices, students and learners under the age of 18 whether living with their families, in state care, or living independently.

Induction and probation for staff

As part of our induction process, all new workers will receive basic training on this Safeguarding Children and Child Protection policy, equipping them with the necessary knowledge and skills to safeguard and promote the welfare of children.

Within the first week of induction, all staff will receive a copy of this policy. It is the line manager's responsibility to ensure that the new staff member understands it and is able to follow it. All safeguarding training must be completed by the end of the probationary period.

All staff are expected to keep their safeguarding knowledge and skills up-to-date and report any concerns they may have. We maintain records to ensure all staff have received the training they need.

Learners on placements or in employment

We are responsible for ensuring that learners on placement or in employment are familiar with, sign up to, and agree to work within this policy. Learners will receive basic child protection training prior to starting their placement.

Learners and students under 18 will be protected as children. Risk assessments will be completed to ensure their safety and well-being are protected and supported during their employment or training period. If situations arise during employment or placement that identify those aged 18 or under as being at risk of abuse or neglect, we will contact the appropriate bodies to ensure the individual is safeguarded.

Responding to and recording disclosures

Staff, volunteers or students may receive a safeguarding disclosure. See the guidance below for responding to and reporting disclosures of abuse.

Responding to a child's disclosure of abuse - what to do and say

- Stay calm and listen carefully
- Try not to look shocked and reassure them that this is not their fault
- Find an appropriate opportunity to say that the information will need to be shared and do not promise to keep the information shared a secret
- Allow the child to continue at their own pace
- Only ask questions for clarification and avoid asking any questions that may suggest a particular answer
- Reassure the child that they have done the right thing, let them know what you will do next and with whom the information will be shared
- Record the disclosure in writing using the child's own words as soon as possible, but not while the child is talking
- Includes the date and time, any names mentioned and to whom the information was given
- Sign and date the record, store it securely and refer the disclosure to the setting DSL and/or manager.

Recording a case of disclosure or suspicions of abuse in the community

If you observe a concern or receive a disclosure, make an objective record. Where possible include:

- Child's name and address
- Age of the child and date of birth
- Setting name and address
- Date and time of the observation or disclosure
- Details of the concern using factual information, including the exact words, if relevant
- Accurate details of the observation, including actions of the child or adult involved
- Accurate details of an injury or wound seen, including position and size
- The names of any other person present at the time
- Name of the person completing the report
- Name of the person to whom the concern was shared, with date and time.

Discuss the record with the setting DSL or manager and follow the procedures. We expect all members of staff and stakeholders to co-operate with relevant agencies to ensure the safety of children.

Legal framework

We adhere to all current legislation, as below:

Children and Social Work Act 2017
Criminal Justice and Court Services Act 2000
Female Genital Mutilation Act 2003 (as amended by the Serious Crime Act 2015)
Freedom of Information Act 2012
Safeguarding Vulnerable Groups Act 2006
The Childcare Act 2006
The Children Act 2004
The Children Act (England and Wales) 1989
The Counter-terrorism and Security Act 2015
The Data Protection Acts 1984, 1998 and 2018
The Domestic Abuse Act 2021
The Equality Act 2010
The Human Rights Act 1998
The Police Act 1997
The Sexual Offences Act 2003
Keeping Children Safe in Education
Working together to safeguard children

Relevant non-statutory guidance:

Christchurch Kindergarten Children's Nursery Limited

Absence Management Procedure

At **Christchurch Kindergarten Children's Nursery Limited**, we encourage all our employees to maximise their attendance at work, while recognising that they will, from time to time, be unable to attend due to sickness, illness, injury, or infection. By implementing this policy, we aim to strike a reasonable balance between pursuing our business needs and employees' genuine need to take occasional periods of time off work due to sickness. This procedure establishes a framework to support individuals and the organisation during sickness absence. It ensures that appropriate and consistent advice is provided and that assistance and support is offered to employees and, where necessary, action is taken.

Principles

We promote good health and aim to provide a healthy working environment, demonstrating a commitment to health, safety and the welfare of all staff to maximise attendance. Management is responsible for regularly monitoring and taking appropriate action regarding sickness and other unplanned absences.

Exclusion periods for contagious illnesses

Working with children means you are more likely to meet illnesses that can be highly contagious. We take the health of children and staff very seriously; therefore, if you have any infectious or contagious illness, you must adhere to the same exclusion periods as children. This will ensure you can recover appropriately and that this infection or illness is not passed on to other staff, children, or parents. The manager will advise you of any exclusion times required (see the Sickness and Illness and Infection control policy examples).

Sickness absence reporting procedure

Reporting sickness absence should be done using the following guidelines. Failure to follow these guidelines could delay any sick pay due to you and could possibly result in disciplinary action.

1. On your first day of absence, you must:
 - Telephone the nursery yourself and speak to the manager (on duty)
 - Give brief details of your illness and your expected length of absence.

Contact someone within a few hours of your normal start time. If you are due to start at *7:30/*8:00am, then please attempt to contact the manager at least 3-4 hours before your shift is due to start.

You should contact the nursery every day you are absent during the first week.

2. On returning to work, you must complete a copy of the 'Employee's statement of sickness self-certification form'. This should be signed by nursery management
3. For absences of more than seven consecutive days, including the weekend and non-working days, you must provide a 'fit note' completed by a qualified medical practitioner for the period of absence.

After returning to work from any sickness absence, a 'return to work' interview will be undertaken by the employee and their line manager.

During the return to work interview the following will be discussed:

- The reason for absence
- Whether any support is required and/or adjustments to the role (on a temporary or more permanent basis) and what they are. These might include regular catch-up meetings, adjusted work patterns, changes of duties
- Future requirements and expectations, e.g. improved attendance.

The return-to-work interview discussion is recorded using a set template (see below) and signed by both the manager and employee. A copy is attached to the employee's file.

Where an employee's attendance record raises concern due to the duration or frequency of absences, this is brought to the employee's attention through a discussion with the manager.

Throughout any stage of discussions on sickness absence, employees may be accompanied by a work colleague.

The abuse of sick leave and pay regulations may constitute misconduct and will be dealt with under the Disciplinary procedure.

Frequent and/or persistent short-term sickness absence

Short-term absence may consist of short, frequent periods of one or two days.

Absence of this nature can be identified by one of the following indicators and should be classed as a trigger:

- Four self-certified spells of absence in one calendar year
- A total of 10 working days or more of self-certified absence in one calendar year
- Patterns of absence over a period, e.g. an individual regularly taking Mondays or Fridays off
- Where an employee's attendance record is significantly worse than that of comparable employees, or absence problems have gone on for a considerable length of time.

Long-term sickness absence

For the purposes of the policy, the nursery defines long-term sickness absence as absences lasting over one month.

Where absences have lasted for 10 or more working days, the manager will contact the member of staff concerned to obtain an initial assessment of the sickness or injury.

At this point, and where felt appropriate after further assessment of the sickness or injury, the manager will arrange a face-to-face meeting or telephone conference between themselves and the member of staff. The meeting will include:

- Confirming the reasons and nature of the absence and its likely duration
- Ensuring that the member of staff is aware of the nursery's concern regarding their health and necessary absence from work
- Consideration of alternative duties or a shorter working week if this would enable a quicker return to work, subject to medical advice
- Consideration to any personal issues being encountered and discuss possible ways of helping the individual resolve these
- Advising the member of staff that in their best interests they may be asked to see a registered medical practitioner or occupational health provider appointed by the nursery to enable a medical report to be prepared
- Alternatively, and if appropriate, gain agreement from the member of staff to contact their doctor or specialist to establish the likely length of absence and the long-term effect on capability in relation to job performance and attendance at work.

If all other options have been investigated, the absence continues or, following return to work, the attendance record does not improve, a subsequent meeting would be arranged. At this point, and with legal advice, the manager may advise the member of staff on long term sickness absence that unless there are reasonable grounds to believe there will be an improvement in the foreseeable future, their ill health may put their employment at risk with the possibility of termination by reason of capability or suitability to work with children, taking into account any medical information available.

The position will be reviewed periodically and ultimately it may become necessary from a business perspective to consider termination of employment. In these circumstances, the nursery will:

- Review the employee's absence record to assess whether or not it is sufficient to justify dismissal
- Consult the employee
- Obtain up-to-date medical advice through the employee's GP and/or occupational health
- Seek legal advice, where applicable
- Advise the employee in writing as soon as it is established that termination of employment has become a possibility
- Meet with the employee to discuss the options and consider the employee's views on continuing employment

- Review if there are any other jobs that the employee could do prior to taking any decision on whether or not to dismiss
- Allow a right of appeal against any decision to dismiss the employee on grounds of long-term ill health
- Arrange a further meeting with the employee to determine any appeal
- Following this meeting, inform the employee of the final decision
- Act reasonably towards the employee at all times.

Any decision to terminate employment will be taken by the Director, making sure the Capability procedure has been exhausted.

Occupational health

The nursery reserves the right to request employees to attend an appointment with an Occupational Health Advisor (e.g. consultant, GP) during their employment, if it is reasonably deemed necessary due to sickness absence, changes in health or the role, or where it is necessary to seek an expert medical opinion as to whether or not the employee can fulfil their job role or whether any reasonable adjustments should be made to the employee's role.

The nursery will seek to engage the services of an independent Occupational Health Advisor in situations where expert medical opinion is required and work with them to identify the best course of action in circumstances of sickness absence.

Access to medical records

The Access to Medical Records Act 1988 gives individuals the right of access to medical records relating to themselves which have been prepared by a medical practitioner for employment purposes. The Act provides that:

- Employers must gain the consent of employees before requesting reports from medical practitioners
- Employers must inform employees of their rights in respect of medical reports
- The employee has the right of access to the report before the employer sees it, provided appropriate notification is given
- The employer is responsible for notifying the medical practitioner that the employee wishes to have access
- The employee may ask for a report to be amended or may attach a statement to the report
- Having seen the report, the employee may wish to withhold consent to it being supplied.

Where the nursery requests further medical information about the health of staff from an individual's general practitioner or specialist, or its own occupational health provider, the provisions of the Act will be followed.

Throughout any interviews regarding sickness absence, staff are entitled to the support of and/or representation by a work colleague or recognised trade union representative.

Serious illness or injury of an employee's immediate family

This will be reviewed on an individual basis by the nursery manager. You may also need to consider taking any annual leave or time off in lieu (TOIL) and working flexibly, i.e. making adjustments to the length of the working day, changes in hours or days worked, etc. This is all at the discretion of the manager and if ratios are maintained.

Death of a member of an employee's immediate family

This leave applies on the death of an employee's spouse, life partner, parent, brother, sister, grandparent, dependant or other relative for whom the employee has special responsibility or has had special ties. See the Bereavement leave policy in Employee Handbook.

Generally, the amount of time off required will be at the manager's discretion but it is advisable to either:

1. Set a defined amount of paid/unpaid time, or
2. Remove this in its entirety and deal with request as holiday and/or under the emergency time off provisions of the Employment Rights Act 1996 (s.57a).

Death of a child

If an employee experiences the death of their child under the age of 18, or suffers a stillbirth from 24 weeks of pregnancy, or has an abortion after 24 weeks (in very limited circumstances an abortion can take place after 24 weeks if the mother's life is at risk or the child would be born with a severe disability), the employee will be entitled to two weeks' paid leave, subject to meeting the eligibility criteria having been employed for at least 26 weeks (Parental Bereavement Leave and Pay Act 2018).

Additionally, an employee may take parental bereavement leave in the event of the death of an adopted child while on adoption leave or the death of a child while on shared parental leave. The amount of leave depends on the circumstances, and the employer will seek legal advice regarding the employee's individual circumstances at the time of the bereavement. See Employee handbook.

Legislation

- Data Protection Act 2018.

Related policies

- Whistleblowing
- Social networking
- Safeguarding children and child protection
- Online safety.

This policy describes the rights and responsibilities of staff using resources such as computers, tablets, the internet, landline and mobile telephones, and other electronic equipment. It explains the procedures you are expected to follow and makes clear what is considered acceptable behaviour when using them. These devices are a vital part of our business and should be used in accordance with our policies to protect children, staff, and families.

Security and passwords

All electronic devices will be password-protected, and passwords will be updated regularly. Passwords for our systems are confidential and must be kept as such. You must not share any passwords with any other person; in particular, you must not allow any other staff member to know or use your password.

Email

We expect all staff to identify misuse and follow good business practice when using email. As email is not a fully secure system of communication and can be intercepted by third parties, external email should not normally be used for confidential transactions. Emails must not be used to send abusive, offensive, sexist, racist, disability-biased, sexual orientation-based or defamatory material, including jokes, pictures or comments which are potentially offensive. Such use may constitute harassment and/or discrimination and may lead to disciplinary action up to and including summary dismissal. If you receive unwanted messages of this nature, you should bring them to your manager's attention.

Internet access

You must not use the internet facilities to visit, bookmark, download material from or upload material to inappropriate, obscene, pornographic or otherwise offensive websites. Such use constitutes misconduct and will lead to disciplinary action up to and including summary dismissal in serious cases.

Each employee has a responsibility to report any misuse of the internet or email. By not reporting such knowledge, the employee will be considered to be collaborating in the misuse. Each employee can be assured of confidentiality when reporting misuse.

Personal use of the internet, email and telephones

Any use of our electronic communication systems (including email, internet and telephones) for purposes other than the duty of your employment is not permitted.

Emergency personal calls need to be authorised by the manager and, where possible, be made on your own personal mobile phone outside the nursery.

Disciplinary action will be taken where:

- The privilege of using our equipment is abused, or
- Unauthorised time is spent on personal communications during working hours.

Data protection

When using any of our systems, employees must adhere to the requirements of the General Data Protection Regulation 2018 (GDPR). For more information, see our Data protection and confidentiality policy.

Downloading or installing software

Employees may not install any software that has not been cleared for use by the manager onto our computers or systems. Such action may result in disciplinary action, up to and including summary dismissal, in serious cases.

Using removable devices

Before using any removable storage media that has been used on hardware not owned by us (e.g., a USB pen drive, CD-ROM, etc.), the contents of the storage device must be virus-checked.

Christchurch Kindergarten Children's Nursery Limited

Access, Storage and Retention of Records Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we have an open access policy regarding information about the nursery and parents' own children. This policy is subject to data protection and document retention laws and should be used in conjunction with the Data Protection and Confidentiality Policy and the GDPR Privacy Notice.

Parents are welcome to review the nursery's policies and procedures, which govern its operations. These may be viewed at any time when the nursery is open, simply by asking the nursery manager for accessing the hard copy or accessing on the nursery website. The nursery manager or another relevant staff member will also explain any policies and procedures to parents or use other methods to ensure they understand them.

Parents are also welcome to view and contribute to all records kept on their child. However, we must adhere to data protection laws and, where relevant, to any guidance from the relevant child protection agencies.

As we hold personal information about staff and families, we are registered under data protection law with the Information Commissioner's Office. A copy of the certificate can be viewed on the **information board**. All parent, child, and staff information is stored securely in accordance with data protection registration requirements, including details, permissions, certificates, and photographic images. We will ensure that staff understand the need to protect the privacy of the children in their care, as well as the legal requirements governing the handling of information relating to the child, to ensure confidentiality.

We are required by legislation to keep certain records about children, parents, and staff members. Under this legislation, we are required to retain this information for a set period of time. Below is a brief overview of the information we keep and for how long. This policy should be used in conjunction with the Data Protection and Confidentiality Policy and the GDPR Privacy Notice.

Children's records: A reasonable period of time after children have left the provision. We follow the Local Authority procedure, which states they should be kept for **3** years.

Records relating to individual children e.g. care plans, speech and language referral forms: We will pass these on to the child's next school or setting following our Local Authority's protocols for transition and sharing of sensitive records.

Copies will be kept for a reasonable period. We follow the Local Authority procedure which states they should be kept for 25 years.

Accidents and pre-existing injuries: If relevant to child protection we will keep these until the child reaches 25 years old.

Safeguarding records and cause for concern forms: We will pass these on to the child's new educational establishment, e.g. school. In the event that we are not informed of the child's new placement, we will keep the records until the child has reached 25 years old.

Records of any reportable death, injury, disease or dangerous occurrence (for children): As these incidents could result in potential negligence claims, or evolve into a more serious health condition, we keep records until the child reaches the age of 25 years.

Records of any reportable death, injury, disease or dangerous occurrence (for staff): 3 years.

Type of accidents including fractures, broken limbs, serious head injuries or where the child is hospitalised: Until the child reaches the age of 25 years.

Observation, planning and assessment records of children: We keep our planning filed since the last inspection date so there is a paperwork trail if the inspector needs to see it.

Information and assessments about individual children are either given to parents when the child leaves or to the next setting or school that the child moves to (with parents' permission).

Personnel files and training records (including disciplinary records and working time records): 7 years.

Visitor signing in book: Up to 24 years as part of the child protection trail.

Nursery records and documentation that are not required to be kept are deleted or destroyed in line with the current data protection laws and our GDPR privacy notice which can be found **online**.

If parents have a specific deletion or retention request regarding any data that we hold, please raise a query in writing and we will respond formally to your request.

This policy will be reviewed annually and amended according to any change in law and/or legislation.

Christchurch Kindergarten Children's Nursery Limited

Accidents and First Aid Policy

At **Christchurch Kindergarten Children's Nursery Limited**, the safety of all children is paramount, and we have measures in place to help protect children. However, sometimes accidents do unavoidably happen.

We follow this policy to ensure all parties are supported and cared for when accidents or incidents happen¹ and that the circumstances of the accident or incident are reviewed with a view to minimising any future risks.

Accidents or incidents

When an accident or incident occurs, we ensure:

- The child is comforted and reassured first
- The extent of the injury is assessed, and if necessary, a call is made for medical support or an ambulance
- First aid procedures are carried out where necessary, by a trained paediatric first aider
- The person responsible for reporting accidents, incidents or near misses is the member of staff who saw the incident or was first to find the child where there are no witnesses
- The accident or incident is recorded on an accident/incident form and it is reported to the nursery manager. Other staff who have witnessed the accident may also countersign the form and, in more serious cases, provide a statement. This should be done as soon as the accident is dealt with, whilst the details are still clearly remembered
- Parents are shown the accident/incident form and informed of any first aid treatment given. Parents are asked to sign the document the same day, or as soon as reasonably practicable after
- The nursery manager reviews the accident/incident forms every term for patterns, e.g. one child having a repeated number of accidents, a particular area in the nursery or a particular time of the day when most accidents happen. Any patterns are investigated by the nursery manager and all necessary steps to reduce risks are put in place
- The nursery manager reports any serious accidents or incidents to the registered person for investigation for further action to be taken (i.e. a full risk assessment or

¹ An accident is an unfortunate event or occurrence that happens unexpectedly and unintentionally, typically resulting in an injury, for example tripping over and hurting your knee.

An incident is an event or occurrence that is related to another person, typically resulting in an injury, for example being pushed over and hurting your knee.

report under Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR))

- The accident forms are kept for at least 40 years.
- Where medical attention is required, a senior member of staff will notify the parent(s) as soon as possible whilst caring for the child appropriately
- Where medical treatment is required the nursery manager will follow the insurance company procedures, which may involve informing them in writing of the accident
- The nursery manager or registered provider will report any accidents of a serious nature to Ofsted and the local authority children's social care team (as the local child protection agency), where necessary. Where relevant, such accidents will also be reported to the local authority environmental health department or the Health and Safety Executive and their advice followed

Accident and incident records will be reviewed termly to identify if there are trends or common features that could be addressed to reduce the risks of accidents and incidents in the setting. Appropriate action will be taken to address any identified concerns.

Head injuries

If a child receives a head injury while in the setting then we will follow this procedure:

- Comfort, calm and reassure the child
- Assess the child's condition to ascertain if a hospital or ambulance is required. We will follow our procedures if this is required (see below)
- If the skin is not broken, we will administer a cold compress for short periods of time, repeated until the parent arrives to collect their child
- If the skin is broken, then we will follow our first aid training and stem the bleeding
- Call the parent and make them aware of the injury and if they need to collect their child

- Complete the accident form
- Keep the child in a calm and quiet area whilst awaiting collection, where applicable
- We will continue to monitor the child and follow the advice on the NHS website as per all head injuries <https://www.nhs.uk/conditions/minor-head-injury/>
- For major head injuries, we will follow our paediatric first aid training.

Choking

When a child experiences a choking incident that requires intervention, we will:

- Record details of where and how the child choked
- Make parents aware of the incident.

Transporting children to the hospital procedure

The nursery manager or staff member must:

- In the event of an accident, if the child's condition is life-threatening or requires emergency treatment, an ambulance will be called immediately. If the injury is not life-threatening but medical attention is required, the child will be taken to the hospital by minicab and accompanied by a member of staff.
- Whilst waiting for the ambulance/ mini cab, contact the parents and arrange to meet them at the hospital
- Arrange for the most appropriate member of staff to accompany the child, taking with them any relevant information such as registration forms, relevant medication sheets, medication and the child's comforter
- Redeploy staff if necessary to ensure there is adequate staff deployment to care for the remaining children. This may mean temporarily grouping the children together
- Inform a member of the management team immediately
- Remain calm at all times. Children who witness an incident may be affected and need lots of cuddles and reassurance. Staff may also require additional support following the accident.

First aid

The first aid boxes are located in:

These are always accessible with appropriate content for use with children.

The appointed person is the Deputy Manager responsible for first aid checks the contents of the boxes once a month, who checks for out of date items and logs on the shopping list for replenishments.

First aid boxes should only contain items permitted by the Health and Safety (First Aid) Regulations 1981, such as sterile dressings, bandages and eye pads. No other medical items should be kept in the first aid box. Piriton and 2 sachets of Calpol to be stored in the first aid box.

All members of staff are responsible for first aiding.

Majority of the staff are trained in paediatric first aid, and this training is updated every three years.

We ensure there is at least one person on the premises who holds a current full (12-hour) paediatric first aid (PFA) certificate and is always available when children are present.

All first aid-trained staff are listed in every room. When children are taken on an outing away from our nursery, we will always ensure they are accompanied by at least one member of staff who holds a current full (12-hour) PFA certificate. A first aid box is taken on all outings, along with any medication that needs to be administered in an emergency, including inhalers, epi-pen if required etc.

Food safety and play

Children are supervised during mealtimes, and food is cut into appropriate sizes to reduce the risk of choking. The use of food as a play material is discouraged. However, as we understand that learning experiences are provided through exploring different malleable materials, the following may be used:

- Playdough
- Cornflour
- Dried pasta, rice and pulses (*no red kidney beans*)

These are risk assessed and presented differently to the way it would be presented for eating, e.g. in tuff trays.

Food items may also be incorporated into the role play area to enrich the learning experiences for children, e.g. fruits and vegetables. Children will be fully supervised during these activities.

Food that could cause a choking hazard, including raw jelly, is not used.

Personal protective equipment (PPE)

The nursery provides staff with PPE based on the task or activity. Staff must wear PPE to protect themselves and the children during tasks that involve contact with bodily fluids. PPE is also provided for domestic tasks. Staff are consulted when procuring PPE to ensure all allergies and individual needs are supported, and this is evaluated on an ongoing basis.

Dealing with blood

We may not be aware that any child attending the nursery has a condition that may be transmitted via blood. Any staff member dealing with blood must:

- Always take precautions when cleaning wounds, as some conditions, such as hepatitis or HIV virus can be transmitted via blood
- Wear disposable gloves and wipe up any blood spillage with disposable cloths, neat sterilising fluid or freshly diluted bleach (one part diluted with 10 parts water). Such solutions must be carefully disposed of immediately after use.

Needle punctures and sharps injury

We recognise that injuries from needles, broken glass, and similar sources may result in blood-borne infections, and that staff must take great care in the collection and disposal of this type of material. For the safety and well-being of the employees, any staff member dealing with needles, broken glass, etc. must treat them as contaminated waste.

Parents of children requiring needles as part of managing a medical condition should supply the nursery with an approved sharps box for safe disposal. Full boxes will be returned to the parents.

If a needle is found, e.g., on the nursery grounds, the local authority must be contacted to arrange its disposal

We treat our responsibilities and obligations in respect of health and safety as a priority and provide ongoing training to all members of staff, which reflects best practice and is in line with current health and safety legislation.

This policy is updated as and when required in consultation with staff and parents and/or after a serious accident or incident

Christchurch Kindergarten Children's Nursery Limited

Admissions Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we care for children aged 9 months to 5 years. Those situated in the Children Centre age from 2 year to 5 years. (9 months in line with the funding).

The numbers and ages of children admitted to the nursery comply with the legal space requirements set out in the Early Years Foundation Stage (EYFS). When considering admissions, we are mindful of staff: child ratios and the facilities available at the nursery.

A child requiring a full-time place may have preference over one requiring a part-time place. This is dependent upon work commitments, occupancy and room availability. We operate a waiting list, and places are offered on a first-come, first-served basis.

We operate an Inclusion and equality policy and ensure that all children have access to nursery places and services irrespective of their gender, race, disability, religion or belief, or the sexual orientation of their parents.

Before a child attends nursery, parents must complete and sign the acceptance and registration forms. These forms provide the nursery with the child's personal details. For example, name, date of birth, address, emergency contact details, parental responsibilities, dietary requirements, collection arrangements, fees and sessions, contact details for parents, doctor's contact details, health visitor contact details, allergies, parental consent and vaccinations etc.

Providers eligible to provide government-funded places for early education

All settings registered to accept government funding must offer funded places for eligible children in the early learning sessions specified by the local authority. These places will be allocated on a first-come first-served basis and can be booked in advance. Please note that for admissions to government-funded nursery education places, we have a termly intake, beginning the term after your child reaches the age of eligibility.

All funded sessions are now in line with the Government's flexible arrangement. When you register your child for their funded place, we will discuss your needs and, as far as possible, accommodate your wishes within the constraints of availability and staffing arrangements. We reserve the right to limit and/or have specific funded sessions, according to our business requirements.

Christchurch Kindergarten Children's Nursery Limited

Alcohol and Substance Misuse Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we are committed to taking all necessary steps to keep children safe and well. This includes making sure that children are not exposed to adults who may be under the influence of alcohol or other substances that may affect their ability to care for them.

This policy is in line with the Health and Safety at Work Act 1974 and the Misuse of Drugs Act 1971. This should be read in conjunction with the Safeguarding Children and Child Protection Policy, Disciplinary Procedure, and Suitability of Staff Policy.

Alcohol

Under the Health and Safety at Work Act 1974, companies are legally required to provide a safe working environment for all their employees.

Any member of staff who arrives at the nursery clearly under the influence of alcohol will be asked to leave. The nursery will investigate the matter and will initiate the Disciplinary procedure, as a result of which action may be taken, including dismissal. Staff can still be under the influence of alcohol the following day, and staff should be aware of this, ensuring this is not the case when starting work.

If they are a parent, the nursery manager and/or designated safeguarding lead will judge if the parent is suitable to care for the child. This may involve calling the second contact listed on the child's registration form to pick them up. If a child is considered at risk, the nursery will follow the Safeguarding Children and Child Protection procedures. If anyone arrives at the nursery in control of a car under the influence of alcohol, the police will be contacted.

Staff, students, parents, carers, visitors, contractors, etc. must not bring alcohol onto the nursery premises.

Substance misuse

Anyone who arrives at the nursery under the influence of illegal drugs or any other substance, including medication, that affects their ability to care for children, will be asked to leave the premises immediately.

If they are a member of staff, an investigation will follow, which may lead to disciplinary action, after which dismissal could follow.

If they are a parent, the nursery manager and/or designated safeguarding lead will judge if the parent is suitable to care for the child. This may involve calling the second contact listed on the child's registration form to pick them up. If a child is considered at risk, the nursery will follow the Safeguarding Children and Child Protection procedures.

The nursery manager will contact the police if anyone (including staff, students, volunteers, contractors and visitors) is suspected of being in possession of illegal drugs or if they are driving or may drive when under the influence of illegal drugs. If they are a member of staff, Disciplinary procedures will be followed.

If a member of staff is taking medication that may affect their ability to care for children, they must seek medical advice and inform the nursery manager as soon as possible to arrange a risk assessment. This will ensure that staff members only work directly with children if medical advice confirms that the medication is unlikely to impair that staff member's ability to properly care for the children.

Any medication on the premises is stored securely and out of reach of children at all times.

If the nursery suspects a member of staff may have a drug or alcohol problem, but there is no evidence

If the nursery suspects there may be an issue with drugs or alcohol (such as from observations, poor performance, changes in behaviour, sickness and/or staff feedback) but there is no evidence that it is happening during working hours or that they are arriving at work under the influence of drugs or alcohol a meeting will be held with the member of staff and manager to investigate the health concerns.

Support and referral to appropriate services may be offered to the staff member if this is considered appropriate.

Confidentiality will be maintained at all times.

The staff member will be reminded that Disciplinary procedures will apply if they attend work under the influence of drugs or alcohol.

Safeguarding and child protection

If a parent is clearly over the alcohol limit or under the influence of illegal drugs, and it is believed the child is at risk, we will follow our Safeguarding Children and Child Protection procedures, contacting the local authority children's social care team and the police.

Staff will do their utmost to prevent a child from travelling in a vehicle driven by a parent suspected of being over the alcohol limit or under the influence of illegal drugs. If necessary, the police will be called.

Where an illegal act is suspected, the police will be called.

Christchurch Kindergarten Children's Nursery Limited

Allergies and Allergic Reactions Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we are aware that children may have or develop allergies that can result in an allergic reaction.

We aim to minimise or, where possible, prevent allergic reactions and ensure that staff are fully aware of how to support a child experiencing an allergic reaction.

Our procedures

- All staff are made aware of the signs and symptoms of a possible allergic reaction in case of an unknown or first reaction in a child. These may include a rash or hives, nausea, stomach pain, diarrhoea, itchy skin, runny eyes, shortness of breath, chest pain, swelling of the mouth and/or tongue, swelling of the airways to the lungs, wheezing and anaphylaxis. Staff are trained in appropriate treatments for allergies and anaphylaxis, the differences between allergies and intolerances and that children can develop allergies at any time, especially during the introduction of solid foods
- Before a child is admitted to the setting, we obtain information about special dietary requirements, preferences, food allergies and intolerances that the child has
- We have ongoing discussions with parents and, where appropriate, health professionals to develop allergy plans for managing any known allergies and intolerances. We ask parents to inform staff of any allergies or intolerances discovered after registration
- We share all information with all staff involved in the preparation and handling of food, including at mealtimes and snack times and keep an allergy list in the snack/lunch area.
- Where a child has a known allergy, the nursery manager will carry out a full allergy risk assessment with the parent prior to the child starting the nursery and/or following notification of a known allergy and this assessment is shared with all staff. This may involve displaying photos of the children along with their known allergies in the kitchen or nursery rooms, where applicable
- All food prepared for a child with a specific allergy is prepared in an area where there is no chance of contamination and served on equipment that has not been in contact with this specific food type, e.g. nuts, gluten
- At each mealtime and snack time, we ensure staff are clear who is responsible for checking that the food being provided meets all the requirements for each child

- Seating is monitored for children with allergies. Where deemed appropriate, staff will sit with children who have allergies, and where appropriate, staff will discuss food allergies with the children and the potential risks
- If a child has an allergic reaction to food, a bee or wasp sting, plant, etc., a paediatric first aid trained member of staff will act quickly and administer the appropriate treatment, where necessary. We will inform parents and record the information in the incident book and on the allergy register
- If an allergic reaction requires specialist treatment, e.g. an EpiPen, then at least two members of staff working directly with the child and the manager will receive specific medical training to be able to administer the treatment to each individual child.

Shared Lunch with Allergy Awareness on the event days

To ensure the safety of all children, particularly those with allergies (including dairy, nuts, and eggs) We ask for your support in the following areas:

- 1/ Parents MUST accompany their child, and please supervise them during the event.
- 2/ Provide food accordingly with your child's needs.

In the event of a serious allergic reaction and a child needing to be transported to the hospital.

The nursery manager or staff member will:

- Call for an ambulance immediately if the allergic reaction is severe follow their instructions.. Staff will not attempt to transport the sick child in their own vehicle
- Ensure someone contacts the parents whilst waiting for the ambulance and arrange to meet them at the hospital
- Arrange for the most appropriate member of staff to accompany the child, taking with them any relevant information such as registration forms, relevant medication sheets, medication and the child's comforter
- Redeploy staff if necessary to ensure there is adequate staff deployment to care for the remaining children. This may mean temporarily grouping the children together
- Inform a member of the management team immediately
- Remain calm at all times and continue to comfort and reassure the child experiencing an allergic reaction. Children who witness the incident may also be affected and need lots of cuddles and reassurance. Staff may also require additional support following the incident
- Where a serious incident occurs, and a child requires hospital treatment, Ofsted will be informed.

If a child has an accident that may require hospital treatment but not an ambulance, and you choose to transport children within staff vehicles, Citation advises you to consider the following in your policy:

- *Request permission from parents*
- *Wherever possible and practicable it is advisable that transport is undertaken other than in private staff vehicles. Call a cab take child with at least one adult. Staff should ensure that their behaviour is safe and that the transport arrangements and the vehicle meet all legal requirements.*
- *Plan emergency procedures, e.g. what will happen if the child's health begins to deteriorate during the journey.*

This policy is updated at least annually in consultation with staff and parents and/or after a serious incident.

Christchurch Kindergarten Children's Nursery Limited

Animal Health and Safety Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we recognise the value animals and pets can bring to the emotional needs of children and adults. Caring for animals and pets also gives children the opportunity to learn how to be gentle and responsible for others, and supports their learning and development.

We recognise that preparation is key and have researched our choice(s) of animals, including gender, breed, numbers living together and suitability for our environment, taking relevant advice from [Blue Cross](#).

Pets from home

- If a child brings a pet from home to visit the nursery as a planned activity, parents of all children who will be in contact with or in the same area as the pet are informed. We complete a full, documented risk assessment prior to the pet visiting and analyse any risks before this type of activity is authorised
- Pets are not allowed near food, dishes, worktops or food preparation areas. Children will wash their hands with soap and water after handling animals and will be encouraged not to place their hands in their mouths during the activity. The staff will explain the importance of this to the children
- Children will be encouraged to leave their comforters and dummies away from the animals to limit cross-contamination.

Visits to farms

- A site visit is made by a senior member of staff before an outing to a farm can be arranged. We check that the farm is well-managed, that the grounds and public areas are as clean as possible, and that suitable first-aid arrangements are in place. Animals should be prohibited from any outdoor picnic areas
- We check that the farm has suitable hand-washing facilities, appropriately signposted, with running water, soap and disposable towels or hot air hand dryers. Any portable water taps should be appropriately designed in a suitable area
- We ensure that there is an adequate number of adults to supervise the children, taking into account the needs of the children
- We explain to the children that they will not be allowed to eat or drink anything, including crisps and sweets, or place their hands in their mouths, while touring the farm, because of the risk of infection and explain why

- We ensure suitable precautions are in place where appropriate, e.g. in restricted areas such as near slurry pits or where animals are isolated.

During the visit

- If children are in contact with or feeding animals, we will warn them not to place their faces against the animals or put their hands in their own mouths afterwards, and explain why
- We will encourage children to leave comforters (e.g. soft toys and blankets) and dummies either at nursery, in the transport used or in a bag carried by a member of staff to limit cross-contamination
- After contact with animals and particularly before eating and drinking, we will ensure all children, staff and volunteers wash and dry their hands thoroughly. If young children are in the group, hand washing will be supervised. We will always explain why the children need to do this
- Meals, breaks, or snacks will be taken well away from the areas where animals are kept, and children will be warned not to eat anything which has fallen on the ground. Any crops produced on the farm will be thoroughly washed in potable water before consumption
- We will ensure children do not consume unpasteurised produce, e.g. milk or cheese
- Manure or slurry presents a particular risk of infection, and children will be warned against touching it. If they do touch it, we will ensure that they thoroughly wash and dry their hands immediately
- We will ensure all children, staff and volunteers wash their hands thoroughly before departure
- We will ensure that footwear and clothing are as free as possible from faecal materials.

Christchurch Kindergarten Children's Nursery Limited

Anti-Bribery Policy

Legislation

The Bribery Act 2010 creates an offence committed by an organisation that fails to prevent persons associated with it from committing bribery on its behalf, provided that the person performs services for it in the course of business. It is unlikely that the organisation will be liable for the actions of someone who simply supplies goods to you. There is full defence if it can be shown that there are adequate procedures and risk assessments in place to prevent bribery.

At **Christchurch Kindergarten Children's Nursery Limited**, we have adopted this policy to ensure that we have adequate procedures in place that are proportionate to the bribery risks we face. It is our policy to conduct all of our business in an honest and ethical manner. We take a zero-tolerance approach to bribery and corruption and are committed to acting professionally, fairly and with integrity in all our dealings wherever we operate. We are also committed to implementing and enforcing effective systems to counter bribery.

What is a bribe?

A bribe is a financial or other advantage offered or given:

- To anyone to persuade anyone to or reward them for performing their duties improperly
- To any public official with the intention of influencing the official in the performance of his/her duties.

Gifts and hospitality

A 'gift' is defined as any item, cash, goods, or any service which is offered for personal benefit at a cost, or no cost, that is less than its commercial value. You should consider the following if a gift is offered:

- Whether it is appropriate to accept it
- Decline gifts unless to do so would cause serious embarrassment

Parents may wish to thank nursery staff for looking after their children with Christmas gifts or gifts when the child moves on from a particular room or leaves the nursery. This is perfectly understandable. Each staff member is responsible for deciding whether to accept this gift and whether to share it with the wider team. If in any doubt, staff should discuss this with the nursery manager.

The nursery will not accept gifts from service providers. This may be deemed as a bribe to maintain a contract. The nursery will always remain transparent and open. Any gifts received will be recorded in the central gift register.

Christchurch Kindergarten Children's Nursery Limited

Arrivals and Departures Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we give a warm welcome and goodbye to every child and family on their arrival and departure, as well as ensuring the safety of children, parents, visitors, employees, volunteers and students.

Parents are requested to hand over the care of their child to a specific member of staff who will ensure their child's safety (this is usually a child's key person). The staff member receiving the child immediately records his/her arrival in the daily attendance register. The staff member also records any specific information provided by the parents, including the child's interests, experiences and observations from home.

If the parent requests that the child be given medicine during the day, the staff member must ensure that the Medication procedure is followed.

If the child is to be collected by someone who is not the parent at the end of the session, an agreed procedure must be followed to identify the designated person. Photo identification *and/*or a password issued by the nursery is required, where possible, for the designated adult. This must be logged in the "pick up authority book" log and sign by the person who picked up.

Parents are informed about these arrangements and reminded about them regularly. Other than the child's parents or legal guardian, we do not allow anyone under 18 to collect. If anyone under 18 arrives to collect a child, the parent will be contacted.

The child's key person or another nominated staff member must plan the child's departure. This should include opportunities to discuss the child's day with the parent, in addition to what may already be shared via electronic systems, e.g., meals, sleep time, activities, interests, progress, and friendships. The parent should be told about any accidents or incidents, and the appropriate records must be signed by the parent before departure. Where applicable, all medicines should be recovered from the medicine box or fridge after the parent has arrived and handed to him/her personally. The Medication policy is to be followed regarding parent signatures.

The nursery will not release a child to anyone other than the known parent unless a prior agreement has been made. In the event of an emergency, such as a parent being delayed and needing to arrange for a designated adult to collect a child, the parent should inform the designated adult of the agreed procedure and contact the nursery about the arrangements as soon as possible. If in any doubt, the nursery will check the person's

identity by ringing the child's parent or their emergency contact number (please refer to the Late collection and non-collection of children policy). Late fees are applicable.

Upon departure, the staff member releasing the child must immediately mark the attendance register to indicate that the child has left the premises.

Parents will be informed and reminded not to allow any other person onto the premises when dropping off or collecting, to always ensure safety.

In the unlikely event that someone gains unauthorised access to the premises, and if it feels safe to do so, a member of staff will ask the person the purpose of their visit. If needed, our Lockdown policy will be initiated by staff, and the police will be called. In any cases where someone has gained unauthorised access to the premises, we will revisit our Arrivals and departures procedures and risk assessment.

Adults arriving under the influence of alcohol or drugs

Please refer to the Alcohol and substance misuse policy.

Arrivals and departures of visitors

For arrivals and departures of visitors, the nursery requires appropriate records to be completed on entry and exit, e.g. in the visitors' book. Please refer to the Supervision of visitors' policy for further information.

Staff, students and volunteers

Staff, students, and volunteers are responsible for signing in and out of the building, including during breaks and lunchtimes.

Christchurch Kindergarten Children's Nursery Limited

Attendance Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we believe good attendance plays a fundamental role in supporting children's educational achievement, well-being, and safety. Establishing regular routines for young children supports the settling-in process and enhances their sense of security and belonging.

This policy outlines the procedures for promoting and monitoring attendance, as well as those to be followed if a child is absent from the setting. We wish to create a culture where good attendance and punctuality are valued by all, and so we will work with parents to work together to remove barriers to attendance. We recognise that sometimes families may need extra support with attendance; therefore, effective communication is essential between parents and the key person, who may be able to offer advice and support, or referrals to other agencies that can help, such as the health visiting team, portage, or early help.

To promote good attendance, we will:

- Share our attendance expectations with parents prior to admission, including conveying clearly to parents that regular attendance and punctuality
 - Is expected
 - Is in the child's best interest, and
 - That unexplained absence will be investigated
- Keep records of attendance to enable monitoring and evaluation so that emerging patterns are addressed
- Foster a positive attitude to good attendance by quickly responding to children's absence while also recognising and celebrating 'good' and 'improving' attendance
- Target attendance where there has been an issue and aim to set in place strategies and techniques to support improvement.

Whilst attendance at nursery is not statutory, authorised absence will be granted in the following circumstances, where parents inform the nursery on the first day of absence or prior to the first day of absence:

- Illness of the child
- Illness of siblings or parents
- Bereavement
- Health services appointments
- Holidays, including extended visits to family overseas
- Religious observance
- Emergency or exceptional circumstances

Monitoring attendance

Records of children's attendance are accurately kept and regularly monitored to ensure that we can identify any potential problems and look for patterns. All managers and staff are alert to signs that children and learners who are missing might be at risk of abuse or neglect, and appropriate action is taken when children stop attending. While we are aware that attendance is not statutory, we recognise that non-attendance may indicate other concerns. All managers and staff are particularly aware of the need to monitor groups, such as those considered vulnerable learners.

Procedures to record, monitor and follow up on non-attendance

Registration will be completed at the start of each session within 10 minutes of the start time to record attendance or non-attendance.

Non-attendance:

- If a child is absent and we are informed of their reason for absence, this will be recorded on the register
- If a child is absent without an explanation, a telephone call (to priority and secondary numbers, e.g. home and work) will be made to the main carer to establish the reason for the absence
- If no contact is made, then we will follow this process:
 - Contact any second main carer (to priority and secondary numbers, e.g. home and work)
 - Contact the first emergency contact number
 - Contact the second emergency contact number.
- If contact cannot be made by telephone call, a home visit may be carried out, and a contact postcard will be posted through your door if there is no response
- If there continues to be no contact and there is cause for concern, the health visiting service and/or the Children and Family service will be contacted to ascertain if family support may be needed
- In more urgent cases, the police may be contacted to carry out a welfare check.

Leaving the nursery

If you decide to withdraw your child from the nursery, please refer to our Registration form Terms and Conditions for the notice periods. This will ensure that we remove your child from our systems and, therefore, will not expect them to attend.

If your child is transitioning to another early year's provider or school, please provide us with the details of the new setting so that we can transfer essential information, such as their unique pupil number or funding eligibility code.

Christchurch Kindergarten Children's Nursery Limited

Bereavement Policy

Legislation

- The Parental Bereavement Leave and Pay Act 2018.

At **Christchurch Kindergarten Children's Nursery Limited**, we recognise that children and their families may experience grief and the loss of close family members, friends, or family pets whilst in the nursery. We understand that this is not only a difficult time for families but may also be confusing for young children, especially if they have little or no understanding of why their family is upset and why this person or pet is no longer around.

We aim to support both the child and their family and will adapt the following procedure to suit their individual needs and family preferences:

- We ask that if there is a loss of a family member or close friend, the parents inform the nursery as soon as they feel able to. This will enable us to support both the child and the family wherever we can, and help us to understand any potential changes in the behaviour of a child who may be grieving themselves
- The key person and/or the manager will talk with the family to ascertain what support is needed or wanted from the nursery. This may be an informal discussion or a meeting away from the child to help calm a potentially upsetting situation
- The child may need extra support or one-to-one care during this difficult time. We will adapt our staffing arrangements, so the child is fully supported by the most appropriate member of staff on duty, where possible, the child's key person
- We will be as flexible as possible to adapt the sessions the child and family may need during this time.

We will adapt the above procedure as appropriate when a family pet dies to help the child to understand their loss and support their emotions through this time.

We also recognise that there may also be rare occasions when the nursery team is affected by a death of a child or member of staff. This will be a difficult time for the staff team, children and families. Below are some agencies that may be able to offer further support and counselling if this occurs.

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Biting Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we always promote positive behaviour. We understand that children may use certain behaviours, such as biting, to communicate their feelings and needs. Biting is a common behaviour that some children use to make sense of the world around them and manage interactions with others. It can be triggered when they do not have the words to express their anger, frustration, or needs. It can also be used to fulfil an oral stimulation need, such as during periods of teething or developmental exploration. Sometimes biting can be due to a special educational need and/or disability.

The nursery uses the following strategies to help prevent biting:

- Individual, one-to-one and small group times so that each child is receiving positive attention
- Quiet and cosy areas for children who are feeling overwhelmed to go to
- Stories, puppets and discussions about emotions and feelings, including activities and stories that help support children to recognise feelings and empathise with characters and events
- Additional resources for children who have oral stimulation needs, such as teething rings or chew necklaces
- Vigilant staff who know the children well are able to identify when children need more stimulation or quiet times
- Adequate resources are provided and, where possible, more than one resource or toy is sought to minimise conflicts.

Every child is treated as an individual, and we work with families to support each child's unique needs. It will be necessary to implement different strategies based on the child's biting needs.

In the event of a child being bitten, we use the following procedures.

The most relevant staff member(s) will:

- Comfort any child who has been bitten and check for any visible injury. Administer any paediatric first aid where necessary and complete an accident form once the child is settled again. If deemed appropriate, the parents will be informed via telephone. Staff will continue to observe the bitten area for signs of infection. For confidentiality purposes and possible conflict, we do not disclose to the parents the name of the child who has caused the bite

- Tell the child who has caused the bite in terms that they understand that biting (the behaviour and not the child) is unkind and show the child that it makes staff and the child who has been bitten sad
- Ask the child what they can do to make the 'child who has been bitten' feel better (this could be fetching them a toy or sharing toys with them, a rub on the back, etc.)
- Complete an incident form to share with the parents at the end of the child's session
- If a child continues to bite, carry out observations to try to distinguish a cause, e.g. tiredness or frustration
- Arrange for a meeting with the child's parents to develop strategies to prevent ongoing biting behaviour. Parents will be reassured that it is part of a child's development and not made to feel that it is their fault
- Arrange for a meeting with the parent whose child has been bitten, particularly if the child has been bitten several times, to provide reassurance that the nursery is managing biting incidents effectively
- In the event of a bite breaking the skin and to reduce the risk of infection from bacteria, give prompt treatment to both the child who has bitten and the child who has been bitten
- If a child or member of staff sustains a bite wound where the skin has been severely broken, arrange for urgent medical attention after initial first aid has been carried out.

In cases where a child may repeatedly bite and/or if they have a particular special educational need or disability that lends itself to increased biting, for example, in some cases of autism where a child doesn't have the communication skills, the nursery manager will carry out a risk assessment and may recommend immunisation with the hepatitis B vaccine for all staff and children.

Christchurch Kindergarten Children's Nursery Limited

Caring for Babies and Toddlers Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we care for babies and toddlers under the age of two as well as pre-school children.

We ensure their health, safety and well-being through the following:

- Always implementing the EYFS requirements and caring for babies and toddlers in a maximum number of children with a minimum required ratios.
- Allocating each baby and toddler a key person who works in partnership with their parent to meet their individual needs and routines
- Having well-qualified staff who understand the needs of babies and toddlers, ensuring that at least half of the staff team caring for children under the age of two have undertaken specific training for working with babies
- Ensuring babies and toddlers have opportunities to see and play with older children whilst at nursery
- Toddlers transitioning to the older age groups or rooms when assessed as appropriate (see separate Transitions policy)
- Staff supervising all babies and toddlers and organising the environment to support both non-mobile and mobile babies and toddlers.

Environment

- The environment, equipment and resources are risk assessed and checked daily before the children access the rooms or area. This includes checking the stability of cots and areas around, low/highchairs and ensuring restraints on these, pushchairs and prams are intact and working
- All doors are fitted with viewing panels and door finger-guards to prevent accidents
- Outdoor shoes are removed or covered when entering the baby and toddler area(s). Staff remind parents and visitors to adhere to this procedure. Flooring is cleaned regularly
- Sterilisers are washed out and cleaned daily
- Large pieces of furniture are fixed to the walls to stop them falling on top of babies and young children
- Play and learning are planned in line with children's individual interests and the EYFS learning and development requirements.

Resources

- Care is taken to ensure that babies and toddlers do not have access to resources or activities containing small pieces, which may be swallowed or otherwise injure the child
- Babies and toddlers are closely supervised during all activities
- Resources and equipment that babies and young children have placed in their mouths are cleaned and/or sterilised after use
- All resources are frequently cleaned
- Soft furnishings are frequently cleaned
- The use of resources that restrict babies' movement, such as baby walkers, pushchairs, jumpers, etc., will not be used on a regular basis because these can contribute to delayed physical development. We follow NHS guidelines, which recommend that, if these resources are used, they should be for no more than 20 minutes at a time.

Intimate care

- Babies'/toddlers' privacy is considered and balanced with safeguarding and support needs when changing nappies and toileting
- Babies and toddlers have their nappies changed according to their individual needs and requirements by their key person, wherever possible. Checks are documented with the time and staff initials, and information is shared with parents.
- When developmentally appropriate, we work closely with parents to sensitively support toilet training in a way that suits the individual needs of the child
- Potties are washed and disinfected after every use. Changing mats are wiped with anti-bacterial cleanser before and after every nappy change
- Staff ensure all the equipment is ready before babies and toddlers are placed on the changing mat
- No child is ever left unattended during nappy changing time
- Intimate care times are seen as opportunities for one-to-one interactions
- Staff do not change nappies whilst pregnant until a risk assessment has been discussed and conducted. Students only change nappies with the support and close supervision of a qualified member of staff (see separate Student policy), All staff irrelevant of keyperson can change all children's nappies.
- Cameras, mobile phones and other electronic devices with imaging and sharing capabilities are not permitted in toilet and nappy changing areas.
- Nappy sacks and creams are not left in reach of babies and children

We always follow the systems in place to ensure an adequate supply of clean bedding, towels, and spare clothes.

See the separate Nappy changing policy and Respectful intimate care policy.

Sleep

- We follow NHS and Lullaby Trust guidance to reduce the risk of sudden infant death syndrome (SIDS)

- Each baby and toddler has labelled nursery bedding which is washed at least weekly, and when necessary, this considers any allergies and irritation to soap powders and any individual needs. For example, if a child prefers to sleep in a sleeping bag, we will ask parents to bring one from home
- All cot mattresses and sleep mats meet necessary safety standards. We use a firm and flat mattress and waterproof mattress covers
- Safe sleep guidance is always followed; babies are always laid to sleep on their back, with their feet touching the foot of the cot. Children under two years are not given pillows, cot bumpers or any soft furnishings to prevent the risk of suffocation
- We also share safe sleep advice with parents
- We ensure that sheets or thin blankets come no higher than the baby's shoulders, to prevent them from wriggling under the covers. We make sure the covers are securely tucked in so they cannot slip over the baby's head
- Only sheets and blankets that are in good condition are used; any loose threads are removed
- Cots are checked before use to ensure no items are within reach, i.e. hanging over or beside the cot (fly nets, cables, cord blinds)
- Babies sleeping outside have cat/fly nets over their prams, and we ensure we only use prams that lie flat for sleeping, so babies and toddlers are supported
- Sleeping children are always supervised, and checks are completed every 10 minutes. This may increase to 5 minutes for younger or new babies. Checks are documented on the sleep check form with the time and staff initials, and times are shared with parents.

See separate Sleep policy.

Bottles

- Feeding times are seen as an opportunity for bonding between practitioner and child, and, where possible, babies are fed by their key person
- Bottles of formula milk are only made up as and when the child needs them. Following the Department of Health guidelines, we only use freshly boiled water to make formula bottles (left to cool for no longer than 30 minutes). We do not use cooled boiled water that is reheated. They are then cooled to body temperature, so they should feel warm or cool, not hot. Bottles are tested with a sterilised thermometer to ensure they are at an appropriate temperature for the child to drink safely
- Bottles are only made following the instructions on the formula. If, during the making process, there are discrepancies, a new bottle will be made
- All new staff will be shown the procedure, and only when competent and confident will they make them on their own. Students are fully supervised
- Unwanted or leftover contents of bottles are disposed of after two hours
- Babies are never left propped up or laid in a cot or a pram with bottles as it is both dangerous and inappropriate

Mealtimes

- All babies and young children are seated safely in low/highchairs used for feeding. The chairs are fitted with restraints, and these are used at all times. Children are never left unattended when eating or when in low/highchairs. Restraints are removed and washed weekly or as needed.
- Mealtimes are seen as social occasions and promote interactions. Staff always sit with babies and young children, interacting, promoting communication and social skills
- Staff supervising mealtimes will have ongoing discussions with parents about the stage their child is at in regard to introducing solid foods, including to understand the textures the child is familiar with. Assumptions will not be made based on age of the child.
- Food will be prepared in a suitable way for each child's individual developmental needs, working with parents to help children move on to the next stage at a pace right for the child
- All children are closely supervised whilst eating, and if any choking incidents occur, paediatric first aid will be administered
- Babies and young children are encouraged to feed themselves with support, as required
- We work together with parents regarding weaning and offer any support, as required.

See the separate Nutrition and mealtimes policy for further details.

Comforters and dummies

- We have a separate use of dummies in nursery policy to promote communication and language development
- If dummies are used, they are cleaned and sterilised. This also applies to dummies which have been dropped on the floor
- All dummies are stored in separate labelled containers to ensure no cross-contamination occurs
- Dummies are disposed of if they become damaged
- Comforters, including teddies and blankets, are kept safe and provided at sleep times or if the child becomes unsettled.

Christchurch Kindergarten Children's Nursery Limited

Children's Well-being in the Nursery Policy

Well-being is a broad term that covers how you feel about yourself and your life. It encompasses the physical, emotional (and mental wellbeing), social and spiritual areas of a person. Under the Early Years Foundation Stage (EYFS), this is covered in the children's personal, social, emotional development and physical development, both of which are prime areas of learning and development.

Physical well-being covers everything physical to do with the body:

- Growth and development
- Moving and keeping physically fit
- Caring for personal health (e.g. washing, cleaning teeth, etc.)
- Eating a balanced and nutritious diet
- Rest and appropriate sleep patterns.

Mental and emotional well-being includes:

- Acknowledging, expressing and coping with feelings and emotions
- Thought processes
- Reducing stress and anxiety.

Social well-being includes:

- Relationships
- Family (close and extended)
- Friends
- The feeling of belonging and acceptance
- Compassion and caring approaches.

Spiritual well-being can cover the following:

- Value and beliefs held
- Personal identity and self-awareness.

Children's physical well-being is supported through our carefully planned curriculum programme, which supports all types of gross and fine motor play both inside and outside. We provide nutritionally balanced meals for the children and support our staff in making healthy choices for their physical health.

Personal hygiene is supported for children of all ages, explaining the reasons for handwashing, toothbrushing, and other routines.

Children are provided with quiet, calming areas for rest, sleep, and relaxation. This supports both their physical and mental well-being. We support children in making strong attachments to their key person and forging relationships with their peers to support their social well-being. We offer opportunities and resources for children to play singly, in pairs, in small groups, and in large groups to support this area of development.

Children's mental and emotional well-being is supported. We provide a safe environment that allows for caregiver-to-child co-regulation. This practice supports children's capacity for self-regulation by providing activities that help them recognise and express their emotions, including emotional literacy. This enables us to provide support for children who may be experiencing big emotions they cannot cope with just yet, including sadness and over-excitement. We support children's developing self-regulation through carefully planned activities and resources, modelling calming strategies, naming and talking about feelings and by providing opportunities for children to practise their self-regulation skills.

Staff use the Promoting positive behaviour policy to ensure a consistent approach.

Staff can recognise when a child may need support with their emotions and will provide this one-to-one or in a small group, whichever is more appropriate. Teaching children to recognise and manage their emotions at a young age helps support foundations for doing this throughout their lives.

Christchurch Kindergarten Children's Nursery Limited

Complaints and Compliments Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we strive to provide the highest quality of care and education for our children and families, and believe that all parents are treated with care, courtesy and respect.

We always hope that parents are happy and satisfied with the quality and service provided, and we encourage parents to express their appreciation to the relevant staff and/or management. We record all compliments and share these with staff.

We welcome any suggestions from parents on how we can improve our services and will give prompt and serious attention to any concerns they may have. Concerns will be dealt with professionally and promptly to ensure that any issues arising from them are handled effectively, to ensure the welfare of all children, to enable an ongoing cooperative partnership with parents, and to continually improve the quality of the nursery.

We have a formal procedure for handling complaints when we are unable to resolve a concern. Where any concern or complaint relates to child protection, we follow our Safeguarding Children and Child Protection policy.

Internal complaints procedure

Stage 1

If any parent has cause for concern or any queries regarding the care or early learning provided by the nursery, they should, in the first instance, take it up with the child's key person, a senior member of staff, or the room leader. If this is not resolved, we ask them to discuss this verbally with the manager.

Stage 2

If the issue remains unresolved or parents feel they have received an unsatisfactory outcome, then they must present their concerns in writing as a formal complaint to the nursery manager. The manager will then investigate the complaint regarding the fulfilment of the EYFS requirements and report back to the parent within 5 working days. The manager will document the complaint fully, the actions taken, and the outcome in the complaint's logbook.

(Most complaints are usually resolved informally at stage 1 or 2.)

Stage 3

If the matter is still not resolved, the nursery will hold a formal meeting between the manager, the parent, and a senior staff member to ensure it is dealt with comprehensively. The nursery will record the meeting and document any actions. All parties present at the meeting will review the accuracy of the record and be asked to sign to agree it and receive a copy. This will signify the conclusion of the procedure.

Stage 4

If the matter cannot be resolved to their satisfaction, parents have the right to raise it with Ofsted. Parents are made aware that they can contact Ofsted whenever they have a concern, including at all stages of the complaint procedure, and information on how to contact Ofsted is displayed in the setting. Ofsted is the registering authority for nurseries in England and investigates all complaints that suggest a provider may not be meeting the requirements of the nursery's registration. It assesses all complaints and may visit the nursery to carry out a full inspection if it believes the requirements are not met.

A record of complaints will be kept in the nursery. The record will include the name of the complainant, the nature of the complaint, the date and time the complaint was received, the action(s) taken, the outcomes of any investigations and any information given to the complainant, including a dated response.

Parents will be able to access this record if they wish; however, all personal details relating to any complaint will be stored confidentially and will be accessible only to the parties involved. Ofsted inspectors will have access to this record at any time during visits to ensure that actions have been appropriately addressed.

The record of complaints is made available to Ofsted on request. We will follow this procedure for any other compliments and complaints received from visitors to the provider, where applicable.

Contact details for Ofsted:

Email: enquiries@ofsted.gov.uk

Telephone: 0300 123 4666

For more information about Ofsted's role see:

<https://www.gov.uk/government/publications/information-for-parents-about-ofsteds-role-in-regulating-childcare>

Parents will also be informed if the nursery becomes aware that they are going to be inspected, and after the inspection, the nursery will provide a copy of the report to parents of children attending on a regular basis.

Christchurch Kindergarten Children's Nursery Limited

Conflict Resolution with Parents and Aggressive Behaviour Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we believe that we have a strong partnership with our parents and an open-door policy to discuss any matters arising (if applicable).

If, as a parent, you have any concerns or issues you wish to raise with the nursery, then please follow the complaints procedure.

In the case of a parent emailing, calling or using social media to complain, the nursery will direct them to the correct procedure for raising a complaint.

We have a zero tolerance for abusive calls, emails, social media contact and face-to-face confrontation.

Calls of an aggressive or abusive manner

The call taker receiving a call leading to abuse or aggression will remain calm and professional and ask the caller to follow the Complaints and compliments policy. If the abuse continues, the call taker will end the call. Abusive or aggressive calls will be logged, including an outline of the conversation.

Emails of an aggressive or abusive manner

The responder will ask the parents to come into the setting to speak in person, in line with our Complaints and compliments policy. If the emails persist, the manager may seek legal action. All emails will be kept as evidence until the matter is resolved.

Social media

If slanderous or abusive messages appear on any social media site, we will address them immediately by requesting that they follow our Complaints procedure. We will endeavour to resolve any issue raised through our complaint's procedure. If slanderous or abusive messages continue, we will seek legal action against the complainant.

If any person inside the nursery starts to act in an aggressive manner at the nursery, our policy is to:

- Direct the person away from the children and into a private area, such as the office (where appropriate)

- Ensure that a second member of staff is in attendance, where possible, whilst continuing to ensure the safe supervision of the children
- Remain composed and professional in order to calm the aggressive person, making it clear that we do not tolerate aggressive or abusive language or behaviour
- If the aggressive behaviour continues or escalates, we will contact the police in order to ensure the safety of our staff team, children and families
- If the person calms down and stops the aggressive behaviour a member of staff will listen to their concerns and try to resolve the issue
- Following an aggressive confrontation, an incident form will be completed detailing the time, reason and any action taken
- Any aggressive behaviour from a parent could result in the withdrawal of their child's place. Parents will be informed, by the management team, in writing, within three days of any incident that involved aggressive or threatening behaviour to their staff
- Management will provide support and reassurance to any staff member involved in such an incident
- Management will signpost parents to organisations or professionals that can offer support, if applicable.

This policy will be followed in the event of any other visitor or member of the public displaying this type of behaviour either by phone, email, social media or in person.

Christchurch Kindergarten Children's Nursery Limited

Critical Incident Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we understand we need to plan for all eventualities to ensure the health, safety and welfare of all the children we care for. With this in mind, we have a critical incident policy in place to ensure our nursery can operate effectively in the event of a critical incident. These include:

- Flood
- Fire
- Burglary
- Abduction or threatened abduction of a child
- Bomb threat or terrorist attack
- National outbreaks of infection or health pandemic
- Any other incident that may affect the care of the children in the nursery.

If any of these incidents impact the ability of the nursery to operate, we will contact parents via *phone/*email/*text message at the earliest opportunity, e.g. before the start of the nursery day may even be during the day.

Flood

There is always a risk of flooding from adverse weather conditions or from water and central heating systems. We cannot anticipate adverse weather; however, we can ensure that we maintain all our water and heating systems through regular inspections and checks to reduce the risk of flooding. Our central heating systems are checked and serviced annually by a registered gas engineer and comply with all relevant guidelines and legislation.

If flooding occurs during the nursery day, the nursery manager will decide based on its severity and location. It may be deemed necessary to follow the same procedure as the fire evacuation procedure. In this instance, children will be kept safe, and parents will be notified in the same way as the fire procedure (see Fire safety policy).

Should the nursery be assessed as unsafe due to flooding, fire, or any other incident, we will follow our Nursery operational plan and provide *care in another location/*parents with alternative arrangements in sister nurseries/*options for childcare facilities in the local area.

Fire

Please refer to the Fire Safety Policy.

Burglary

The nursery's management follows a lock-up procedure that ensures all doors and windows are closed and locked before vacating the premises.

Alarm systems are used and operate during all hours the nursery is closed. The manager or the most senior member of staff on site will always check the premises upon arrival in the morning.

Should they discover that the nursery has been broken into, they will follow the procedure below:

- In an emergency, dial 999, or non-emergency dial 101, with as many details as possible, i.e. name and location, details of what has been found and emphasise this is a nursery and children will be arriving soon
- Contain the area to ensure no one enters until the police arrive
- Where it is safe to do so, the staff will direct parents and children to a separate area as they arrive. If all areas have been disturbed, staff will follow police advice. This may include temporary short-term closure and/or following the relocation procedure under the flood section, wherever necessary to ensure the safety of the children
- The manager on duty will help the police with enquiries, e.g. by identifying items missing, areas of entry, etc.
- A manager will always be available during this time to speak to parents, reassure children and direct enquiries
- Management will assess the situation following a theft and ensure parents are kept up to date with developments relating to the operation of the nursery
- Arrangements will be made to ensure the nursery is made safe and secure again.

Abduction or threatened abduction of a child

We have secure safety procedures in place to ensure children are safe while in our care, including taking reasonable steps to prevent children from leaving the premises unsupervised and to prevent unauthorised persons from entering the premises and posing a risk of abduction.

Staff are always vigilant and report any persons lingering on the nursery property immediately. All doors and gates to the nursery are locked and cannot be accessed unless staff members allow individuals in. Parents are regularly reminded not to allow anyone into the building, whether they are known to them or not. We also have visual reminders to close the door behind them to prevent tailgating (another person accessing the entry behind them). Visitors and general security are covered in more detail in the Supervision of Visitors' Policy.

Children will only be released into the care of a designated adult; see the Arrivals and departures policy for more details. Parents are requested to inform the nursery of any potential custody proceedings or family concerns as soon as they arise, so the nursery can support the child. The nursery will not take sides in relation to any custody arrangements

and will remain neutral for the child. If an absent parent arrives to collect their child, the nursery will not restrict access **unless** a court order is in place. Parents are requested to provide the nursery with a copy of these documents, if they are in place. We will consult our solicitors regarding any concerns about custody and relay any information back to the parties involved.

If a member of staff witnesses an actual or potential abduction from the nursery, we have the following procedures which are followed immediately:

- The staff member will notify management immediately, and the manager will take control, dialling 999 and requesting the police. Instructions from the emergency response team will be followed
- The parent(s) will be contacted
- All other children will be kept safe and secure, reassured and calmed where necessary
- The police will be given as many details as possible, including details of the child, description of the abductor, car registration number if used, time and direction of travel if seen and any family situations that may have impacted on this abduction
- Any incidents must be recorded in writing as soon as practicably possible, including the outcome, who was abducted, time identified, notification to police and findings
- In the unlikely event that the child is not found, the nursery will follow the local authority and police procedures
- Ofsted will be contacted and informed of the incident
- With incidents of this nature, parents, carers, children and staff may require support and reassurance following the traumatic experience. Management will provide this or seek further support where necessary
- In any cases with media attention, staff will not speak to any media representatives
- Post-incident risk assessments will be conducted following any incident of this nature to reduce the chance of this reoccurring.

Bomb threat/terrorism attack

If a bomb or terrorist attack threat is received at the nursery, the person taking the call will record all details given over the phone as soon as possible, raise the alarm, and contact emergency services as soon as the call ends. The management will follow the fire evacuation procedure and guidance from the emergency services to ensure the safety of all on the premises. The person who took the call will provide as much detail as possible to emergency services. Ofsted will be notified.

With incidents of this nature, parents, carers, children and staff may require support and reassurance following the traumatic experience. Management will provide this or seek further support where necessary.

Any other significant incidents

All incidents will be managed by the manager on duty, and all staff will cooperate with any emergency services on the scene, where applicable. The fire evacuation procedure will be

followed for any other incident that requires an emergency evacuation. Other incidents, e.g. no water supply, will be dealt with on an individual basis, taking into account the effect on the safety, health and welfare of the children and staff in the nursery.

If there is an incident outside of the nursery building and it is safer to stay inside the building, we will follow the Lockdown policy. Emergency services advice will be taken.

National outbreaks of infection and/or health pandemics

In the event of a national health pandemic, we will follow Government health advice and guidance, legal advice, and advice from our insurance provider.

The setting will remain open if we have sufficient staff to care for the children. Depending on the nature of the pandemic, we will follow all advice and implement measures to minimise risks to vulnerable children and staff. This may include excluding infected children, staff, parents or family members from the setting for a set period of time, to prevent the spread of infection. This decision will be made in consultation with parents, staff, legal advice and our insurance provider. Each case will be reviewed on an individual basis.

The nursery manager will notify Ofsted in the event of a critical incident.

Christchurch Kindergarten Children's Nursery Limited

Cyber Security Policy

This policy should be read in conjunction with the Data protection and confidentiality policy, Acceptable internet use policy and the Online safety policy.

At **Christchurch Kindergarten Children's Nursery Limited**, we recognise that the key to keeping our nursery cyber secure is through effective staff training so that everyone is aware of the actions they should take to protect our systems from threat.

We hold cyber essentials *basic/*plus certification and have cyber insurance to mitigate the financial, operational and reputational consequences of a cyber incident.

Good cyber security means protecting the personal or sensitive information we hold on children and their families in line with the Data Protection Act. We are aware that cyber criminals will target any type of business including childcare and ensure all staff are aware of the value of the information we hold in terms of criminal activity, e.g. scam emails. All staff are reminded to follow our procedures including backing up sensitive data, using strong passwords and protecting devices to ensure we are cyber secure.

To prevent any attempts of a data breach (i.e. when our information is stolen or accessed without authorisation) that could cause temporary shutdown of our setting and reputational damage with the families we engage with, we inform staff not to open any suspicious messages such as official-sounding messages about 'resetting passwords', 'receiving compensation', 'scanning devices' or 'missed deliveries'.

Staff are asked to report these to the *manager/*IT support as soon as possible and these will be reported through the National Cyber Security Centre (NCSC) Suspicious email reporting service at report@phishing.gov.uk.

Procedures to follow

Passwords

We will:

- Create strong and memorable passwords for important accounts, such as by combining three random words. We will avoid using predictable passwords, such as dates, family and pet names. Passwords will not be reused
- All staff must use a separate password for work and personal accounts
- Passwords *will/*will not be stored using password managers with end-to-end encryption

- We use multi-factor authorisation (MFA) to log in where appropriate, e.g. banking websites.

Security

- We train staff to recognise the techniques that phishers use in emails, as well as recognising spam and other harmful content
- Staff must report suspicious messages or links to *management/*IT support
- We carry out regular software updates and regularly check our back-ups
- Staff always lock devices when not in use
- We use *PIN/*password/*fingerprint/face ID on portable devices
- We do not install any software that has not been cleared for use by the *manager/*IT support onto our computers or systems
- Unknown USBs or external devices will not be used on our systems.

Reporting

- Staff are encouraged to ask for further guidance or support from their *manager/IT support when something feels suspicious or unusual
- Staff are encouraged to flag concerns and must report attacks as soon as possible.

System access

- We use a separate 'guest' WiFi for visitors to limit access to the office network
- We regularly review system access
- Accounts are removed immediately when a staff member has left employment.
- We limit access for temporary workers
- Staff follow sign-in/out protocols
- No staff member has access to nursery devices outside working hours.

Actions in the event of a cyber attack

- *Manager/IT support will be informed immediately of any actual or suspected security breach
- We will contain the breach, isolate affected devices and disable compromised accounts
- We will avoid deleting anything that could serve as evidence
- We will keep a log of actions taken and notify the Information Commissioner's Office (ICO) if personal data is at risk (<https://ico.org.uk/for-organisations/report-a-breach/>)
- We will seek advice and guidance from the National Cyber Security Centre (NCSC) (<https://report.ncsc.gov.uk/>)
- We will communicate clearly with staff and stakeholders to explain what's happened, what we're doing and how it affects families and staff
- Following an actual or suspected attack, we will review our systems to identify what occurred, what was compromised and what changes are need

Christchurch Kindergarten Children's Nursery Limited

Data Protection and Confidentiality Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we recognise that we hold sensitive and confidential information about children and their families and the staff we employ. This information is used to meet children's needs, for registers, funding and emergency contacts. We store all records in a locked cabinet or on the office computer, with files that are password-protected in line with data protection principles. Any information shared with the staff team is done on a 'need to know' basis and treated in confidence. This policy works alongside the GDPR privacy notice to ensure compliance under General Data Protection Regulation (Regulation (EU) 2016/679 (GDPR)) and Data Protection Act 2018.

Legal requirements

- We follow the legal requirements set out in the Statutory Framework for the Early Years Foundation Stage (EYFS) and accompanying regulations about the information we must hold about registered children and their families, and the staff working at the nursery
- We follow the requirements of the Data Protection Act 2018 and the Freedom of Information Act 2000 with regard to the storage of data and access to it.

Procedures

It is our intention to respect the privacy of children and their families, and we do so by:

- Storing confidential records in a locked filing cabinet or on the office computer with files that are password-protected
- Ensuring staff, student and volunteer inductions include an awareness of the importance of the need to protect the privacy of the children in their care, as well as the legal requirements that exist to ensure that information relating to the child is handled in a way that ensures confidentiality. This includes ensuring that information about the child and family is not shared outside the nursery, except with relevant professionals who need to know it. It is not shared with friends and family or included in any social discussions outside the setting. If staff breach any confidentiality provisions, this may result in disciplinary action and, in serious cases, dismissal. Students on placement in the nursery are advised of our Data Protection and Confidentiality Policy and required to respect it
- Ensuring that all staff, volunteers and students are aware that information about children and families is confidential and only for use within the nursery and to support the child's best interests with parental permission
- Ensuring that parents have access to files and records of their own children, but not to those of any other child, other than where relevant professionals such as the police or local authority children's social care team decide this is not in the child's best interest

- Ensuring all staff are aware that this information is confidential and only for use within the nursery setting. If any of this information is requested for whatever reason, the parents' permission will always be sought, other than in the safeguarding circumstances above
- Ensuring staff do not discuss personal information given by parents with other members of staff, except where it affects planning for the child's needs
- Ensuring staff, students and volunteers are aware of and follow our social networking policy in relation to confidentiality
- Ensuring issues concerning the employment of staff remain confidential to the people directly involved with making personnel decisions
- Ensuring any concerns or evidence relating to a child's personal safety are kept in a secure, confidential file and are shared with as few people as possible on a 'need-to-know' basis. If, however, a child is considered at risk, our Safeguarding Children and Child Protection Policy will override confidentiality.

All the undertakings above are subject to the nursery's paramount commitment to the safety and well-being of the child.

General Data Protection Regulation (Regulation (EU) 2016/679 (GDPR) compliance

In order to meet our requirements under GDPR, we will also undertake the following:

- We will ensure our terms and conditions; privacy and consent notices are easily accessed and made available in accurate and easy-to-understand language
- We will use personal data to ensure the safe, operational and regulatory requirements of running our nursery. We will not share or use personal data for any purpose other than the one for which it was collected. Further details can be found in the GDPR privacy notice
- Everyone in our nursery understands that people have the right to access their records or have their records amended or deleted (subject to other laws and regulations)
- We will ensure staff have due regard to the relevant data protection principles, which allow them to share (and withhold) personal information, as provided for in the Data Protection Act 2018 and the GDPR. This includes:
 - Being confident of the processing conditions which allow them to store and share information for safeguarding purposes, including information, which is sensitive and personal, and should be treated as 'special category personal data'
 - Understanding that 'safeguarding of children and individuals at risk' is a processing condition that allows practitioners to share special category personal data. This includes allowing practitioners to share information without consent where there is good reason to do so, and that the sharing of information will enhance the safeguarding of a child in a timely manner, but it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk.

Staff and volunteer information

- All information and records relating to staff and volunteers will be kept confidentially in a locked cabinet
- Individual staff may request to see their own personal file at any time.

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Dealing with Discriminatory Behaviour Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we do not tolerate discriminatory behaviour and take action to tackle discrimination. We believe that parents have a right to know if discrimination occurs and what actions the nursery will take to tackle it. We follow our legal duties in relation to discrimination and record all perceived or actual incidents relating to discrimination on any grounds and report these where relevant to children's parents and the registering authority.

We provide a neutral working environment where no one should feel threatened or intimidated, and where everyone is treated with equity, inclusivity, dignity, and respect. This includes 'work situations' such as social events, social media posts, and interactions between colleagues.

Definition and legal framework

Types of discrimination

- **Direct discrimination** occurs when someone is treated less favourably than another person because of a protected characteristic
- **Discrimination by association** occurs when there is a direct discrimination against a person because they associate with a person who has a protected characteristic
- **Discrimination by perception** occurs when there is a direct discrimination against a person because they are perceived to have a protected characteristic
- **Indirect discrimination** can occur where a provision, criterion or practice is in place which applies to everyone in the organisation but particularly disadvantages people who share a protected characteristic and that provision, criterion or practice cannot be justified as a proportionate means of achieving a legitimate aim
- **Harassment** is defined as 'unwanted conduct related to a relevant protected characteristic, which has the purpose or effect of violating an individual's dignity or creating an intimidating, hostile, degrading, humiliating or offensive environment for that individual'; we have zero tolerance towards such behaviour
- **Sexual harassment** is any unwanted sexual conduct that has the purpose or effect of violating a person's dignity or creating a hostile environment for them; the law requires the setting to take reasonable steps to prevent sexual harassment of workers in the course of their employment; we have zero tolerance towards such behaviour
- **Third-party harassment** occurs where a person is harassed by someone who does not work for the same employer, such as a visitor or supplier; we have zero tolerance towards such behaviour

- **Victimisation** occurs when an employee is treated badly or put to a disadvantage because they have made or supported a complaint or raised a grievance under the Equality Act 2010 or have been suspected of doing so.

Protected characteristics

The nine protected characteristics under the Equality Act 2010 are:

- Age
- Disability
- Gender reassignment
- Race
- Religion or belief
- Sex
- Sexual orientation
- Marriage and civil partnership
- Pregnancy and maternity.

Note: The Act uses the term 'transsexual' which covers those who are 'transgender' or 'trans'. When reviewing discrimination in the setting, seek specialist advice regarding recruitment and promotion processes, the use of toilet facilities, managing absences for transitioning employees, recording employee gender identity and chosen pronouns and correct information sharing for personal details. It is also recommended to plan how to address any questions or concerns raised by other employees or parents, ensuring they are handled respectfully and sensitively.

The Disclosure and Barring Service (DBS) offers confidential checks for trans applicants through the 'sensitive applications' route, which excludes gender/name information from the certificate (<https://www.gov.uk/guidance/transgender-applications>).

Examples of discriminatory behaviour are:

- Physical assault against a person or group of people
- Derogatory name-calling, insults and discriminatory jokes
- Graffiti and other written insults (depending on the nature of what is written)
- Provocative behaviour such as wearing badges and insignia, and the distribution of discriminatory literature
- Threats against a person or group of people pertaining to the nine protected characteristics listed above
- Discriminatory comments, including ridicule, made in the course of discussions
- Patronising words or actions.

Incidents may involve a small or large number of persons; they may vary in their degree of offence and may not even recognise that the incident has discriminatory implications, or at the other extreme, their behaviour may be quite deliberate and blatant.

Our procedures

We tackle discrimination by:

- Providing inclusive early years practice where all staff are able to identify, understand and break down barriers to participation and belonging and create an ethos of equality
- Consistently promoting the British values of democracy, the rule of law, individual liberty, mutual respect and tolerance of different faiths and beliefs to all practitioners, children and families in the setting. We value diversity and celebrate differences in children and families
- Providing training and support around this subject to support staff understanding and confidence in challenging discriminatory practice, including understanding that harassment, of any kind, is subjective and so depends on how the behaviour makes someone feel. Training ensures staff understand this in order to create a culture of zero tolerance towards sexual harassment in the workplace
- Ensure a zero-tolerance approach is actually taken by challenging any observed instances of inequalities, discrimination and prejudice as they arise in play, conversation, books or other contexts from practitioners, children and families and follow this policy, as outlined below, to ensure that discriminatory behaviours against the protected characteristics are not tolerated within our setting
- Ensuring all children and families have a sense of belonging, and they can see themselves and their family's identity reflected in the setting
- Expecting all staff in the nursery to be aware of and alert to any discriminatory behaviour, stereotyping, bias or bullying taking place in person or via an online arena
- Expecting all staff to intervene firmly and quickly to prevent any discriminatory behaviour or bullying, including behaviour from parents and other staff members
- Expecting all staff to intervene in the case of third-party harassment, reporting issues to the nursery manager and/or reporting criminal acts to the police; we have an anonymous reporting procedure for sexual harassment
- Expecting all staff to treat any allegation seriously and report it to the nursery manager. Investigating and recording each incident in detail, as accurately as possible, and making this record available for inspection by staff, inspectors, and parents, where appropriate, on request. The nursery manager is responsible for ensuring that incidents are handled appropriately and sensitively, and recorded appropriately. Any patterns of behaviour should be noted. Perpetrators' and victims' initials may be used in the record.
- Ensuring any online bullying or discriminatory behaviour is tackled immediately
- Informing the parents of the child(ren) who are perpetrators and/or victims of the incident and of the outcome, where an allegation is substantiated following an investigation
- Excluding or dismissing any individuals who display continued discriminatory behaviour or bullying, but such steps will only be taken when other strategies have failed to modify behaviour. This includes any employees whose substantiated allegations, after investigation, lead to disciplinary procedures (please see the Disciplinary procedures).

We foster a safe, inclusive, and positive work environment, with our leadership team ensuring policies are kept up to date, conducting risk assessments, and providing regular

training and monitoring to ensure effective implementation. These demonstrate taking 'reasonable steps' to ensure compliance with the duty to prevent harassment of our employees, including harassment from third parties, such as visitors to the premises.

We record any incidents of discriminatory behaviour or bullying to ensure that:

- Strategies are developed to prevent future incidents
- Patterns of behaviour are identified
- Persistent offenders are identified
- The effectiveness of nursery policies is monitored
- A secure information base is provided to enable the nursery to respond to any discriminatory behaviour or bullying.

If the behaviour shown by an individual is deemed radicalised, we will follow our procedures as detailed in our Safeguarding Children and Child Protection Policy and the Prevent Duty and Radicalisation Policy to safeguard children and families.

Nursery staff

We expect all staff to be alert and seek to overcome any ignorant or offensive behaviour based on fear or dislike of distinctions that children, staff or parents may express in nursery.

We aim to create an atmosphere where victims of any form of discrimination have the confidence to report such behaviour and subsequently feel positively supported by the nursery's staff and management.

It is incumbent upon all members of staff to ensure that they do not express any views or comments that are discriminatory or appear to endorse such views by failing to counter behaviour, which is prejudicial in a direct manner. We expect all staff to use a sensitive and informed approach to counter any harassment perpetrated out of ignorance.

Christchurch Kindergarten Children's Nursery Limited

Disciplinary Procedure

At **Christchurch Kindergarten Children's Nursery Limited**, we always comply with our legal obligations as an employer, including handling disciplinary matters in a fair and consistent manner. We have the following policy and procedure that sets out our process.

Legal obligations

Our legal obligations as an employer are detailed in the ACAS Code of Practice on disciplinary and grievance procedures (2015). A full copy of the ACAS Code of Practice and the accompanying guidance can be obtained from the ACAS website <http://www.acas.org.uk>.

We note that a failure to follow the code does not make an organisation liable to formal proceedings at an employment tribunal, but failure to follow the code may result in any compensation award payable to be increased by up to 25% or reduced by 25% if the employee does not comply.

Objectives and guiding principles

The objective of this procedure is to set out the standards of conduct expected of all staff and to provide a framework within which our managers can work with employees to maintain satisfactory standards of conduct and to encourage improvement where necessary.

It is our policy to ensure that any disciplinary matter is dealt with fairly and consistently. We will take the necessary steps to establish the facts and to give employees the opportunity to respond before taking any formal action.

This procedure does not form part of any employee's contract of employment and it may be amended at any time. We may also vary this procedure, including any time limits, as appropriate in any case.

The procedure applies to all employees regardless of length of service.

Minor conduct issues can often be resolved informally between the employee and their line manager. These discussions should be held in private and without undue delay whenever there is a cause for concern. Where appropriate a note of any such discussions may be held on the employee's personnel file but will be ignored for the purpose of future disciplinary issues.

Formal steps will be taken under this procedure if the matter is not resolved, or if informal discussion is not appropriate (due to the serious nature of the allegation).

The employee will not normally be dismissed for a first act of misconduct, unless it is decided it amounts to gross misconduct or the employee has not yet completed their probationary period.

The procedure

Our aim is to deal with disciplinary matters sensitively and fairly. All employees must treat all information in connection with the disciplinary procedure and its investigation as confidential.

Where there has been a serious allegation of misconduct or gross misconduct and/or there are serious concerns regarding the employee's capability, we aim to establish the facts quickly and no disciplinary action will be taken until the matter has been fully investigated. The employee will be informed if a formal complaint is made against them and, if necessary, they may be suspended on full pay pending the outcome of the investigation and disciplinary procedure.

Stage 1: Investigation

- The nursery manager will investigate any allegations or concerns quickly and thoroughly to establish whether a disciplinary hearing should be held
- The purpose of the investigation is to establish a balanced view of the facts relating to the allegations against the employee. The amount of investigation will depend on the nature of the allegations and will vary from case to case. It may involve interviewing and taking statements from the employee and any witnesses, and/or reviewing relevant documents
- Investigation interviews are solely for the purpose of fact-finding and no decision on the disciplinary procedure will be taken until after the disciplinary hearing
- The employee is not normally allowed to bring a companion to an investigatory interview. However, we may allow them to bring a work colleague or trade union representative in exceptional circumstances. If the employee wishes to be accompanied, they should contact the nursery manager to discuss the reasons for their request
- If the investigations lead to reasonably believing there are grounds for disciplinary action, the nursery will write to the employee outlining the allegations against them, the basis of the allegations and the potential consequences following legal advice. The employee will be invited to a disciplinary hearing to discuss the matter. They will be sent any copies of evidence that may be referred to in the hearing (e.g., witness statements, a summary of the statements if the witness's identity is to remain confidential, and meeting minutes).

Suspension

- If the nursery believes that the employee may be guilty of misconduct, which is considered (at the setting's absolute discretion) to be serious misconduct, where relationships have broken down, or where there are any grounds to consider that nursery property or responsibilities to other parties are at risk, or where it is considered in the setting's absolute discretion that the employee's continued presence at the setting's premises would hinder an investigation, the nursery is entitled to suspend the employee on full pay
- Any such suspension will normally last only as long as required to enable an investigation into the circumstances giving rise to such a belief of serious misconduct to be carried out and any disciplinary hearing to be convened
- Any such period of suspension is not a punishment, nor considered as disciplinary action against the employee, nor does it imply that any decision has been taken about the employee's case.

Stage 2: Invite to disciplinary hearing

- The nursery will hold a disciplinary hearing to discuss the allegations. The employee will have the right to bring a companion to the meeting. A companion may be a work colleague or trade union representative. The employee must inform the nursery manager prior to the meeting who their chosen companion is. If their companion is unreasonable, for example, where there may be a conflict of interest, the nursery manager may require the employee to choose someone else
- If the employee or their companion is unable to attend the meeting, the employee should inform the nursery manager immediately, and an alternative time and date, where applicable, will be arranged. The employee must make every effort to attend the meeting, and failure to do so without good cause may constitute misconduct in itself.

Disciplinary hearing

- During the meeting, the nursery manager or designated person leading the meeting will go through the allegations against the employee and the evidence that has been collated. The employee will be able to state their case and call relevant witnesses (provided the employee gives advance notice and we agree to their attendance) to support the case
- The nursery may adjourn the disciplinary meeting if further investigations need to be carried out, and the employee will be given a reasonable opportunity to consider new information
- The employee will be notified of the decision in writing, usually within **seven** working days of the hearing
- If the employee persistently fails to reply to invitations or persistently fails to attend the arranged hearing without good cause, it may be carried out in their absence, and they will be notified of the decision in writing. The employee will retain the right to appeal.

Appeal

- The employee will be given the opportunity to appeal the decision. If they wish to appeal, the employee should state their full grounds in writing, and the letter should be sent to **Nursery Manager** within **five working days** from the date the decision was communicated to them
- The appeal meeting will be conducted impartially by an **Area** manager, where possible, who has not previously been involved in the case
- The employee will be able to bring a companion to the meeting, and the companion may be a work colleague or trade union representative (as stated above)
- The nursery may adjourn the appeal hearing if further investigations need to be carried out, and the employee will be given a reasonable opportunity to consider any new information before the hearing is reconvened
- The nursery will inform the employee in writing of the final decision as soon as possible, usually within **five working days** of the appeal hearing.

There is no legal right to appeal beyond this stage.

Disciplinary penalties

In the first instance, where less serious offences are concerned, the nursery is most likely to give the employee a verbal warning. This warning will be recorded and a copy maintained in the employee's personnel file with a time scale for improvement or to not re-offend.

[Note: the right to a verbal warning is not part of the ACAS code. Many employers use verbal warnings as a first stage but you may prefer to use a written warning as the first stage depending on the circumstances.]

The usual penalties for misconduct are set out below. No penalty should be imposed without a hearing. We aim to treat all employees fairly and consistently, and a penalty imposed on another employee for similar misconduct will usually be taken into account, but should not be treated as a precedent. Each case will be assessed on its own merits.

The employee will not normally be dismissed for a first act of misconduct, unless it is determined to constitute gross misconduct or the employee has not yet completed their probationary period.

First written warning

A first written warning may be authorised by **[Manager, owner, HR department]**. It will usually be appropriate to issue a first act of misconduct warning when there are no other active written warnings on the employee's disciplinary record.

Final written warning

A final written warning may be authorised by **[Manager, owner, HR department]**. It will usually be appropriate for:

- a. Misconduct where there is already an active written warning on the employee record
- b. Misconduct that is considered sufficiently serious to warrant a final written warning, even though there are no active warnings on the employee's record.

Dismissal

Dismissal may be authorised by **[Manager, owner, HR department]**. It will usually only be appropriate for:

- a. Any misconduct during the employee's probationary period
- b. Further misconduct where there is an active final written warning on the employee record, or
- c. Any gross misconduct, regardless of whether there are active warnings on the employee record. Gross misconduct will usually result in immediate dismissal without notice or payment in lieu of notice (summary dismissal). Examples of gross misconduct are set out below.

Levels of authority

Nursery managers (including the officer in charge) have the authority to suspend an employee pending investigation. Only the nursery manager (including officer in charge) and higher management have the authority to dismiss an employee as set out above.

Gross misconduct

In the case of gross misconduct, the nursery reserves the right to dismiss an employee without notice (or payment in lieu of notice) if, after investigation and a hearing, the management are satisfied that there is sufficient justification for so doing.

Duration of warnings

Under normal circumstances, warnings will be valid for the following time periods, although these may vary according to the nature of the occurrence and may therefore be determined by mutual agreement at the time of issue:

- Verbal warning – six months
- First written warning – six months
- Final written warning – 12 months.

On expiry, warnings will be disregarded for future disciplinary purposes.

Alternatives to dismissal

In some cases, the nursery may, at the setting's discretion, consider alternatives to dismissal. These must be authorised and accompanied by a final written warning. Examples include:

- Demotion or loss of seniority
- Change to job role
- A period of suspension without pay
- Loss of additional hours and/or overtime.

Examples of gross misconduct

Examples of what would constitute a gross misconduct offence include:

- Failure to inform the employer of a disqualification
- Theft, or the unauthorised possession of property belonging to the nursery, its employees or customers

- Assault on any employee or persons associated with the nursery
- Breach of confidence i.e. divulging confidential information relating to the nursery, its employees or clients
- Dishonesty, including the use of any funds, expenses or allowances for any other purpose than that for which they have been delegated by the nursery
- Being under the influence of drugs or alcohol whilst on duty
- Serious or persistent breaches of safety rules
- Fraud, including falsification of work records and expense claims
- Signing or clocking in or out for another employee
- Physical assault, punishment or abuse towards a child, e.g. hitting a child in chastisement or harsh disciplinary actions and/or threatening the use of corporal punishment, which could adversely affect a child's well-being
- Discrimination and/or harassment in any way against a child or person
- Persistent failure to follow nursery documentation systems and procedures
- Unauthorised absence from work and/or unacceptable attendance levels
- Obscene language or other offensive behaviour
- Negligence in the performance of the employee's duties.

Further behaviour that could constitute gross misconduct is not limited by the above list.

Examples of misconduct

Examples of what would constitute a misconduct offence include:

- Minor breaches of our policies, including the Absence management procedure, Mobile phone and electronic device use policy, Social networking policy and Health and safety – general policy
- Minor breaches of the employee contract
- Minor damage to, or unauthorised use of, nursery property
- Poor timekeeping
- Time-wasting
- Refusal to follow instructions
- Excessive use of nursery telephones for personal calls
- Excessive personal email or internet usage
- Smoking/vaping in designated no-smoking/vaping areas.

N.B. Some of the misconduct offences above may, depending on the circumstances and having followed a detailed investigation, also be classed as gross misconduct offences.

As an organisation, we take the health and well-being of staff and children seriously. As such, we would expect all staff working within the setting to abide by any government recommendations, laws, and guidelines, e.g., rules on social distancing, whether at work or in their private lives. Any breaches of government guidelines will be dealt with in accordance with our Disciplinary procedure and may also constitute misconduct

Christchurch Kindergarten Children's Nursery Limited

Early Learning Opportunities Statement

At **Christchurch Kindergarten Children's Nursery Limited** we promote the learning and development of all children in our care. We have a quality workforce of highly qualified staff who recognise that each child is an individual and focus on their needs, interests, learning, and development. Staff plan challenging and enjoyable experiences across the seven areas of the curriculum. Our staff are ambitious for our children and guide and plan what children learn, reflecting on the different rates at which they develop and adjust practice appropriately. Our aim is to support all children attending the nursery to attain their maximum potential within their individual capabilities.

We provide a positive, inclusive play environment for every child, so they can develop strong social skills and an appreciation of all aspects of this country's multicultural society. We plan learning experiences to ensure, as far as possible, equality of opportunity for all children and a celebration of diversity.

We maintain a personalised record of each child's development, documenting their abilities, progress, interests, and any areas requiring further support.

For children whose home language is not English, we will take reasonable steps to:

- Provide opportunities for children to develop and use their home language in play and learning and support their language development at home; and
- Ensure that children have sufficient opportunities to learn and reach a good standard in English language during the EYFS, ensuring that children are ready to benefit from the opportunities available to them when they begin year one.

We ensure that the educational programmes are well planned and resourced to have depth and breadth across the seven areas of learning. They provide interesting and challenging experiences that meet the needs of all children and reflects the wide range of skills, knowledge and attitudes they will need as foundations for learning. Planning is based on a secure knowledge and understanding of how to promote the learning and development of young children and what they can achieve. We may use the Development matters and Birth to 5 matters for guidance to support staff to plan and deliver the EYFS learning and development requirements.

We implement the Early Years Foundation Stage (EYFS) set by the Department for Education, which establishes standards to ensure all children learn and develop well. We support and enhance children's learning and development holistically through play-based

activities. We review all aspects of learning and development and ensure a flexible approach that responds quickly to children's learning and developmental needs. We develop tailor-made activities based on observations that inform future planning and that draw on children's needs and interests. This is promoted through both adult-led and child-initiated opportunities, indoors and outdoors.

If we are concerned about a child's progress in any area of learning, staff will discuss this with the child's parents and agree on the best way to support the child. Staff will consider whether a child may require additional support or have a special educational need or disability that will require specialist support.

Assessment is an integral part of our practice: we carry out ongoing assessment (formative) through daily observations and ensure that this does not take us away from interacting with the children.

Summative assessment is carried out at set points of the year, including:

- Assessment on entry (starting point), including parental contributions
- Progress check at age two (where applicable)
- The Early Years Foundation Stage Profile (where applicable) or any other summative assessment, e.g. when children transition to new rooms or leave for school.

We acknowledge parents as primary educators and encourage parental involvement as outlined in our Parents as Partners policy. We build strong home links to enhance and extend children's learning both within the nursery environment and at home, and we hold regular meetings with parents to keep them up to date on their child's progress.

We share information about the EYFS curriculum with parents and signpost them to further support via the following website: <https://foundationyears.org.uk/>

Christchurch Kindergarten Children's Nursery Limited

Emergency Lock Down Policy

Providers are responsible for ensuring they follow the current version of the framework for their provider type.

We take all reasonable steps to ensure the safety of children, staff and others on the premises, communicating policies clearly to staff on induction and through training. Parents are informed about the procedures through the prospectus, website and reminders through newsletters.

In the event of an emergency requiring a full lock down, the following procedure will be implemented.

Emergency lock down procedure

We will use the lock down procedure when the safety of the children, staff and others on the premises are at risk and we are better placed inside the current building, with doors and windows locked and blinds and/or curtains closed.

We will activate this emergency procedure in response to several situations, but some of the more typical might be:

- A report incident or disturbance in the local community (with potential to pose a risk to staff and children in the nursery)
- An intruder on the nursery site (with potential to pose a risk to staff and children in nursery)
- A warning being received regarding a local risk of air pollution (smoke plumes, gas cloud etc.)
- A major fire or explosion in the vicinity of the nursery – as long as it is safer staying in the premises than leaving.

In this case the staff will be notified by the following action:

Signal for lock down is a whistle blow and the lead shouts "hide, hide, shhh, zip up signal".

Children will follow the lock down drill:

1/ Children sit, crawl then hide under the nearest table.

All individuals (including children) will remain in the area they are in, if safe to do so. If the children are outside, staff are to promptly and calmly direct children into the building, if this will not endanger them. Staff will make efforts to close and lock doors wherever safe to do so.

All individuals will keep away from the windows and doors and children will be occupied in the centre of the room so they are not placed at risk or are able to see any situation developing outside.

Internal communications will be kept to a minimum. Communication between rooms will be through internal telephones, intercom systems, two-way radios or mobile phones.

The manager will ensure all children, staff and visitors are accounted for and safe before returning to the office area to keep up-to-date with the current situation. The manager or acting manager will manage the situation dependent upon the information available. If the nursery is in immediate danger of an intruder, the police will be called as a matter of urgency. In other cases where the situation has been alerted by the police or local area authority then the nursery will await further instructions.

Once the all-clear has been given externally, the manager will issue the all-clear internally. After this time the staff will try to return to normal practice to enable the children not to be disrupted or upset by the events.

Any children showing worries or concerns will have one-to-one time with their key person to talk about these.

Parents will be informed about the situation at the earliest safest opportunity and will be kept updated when the information changes.

After the event a post-incident evaluation will be conducted to ensure that each child and staff member was supported fully and the procedure went as planned. Ofsted will be informed.

Regular drills will be held to practice exercising the lock down procedures, using non-alarming scenarios.

Christchurch Kindergarten Children's Nursery Limited

Environmental Sustainability Policy

At **Christchurch Kindergarten Children's Nursery Limited** we wish to support children to learn about sustainable practices and foster respect and care for living and non-living environments, in line with the DfE Sustainability and climate change strategy².

We provide opportunities for children to develop a broad knowledge and understanding of the importance of nature, sustainability, and the causes and impact of climate change through their learned and lived experiences. Children can develop positive attitudes and values about sustainable practices by exploring solutions to environmental issues, learning about the world around them and how to protect it and watching adults role model positive sustainable actions and solutions .

We promote a holistic, open-ended curriculum which explores ideas and practices for environmental sustainability and helps children understand the interdependence between people and the environment by:

- Helping children to spend time in nature, and explore it through art and play
- Supporting children to experience the natural environment through natural materials like wood, stone, sand and recycled materials
- Supporting the environment by learning how to grow and nurture plants in the nursery garden and discovering all about the food cycle by growing, harvesting and cooking food for our nursery menu
- Helping children to learn about water conservation, energy efficiency and waste reduction through play-based activities and adult interactions
- Going on nature walks and learning about plants they see in the local area
- Encouraging parents and children to regularly walk to nursery to raise the awareness of caring for the planet
- Encouraging children to become actively involved in the improvement of their local environment, such as by developing a recycling area and encouraging children to share a recycling ethos in the home environment.

As a nursery we will embed sustainability into all aspects of the operations including:

- Recycling materials for art and creative activities and encouraging parents to bring in their recycling materials for the same use
- Ensuring parents recycle children's take-home recycled material models, if they do not keep them
- Considering our carbon footprint when purchasing materials

² <https://bit.ly/sustainability-and-climate-change-strategy>

- Shopping local where possible
- Turning off equipment and lights when not in use
- Using energy saving light bulbs
- Not leaving any equipment on standby
- Unplugging all equipment at the end of its use/the day
- Using energy saving wash cycles on the washing machine
- Hanging washing out to dry and/or using clothes horses rather than tumble dryers where possible
- Composting food waste
- Incorporating water-wise strategies such as ensuring taps are turned off and leaks fixed
- Using potable water rainwater butts for outdoor water play
- Recycling water from the water play to water plants outside
- Using food that we have grown in nursery meals.

Working together with all our parents and partners will help our environment to be more sustainable and make it a better place for our future generations to grow up in.

We assess our nursery's impact on the environment on a regular basis and put procedures in place to counteract this impact.

In order to encourage children not to waste food or to play with food at mealtimes, we discourage the use of food as a play material; instead, we encourage activities which involve preparing and tasting different types of food.

This policy is reviewed annually and is carefully considered in the best interests of the children, nursery and the environment.

Christchurch Kindergarten Children's Nursery Limited

Equipment and Resources Policy

At **Christchurch Kindergarten Children's Nursery Limited** we organise the premises and equipment to meet the needs of all the children. We provide a wide range of high-quality equipment and resources to support the delivery of our early years curriculum. We take reasonable steps to ensure the safety of children and prevent them from being exposed to risks.

To ensure this occurs within the nursery, including in our outdoor areas, we provide:

- Play equipment and resources which are safe and, where applicable, conform to the European Standards for Playground Equipment: EN 1176 and EN 1177, BS EN safety standards or Toys (Safety) Regulation (1995)
- A sufficient quantity of equipment and resources for the number of children registered in the nursery
- High-quality resources to meet children's individual needs and interests and promote all areas of children's learning and development
- Opportunities to involve the children in decision-making about new resources and equipment, where possible
- A wide range of books, equipment and resources which promote positive images of people of all races, cultures, ages, gender and abilities, are non-discriminatory and do not stereotype
- Play equipment and resources which promote continuity and progression, and sufficient challenge
- Sufficient storage so resources and equipment can be displayed for children to independently choose and/or stored away safely, and then rotated
- Appropriate risk assessments and checks on all resources and equipment before first use to identify any potential risks and again at the beginning and end of every session.

Cleaning and maintaining of all resources and equipment

We repair or replace any unsafe, worn-out, dirty or damaged equipment whenever required. We maintain an inventory of resources and equipment, recording the date each item was purchased and the price paid. We evaluate the effectiveness of the resources, including the children's opinions and interests. Adults role model and discuss how to use and look after equipment and resources.

We encourage children to return resources to their rightful place after use. We will often use silhouettes or visuals to help the children do this.

Christchurch Kindergarten Children's Nursery Limited

Fire Safety Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we take reasonable steps to ensure the safety of children, staff and others on the nursery premises in the case of a fire or other emergency through our Fire safety policy and emergency evacuation procedures.

Fire safety procedures

02.1 Fire safety

- The setting manager or named fire marshal (if applicable) has access to, or a copy of, the fire safety procedures specific to the building and ensure they align with these procedures. The setting manager/fire marshal makes reasonable adjustments as required to ensure the two documents do not contradict each other.

Fire safety risk assessment

02.1a Fire safety risk assessment form is carried out in each area of the setting by a competent person, or a named fire marshal, using the five steps to fire safety risk assessment as follows:

1. Identify fire hazards
 - Sources of ignition.
 - Sources of fuel.
 - Sources of oxygen (including oxygen tanks for disabled children).
2. Identify people at risk
 - People in and around the premises.
 - People especially at risk including very young babies, less ambulant disabled children or those using specialised equipment, such as splints, standing frames.
3. Evaluate, remove, reduce and protect from the risk
 - Evaluate the risk of the fire occurring.
 - Evaluate the risk to people from a fire starting on the premises.
 - Remove and reduce the hazards that may cause a fire.
 - Remove and reduce the risks to people from a fire.
4. Record, plan, inform, instruct, train
 - Record significant findings and action taken.
 - Prepare an emergency plan.
 - Inform and instruct relevant people; inform and co-operate with others.
 - Provide training.
5. Review
 - Keep assessment under review and revise when necessary.

The fire safety risk assessment focuses on the following for each area:

- Electrical plugs, wires, sockets.
- Electrical items.
- Gas boilers.

- Cookers.
- Matches.
- Flammable materials, including furniture, furnishings, paper etc.
- Flammable chemicals (which are also covered in COSHH).
- Means of escape.
- Any other, as identified.

Fire safety precautions include:

- All electrical equipment is checked by a qualified electrician annually.
- Any faulty electrical equipment is taken out of use and recorded as such or condemned (whichever is necessary).
- Sockets are covered. This is different to using plug sockets inserts, a socket cover, covers the whole socket, including the switch and is safe to use.
- Water and electrical items do not come into contact; staff do not touch electrical items with wet hands.
- All fire safety equipment is checked annually.
- Gas boilers and cookers are checked and serviced annually by a Gas Safe registered engineer.
- If matches are used in the kitchen, they are kept in a drawer.
- Oxygen tanks.

Fire Drills

- Fire Drills (to include emergency evacuation procedures and lock down) are held at least termly.
- Drills are recorded, including:
 - date of drill
 - staff involved and numbers of children
 - how long it took to evacuate
 - any reason for a delay in achieving the target time and how this will be remedied

Fire precautions

- Fire exit signs are the green 'running man' signs and are in place and clearly visible.
- Fire exits by doors are those that show a green light at night.
- Fire doors are not locked during normal working hours.
- Fire evacuation notices are in every room; these are displayed in print large enough to read from a short distance. They say where the assembly point is.
- Fire alarms are in place and tested monthly, and where necessary supplemented with visual warnings. This is recorded.
- Smoke alarms are in place and tested monthly. This is recorded.
- A fire blanket is in place in the kitchen (and any other location where there is a cooker).
- Fire extinguishers are in place and are appropriate.

Christchurch Kindergarten Children's Nursery Limited

Food Play Policy

At **Christchurch Kindergarten Children's Nursery Limited** we ensure any food we use for play with the children is carefully supervised.

We will also use the following procedures to ensure children are kept safe:

- Choking hazards are checked and avoided
- We will not use whole jelly cubes for play. If we do use jelly to enhance our play, then all jelly will be prepared with water as per the instructions and then used
- Heat treated flour will be used, where appropriate, to reduce risk of infection³
- All allergies and intolerances will be checked and activities will be adapted to suit all children's needs, so no child is excluded
- All activities including food will be included on the planning sheets showing all allergens, so all staff and parents are aware of the ingredients
- Children's allergies will be visible to staff when placing out food play activities to ensure all needs are met
- Any cooking activities will be checked prior to start to ensure all children are able use all the ingredients based on their individual needs
- We will not use food in play unless it enhances the opportunities children are receiving from the activity. Much of the food will be reused in other activities, especially the dry materials.
- Kidney beans and water beads which expands in water should never be used in the settings.
- Dried food that is used for play will be kept away from food used for cooking, and utensils used for food play will be washed thoroughly and stored separately to utensils used in food production or at mealtimes
- Foods that are cooked and used for play which have limited shelf life (such as dough) will be replaced on a regular basis. Cornflour, cooked pasta and cooked rice will be discarded after use due to the high risk of bacteria developing
- Food used for play will be presented in ways that clearly distinguishes it from food intended for eating - for example in tuff trays, with added food colouring, raw, etc. Children are discouraged from eating play food, and from putting equipment and utensils in their mouths. We will not use food in play unless it enhances the opportunities children are receiving from the activity. Much of the food will be reused in other activities, especially the dry materials.

Christchurch Kindergarten Children's Nursery Limited

Grievance Procedure

At Christchurch Kindergarten Children's Nursery Limited we follow our legal obligations as an employer at all times including hearing and investigating grievances. We have the following policy and procedures that set out our process.

Legal obligations

Our obligations as an employer are detailed in the ACAS Code of Practice on disciplinary and grievance procedures. A full copy of the ACAS Code of Practice and the accompanying guidance can be obtained from the ACAS website: <https://www.acas.org.uk/>

Objectives and guiding principles

We recognise that an employee needs to feel that his or her grievance has been fully investigated and has received a fair hearing. The employee also needs to understand the reasons for the decision made by the manager who heard their grievance. The employee should then be given the opportunity to appeal against the decision. Their appeal should be submitted in writing and should be investigated and heard by someone more senior to the person who heard the initial grievance. The person allocated to hear the employee's appeal should be able to take a fresh and independent look at the issue. In our organisation the individual's immediate line manager deals with the grievance initially separately before being passed on to the *owner, *manager or *officer in charge of the nursery.

ACAS advocates the use of mediation to resolve grievances, in an attempt to maintain a good working relationship and resolve issues within the workplace. We may decide to use such mediation where appropriate using ACAS support and guidance.

Our grievance procedure does not form part of any employee's contract of employment. It may be amended at any time, and we may depart from it depending on the circumstances of any case.

This procedure applies to all employees regardless of length of service.

Our nursery believes that all employees should be treated fairly and with respect. We encourage all employees to try to resolve any grievance with the individual concerned on an informal basis, as most grievances can be resolved quickly through discussion. Your line manager will assist you with this if you feel this is the best route for you.

If this does not resolve the complaint, issue or problem, you should initiate the formal process below.

Grievance process

Stage 1

Making your grievance

- You should put your grievance in writing and forward it to your line manager
- This written statement will form the basis of any investigations and the subsequent hearing, so it is important that you set out clearly the nature of your grievance and any dates and names of individuals involved. You should also indicate the outcome that you are seeking. If your grievance is unclear, you may be asked to clarify your complaint before any meeting takes place
- If your complaint relates to an issue with your line manager, the grievance may be sent to **the Director**.
- Before proceeding to a full grievance hearing, it may be necessary to carry out investigations of any allegations made by you. If any evidence is gathered in the course of these investigations, you will be given a copy in advance of the hearing and appropriate time for you to consider your response. In exceptional circumstances, the evidence given by individuals may have to remain confidential. Where confidentiality is necessary, this will be explained to you and an appropriate summary of the evidence gathered will be given to you.

Stage 2

The grievance hearing

The hearing will be held as soon as is reasonably possible following any investigations, and within **ideally five days** working days of the receipt of your written complaint. It will be conducted by your line manager or another nominated manager if your complaint relates to an issue with your line manager. You are entitled to bring a companion to the grievance meeting if you make a reasonable request to do so. This request must be in advance of the meeting and you should tell us the name of your chosen companion. The companion may either be a trade union representative or a work colleague.

You should ensure that you attend the meeting where possible. If you are unable to attend because of circumstances beyond your control, you should inform your line manager as soon as possible and a further meeting will be re-arranged as soon as possible. If you fail to attend without explanation, or if it appears that you have not made sufficient attempts to attend, the hearing may take place in your absence.

During the hearing you will be given the opportunity to explain your complaint. Your explanations should focus on the complaint and not on irrelevant issues. The manager conducting the hearing will inform you if they believe the key issues are not being focused on. They may also set a reasonable timeframe for the meeting; this will be determined by the nature and complexity of your complaint.

The hearing may be adjourned to allow further investigations to take place. Following the meeting, you will be informed in writing of the outcome within **[suggest five]** working days, where reasonably practicable, and told of any action that the nursery proposes to take as a result of your complaint, if applicable. If it is anticipated that further investigation is required and therefore the outcome cannot be provided within this timeframe, we will inform you as to when you can expect to receive the outcome.

[N.B. However, if another employee has been disciplined as a result of the grievance, you should not inform the employee who raised the grievance as this information is confidential between you as the employer and the other employee.]

If you are dissatisfied with the outcome, you may make a formal appeal in writing to **the Director**], stating your full grounds of appeal, within **5 working days** of the date on which the decision was sent or given to you

Stage 3

We will hold an appeal meeting within **14 working days** of receiving the appeal, where reasonably practicable. This will be dealt with impartially by a more senior manager, where applicable who has not previously been involved in the case. You will have the right to bring a companion, as explained above.

We will confirm our final decision in writing, usually within **7 working days** of the appeal hearing, where reasonably practicable. There is no further right of appeal.

Grievances linked to disciplinary matters

Complaints that you may have about any disciplinary action taken against you should be dealt with as an appeal under the disciplinary procedure.

Where an employee raises a grievance during a disciplinary process the disciplinary process may be temporarily suspended in order to deal with the grievance.

Where the grievance and disciplinary cases are related it may be appropriate to deal with both issues concurrently.

Christchurch Kindergarten Children's Nursery Limited

Health and Safety- General Policy

At **Christchurch Kindergarten Children's Nursery Limited** we provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees and a safe early learning environment in which children learn and are cared for. To develop and promote a strong health and safety culture within the nursery for the benefit of all staff, children, parents and any visitors, we provide information, training and supervision. We also accept our responsibility for the health and safety of other people who may be affected by our activities.

The allocation of duties for safety matters and the particular arrangements which we will make to implement our health and safety procedures are set out within this policy and we make sufficient resources available to provide a safe environment.

Legal framework

We follow all relevant legislation and associated guidance relating to health and safety within the nursery including:

- The requirements of the Early Years Foundation Stage (EYFS) Statutory Framework
- The regulations of the Health and Safety at Work etc. Act (1974) and any other relevant legislation such as Control of Substances Hazardous to Health Regulation (COSHH)
- Any guidance provided by UK Health Security Agency, the local health protection unit, the local authority environmental health department, fire authority or the Health and Safety Executive.

Aims and objectives

The aim of this policy statement is to ensure that all reasonably practical steps are taken to ensure the health, safety and welfare of all persons using the premises.

To achieve this, we will actively work towards the following objectives:

- Establish and maintain a safe and healthy environment throughout the nursery including outdoor spaces
- Establish and maintain safe working practices amongst staff and children
- Make arrangements for ensuring safety and the minimising of risks to health in connection with the use, handling, storage and transport of hazardous articles and substances
- Ensure the provision of sufficient information, instruction and supervision to enable all people working in or using the nursery to avoid hazards and contribute positively to their own health and safety and to ensure that staff have access to regular health and safety training

- Maintain a healthy and safe nursery with safe entry and exit routes
- Formulate effective procedures for use in case of fire and other emergencies and for evacuating the nursery premises. Practice this procedure on a regular basis to enable the safe and speedy evacuation of the nursery
- Maintain a safe working environment for pregnant workers or for workers who have recently given birth, including undertaking appropriate risk assessments
- Maintain a safe environment for those with special educational needs and disabilities and ensure all areas of the nursery are accessible (wherever practicable)
- Provide a safe environment for students or trainees to learn in
- Encourage all staff, visitors and parents to report any unsafe working practices or areas to ensure immediate response by the management.

We believe the risks in the nursery environment are low. To maintain the maximum protection for children, staff and parents, the nursery:

- Ensures all entrances and exits from the building, including fire exits are clearly identifiable, free from obstruction and easily opened from the inside
- Regularly check the premises room by room for structural defects, worn fixtures and fittings or electrical equipment and take the necessary remedial action
- Ensures that all staff, visitors, parents and children are aware of the fire procedures and regular fire drills are carried out
- Has the appropriate fire detection and control equipment which is checked regularly to make sure it is in working order
- Ensures that all members of staff are aware of the procedure to follow in case of accidents for staff, visitors and children
- Ensures that all members of staff take all reasonable action to control the spread of infectious diseases and wear protective gloves and clothing where appropriate
- Ensures there are suitable hygienic changing facilities (see Infection control policy)
- Prohibits smoking or vaping on the nursery premises
- Prohibits any contractor from working on the premises without prior discussion with the officer in charge
- Encourages children to manage risks safely and prohibits running inside the premises unless in designated areas
- Risk assesses all electrical sockets and take appropriate measures to reduce risks where necessary and ensure no trailing wires are left around the nursery
- Ensures all cleaning materials are placed out of the reach of children and kept in their original containers
- Ensures staff wear protective clothing when cooking or serving food
- Prohibits certain foods that may relate to children's allergies, e.g. nuts are not allowed in the nursery
- Follows the EU Food Information for Food Consumers Regulations (EU FIC) by identifying the 14 allergens listed by EU Law that we use as ingredients in any of the dishes we provide to children and ensure that all parents are informed
- Follows the Allergies and allergic reactions policy for children who have allergies or have a reaction at the nursery

- Ensures risk assessments are undertaken on the storage and preparation of food produce within the nursery
- Familiarises all staff and visitors with the position of the first aid boxes and ensure all know who the appointed first aiders are
- Provides appropriately stocked first aid boxes and check their contents regularly
- Ensures children are supervised at all times
- Takes all reasonable steps to prevent unauthorised persons entering the premises and have an agreed procedure for checking the identity of visitors
- Ensures no student or volunteer is left unsupervised at any time
- Ensures staff paediatric first aid (PFA) certificates or a list of staff who hold a current PFA certificate are on display (and/or made available to parents).

Responsibilities

The designated Health and Safety Officer in the nursery is **the Director and the Manager**.

The employer has overall and final responsibility for this policy being carried out at:

Christchurch Kindergarten Children's Nursery Limited (individual branch address). The nursery *manager/*deputy nursery manager will be responsible in his/her absence.

All employees have the responsibility to cooperate with senior staff and the manager to achieve a healthy and safe nursery and to take reasonable care of themselves and others. Neglect of health and safety regulations and duties will be regarded as a disciplinary matter (see separate Disciplinary procedure).

Whenever a member of staff notices a health or safety issue or problem that they cannot rectify, they must immediately report it to the appropriate person named above. Parents and visitors are requested to report any concerns to the *senior member of staff in the area/*deputy manager/*manager.

Daily contact, monthly staff meetings and health and safety meetings provide consultation between management and employees. These include health and safety matters.

Health and safety is covered in all induction training for new staff.

At least one member of staff on the premises and available at times when children are present **MUST** hold a full paediatric first aid (PFA) certificate in the nursery and must accompany children on outings. The certificate must be for a full 12 hour course consistent with the criteria set out in Annex A of the EYFS.

This must be renewed every three years.

In addition to this, all newly qualified entrants to the early years workforce who have completed a level 2 and/or level 3 qualification on or after 30 June 2016, must also have either a full PFA or an emergency PFA certificate within three months of starting work and ongoing in order to be included in the required staff: child ratios at level 2 or level 3. To

continue to be included in the ratio requirement the certificate must be renewed every three years.

At nursery, we take in to account the number of children, staff, layout of premises to ensure that a paediatric first aider is able to respond to emergencies quickly.

Health and safety arrangements

- All staff are responsible for general health and safety in the nursery
- Risk assessments will be conducted on all areas of the nursery, including rooms, activities, outdoor areas, resources, cleaning equipment, legionella and lone working
- Risk assessments are reviewed at regular intervals and when arrangements change
- All outings away from the nursery (however short) will include a prior risk assessment – more details are included in our Visits and outings policy
- All equipment, rooms and outdoor areas are checked thoroughly by staff before children access them or the area. These checks are recorded and initialled by the staff responsible. Unsafe areas are made safe where possible or the area is not used to promote the safety of children. In these cases the manager will be notified immediately
- We provide appropriate facilities for all children, staff, parents and visitors to receive a warm welcome and provide for their basic care needs, e.g. easy to access toilet area and fresh drinking water
- We adhere to the Control of Substances Hazardous to Health Regulation (COSHH) to ensure all children, staff, parents and visitors are safe in relation to any chemicals we may use on the premises
- We identify and assess any water sources at risk of legionella⁴, and manage these risks including avoiding stagnant water
- All staff and students receive appropriate training in all areas of health and safety which includes risk assessments, manual handling, fire safety and emergency evacuation procedures. We may also use benefit risk assessments for particular activities and resources for children
- We have a clear Accidents and first aid policy to follow in the case of any person in the nursery suffering injury from an accident or incident
- We have a clear fire safety policy and procedure, which supports the prevention of fire and the safe evacuation of all persons in the nursery. This is shared with all staff, students, parents and visitors to the nursery
- We review accident and incident records to identify any patterns or hazardous areas
- All health and safety matters are reviewed informally on an ongoing basis and formally every six months or when something changes. Staff and parents receive these updates, as with all policy changes, as and when they happen

⁴ <https://www.hse.gov.uk/legionnaires/>

- We welcome feedback from staff and parents. They are able to contribute to any policy through informal discussions, the suggestion scheme and/or during regular meetings held at nursery.

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Healthy Workplace Policy

At Christchurch Kindergarten Children's Nursery Limited, we are committed to providing a workplace which supports and encourages a healthy staff team through staff training, health and safety awareness and supervision.

Dress code

Staff must always follow our dress code. Staff accompanying children on trips and outings must wear uniform including **senior staff**.

Staff breaks

It is the responsibility of the nursery manager to ensure that all staff working for 6 hours or more take a break 30 minutes, depending on the hours worked, and that staff-child ratios are maintained.

5 Hours 10 minutes

Less than 5 hours No breaks unless staff wellbeing is required.

All breaks are paid to the employee's normal working hours.

Personal hygiene

Staff must follow the personal hygiene code at all times and encourage children to adopt the same good personal hygiene code themselves.

Hands must be washed before handling food, after using the toilet or toileting children, after playing outside, wiping noses, messy play activities and after contact with animals.

After noses have been wiped the tissue must be disposed of hygienically and hands should be washed.

Cleaning

The nursery is committed to providing a safe, happy and healthy environment for children to play, grow and learn. Cleanliness is an essential element of this practice.

The nursery is cleaned daily, and the bathrooms are regularly checked. These are cleaned at least daily (more if necessary, i.e. at lunch time).

The nappy changing facility and potties are cleaned and disinfected after every use.

Any mess throughout the day is cleaned up as needed to ensure a hygienic environment for staff and the children in our care.

Kitchen

Staff are made aware of the basic food hygiene standards through appropriate training and this is updated every three years. In addition, we ensure:

- Fridges are cleaned out weekly
- Microwaves are cleaned after every use
- Toasters are cleaned after every use
- The oven is cleaned out regularly and details recorded
- Freezers are cleaned out every three months and details recorded
- Where a dishwasher is available Plates, utensils etc. are rinsed before putting in the dishwasher and the dishwasher is cleaned out regularly and details recorded.
- All cupboards are cleaned out monthly
- Fridge and freezer temperatures are recorded first thing in the morning by the *manager/*cook and last thing at night
- All food is covered at all times in and out of the fridge and dated to show when each product was opened and then used in date order
- Care is taken to ensure that food is correctly stored in fridges
- When re-heating food, the temperature is over 75°C, food is checked with the probe thermometer and recorded, then cooled down before serving. Hot food prepared on the premises is checked with the probe thermometer before serving
- Food served but not used immediately is appropriately covered and placed in the *fridge/*freezer within 60 minutes. If this is not followed, food is discarded immediately
- All opened packets are dated when opened and placed in an airtight container, e.g. baby food, raisins, cereal etc.
- Blended food is placed in suitable airtight containers, named and dated
- Surfaces are cleaned with anti-bacterial spray
- Only appropriate coloured kitchen cloths are used (please follow the chart on the wall). These are washed daily in a hot wash.
- Windows protected by fly guards are opened as often as possible along with the vents
- All plugs are pulled out of their sockets at the end of each day and switches switched off where practicable (with the exception of the fridge and freezer)
- Children do NOT enter the kitchen except for supervised cooking activities
- *Doors/*gates to the kitchen are kept *closed/*locked at all times
- Kitchen bins are emptied when full and at the end of each day.

Nursery

- Staff are trained to be aware of general hygiene in the nursery and ensure that high standards are kept at all times
- Regular toy washing rotas are established in all rooms and items recorded. Toys are washed with sanitising fluid

- Floors are cleaned during the day when necessary. Vacuum cleaner bags (where used) are changed frequently
- Staff are requested to use the appropriate coloured mop for the task or area (see chart on wall) and mop heads are washed in a separate **wash at least weekly.**
- Low and highchairs are cleaned thoroughly after every use. Straps and reins are washed weekly or as required
- Every child has its own cot sheet which is washed at the end of every week or whenever necessary
- All surfaces are kept clean and clutter free
- Children are always reminded to wash their hands after using the bathroom and before meals. Staff always encourage good hygiene standards, for example, not eating food that has fallen on the floor
- Staff are positive role models and talk to the children about good hygiene routines and why they need to wash their hands, wipe their noses and cover their mouths when coughing.

Christchurch Kindergarten Children's Nursery Limited

Immunisation Policy

At **Christchurch Kindergarten Children's Nursery Limited** we expect and promote that children are vaccinated in accordance with the government's health policy and their age.

We ask that parents inform us if their children are not vaccinated so that we can manage any risks to their own child or other children, staff and parents in the best way possible. The nursery manager must be aware of any children within the nursery who are not vaccinated in accordance with their age. Log should be displayed where it is visible to all staff.

We make all parents aware that some children in the nursery may not be vaccinated, due to their age, medical reasons or parental choice. Our nursery does not discriminate against children who have not received their immunisations and will not disclose individual details to other parents. However, we will share the risks of infection if children have not had immunisations and ask parents to sign a disclaimer (see form below).

We record, or encourage parents to record, information about immunisations on children's registration documents and we update this information as and when necessary, including when the child reaches the age for the appropriate immunisations.

Emergency information

We keep emergency information for every child and update it every six months with regular reminders to parents in newsletters, at parents' evenings and a reminder notice on the Parent Information Board.

Christchurch Kindergarten Children's Nursery Limited

Inclusion and Equality Policy

Note: Inclusion is a process of identifying, understanding and breaking down barriers to participation and belonging. Inclusive early years practice is about anticipating, paying attention, responding to and reflecting on the needs and interests of all children. A commitment to inclusion should permeate all aspects of the design of educational programmes and the structuring of environments, as well as shaping every interaction with children, parents and other professionals (Birth to 5 Matters).

Statement of intent

At **Christchurch Kindergarten Children's Nursery Limited** we take great care to treat each individual as a person in their own right, with equal rights and responsibilities to any other individual, whether they are an adult or a child. We are committed to providing equality of opportunity and anti-discriminatory practice for all staff, children and families according to their individual needs. Discrimination on the grounds of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation has no place within our nursery.

A commitment to implementing our Inclusion and equality policy is part of each employee's job description. Should anyone believe that this policy is not being upheld, it is their duty to report the matter to the attention of the **Area/nursery manager and the director** at the earliest opportunity.

Appropriate steps will then be taken to investigate the matter and if such concerns are well-founded, the nursery's Disciplinary procedure will be followed.

The legal framework for this policy is based on:

- Special Education Needs and Disabilities Code of Practice 2015
- Children and Families Act 2014
- Equality Act 2010
- Childcare Act 2006
- Children Act 2004
- Care Standards Act 2002
- Special Educational Needs and Disability Act 2001
- Worker Protection Act 2023.

The nursery and staff are committed to:

- Recruiting, selecting, training and promoting individuals based on occupational skills requirements. In this respect, the nursery will ensure that no job applicant or employee will receive less favourable treatment because of age, disability, gender

reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation

- Creating a working environment free of bullying, harassment, victimisation and unlawful discrimination, promoting dignity and respect for all, and where individual differences and the contributions of all staff are recognised and valued
- Providing a childcare place, wherever possible, for children who may have special educational needs and/or disabilities or are deemed disadvantaged according to their individual circumstances
- Making reasonable adjustments for children with special educational needs and disabilities to remove barriers and improve access for all
- Striving to promote equal access to services and projects by taking practical steps (wherever possible and reasonable), such as ensuring access to people with additional needs and by producing materials in relevant languages and media for all children and their families
- Providing a secure environment in which all our families are listened to, children can flourish and all contributions are valued
- Including and valuing the contribution of all families to our understanding of equality, inclusion and diversity
- Providing positive non-stereotypical information
- Continually improving our knowledge and understanding of issues of equality, inclusion and diversity and training all staff about their rights and responsibilities under the inclusion and equality policy.
- Regularly reviewing, monitoring and evaluating the effectiveness of inclusive practices to ensure they promote and value diversity and difference and that the policy is effective and practices are non-discriminatory
- Making inclusion a thread which runs through the entirety of the nursery, for example, by encouraging positive role models through the use of toys, imaginary play and activities, promoting non-stereotypical images and language and challenging all discriminatory behaviour (see Dealing with discriminatory behaviour policy).

Note: The Act uses the term 'transsexual' which covers those who are 'transgender' or 'trans'. When reviewing discrimination in the setting, seek specialist advice regarding recruitment and promotion processes, the use of toilet facilities, managing absences for transitioning employees, recording employee gender identity and chosen pronouns and correct information sharing for personal details. It is also recommended to plan how to address any questions or concerns raised by other employees or parents so that they are handled in a respectful and sensitive way.

Admissions and service provision

The nursery is accessible to all children and families in the local community and further afield through a comprehensive and inclusive admissions policy.

The nursery will strive to ensure that all services and projects are accessible and relevant to all groups and individuals in the community within targeted age groups.

Recruitment

Recruitment, promotion and other selection exercises such as redundancy selection will be conducted on the basis of merit, against objective criteria that avoids discrimination.

At interview, no questions are posed which potentially discriminate on the grounds specified in the statement of intent. All candidates are asked the same questions and members of the selection group will not introduce nor use any personal knowledge of candidates acquired outside the selection process. Candidates are given the opportunity to receive feedback on the reasons why they were not successful.

We may ask questions (under the Equality Act 2010) prior to offering someone employment in the following circumstances:

- To establish whether the applicant will be able to comply with a requirement to undergo an assessment (i.e. an interview or selection test)
- To establish whether the applicant will be able to carry out a function that is intrinsic to the work concerned
- To monitor diversity in the range of people applying for work
- To take positive action towards a particular group – for example offering a guaranteed interview scheme
- Shortlisting will be done by more than one person, where possible.

The National College for Teaching and Leadership provides further guidance specific to working with children, which we follow:

Providers have a responsibility to ensure that practitioners have the health and physical capacity to teach and will not put children and young people at risk of harm. The activities that a practitioner must be able to perform are set out in the Education (Health Standards England) Regulations 2003. Providers are responsible for ensuring that only practitioners who have the capacity to teach remain on the staff team.

People with disabilities or chronic illnesses may have the capacity to teach, just as those without disabilities or medical conditions may be unsuitable to teach. Further information on training to teach with a disability is available from the DfE website.

Successful applicants offered a position may be asked to complete a fitness questionnaire prior to commencing the programme. Providers should not ask all-encompassing health questions but should ensure that they only ask targeted and relevant health-related questions, which are necessary to ensure that a person is able to teach.

Staff

It is our policy not to discriminate in the treatment of individuals. All staff are expected to co-operate with the implementation, monitoring and improvement of this and other

policies. They are expected to challenge language, actions, behaviours and attitudes which are oppressive or discriminatory on the grounds specified in this policy and recognise and celebrate other cultures and traditions. All staff are expected to participate in equality and inclusion training.

We foster a safe, inclusive, and positive work environment, with our leadership team ensuring policies are kept up-to-date, conducting risk assessments, providing regular training and monitoring to ensure effective implementation. These demonstrate taking 'reasonable steps' to ensure compliance with the duty to prevent harassment of our employees, including harassment from third parties

Staff will follow the Dealing with discriminatory behaviour policy where applicable to report any discriminatory behaviours observed. Our zero-tolerance approach includes having anonymous reporting procedures and dealing with any instances which arise via our disciplinary procedures.

Training

The nursery recognises the importance of training as a key factor in the implementation of an effective inclusion and equality policy. All new staff receive induction training including specific reference to the Inclusion and equality policy. The nursery strives towards the provision of inclusion, equality and diversity training for all staff in house.

Training includes ensuring staff understand that harassment, of any kind, is subjective and so depends on how the behaviour makes someone feel. We encourage all staff members to create a culture of zero tolerance towards discrimination and sexual harassment in our setting.

Early learning framework

We follow the Early Years Foundation Stage statutory requirements and ensure that all learning opportunities offered in the nursery encourage children to develop positive attitudes to people who are different from them. Our curriculum encourages children to empathise with others and to begin to develop the skills of critical thinking.

We do this by:

- Identifying a key person to each child who will ensure that each child's care is tailored to meet their individual needs and continuously observe, assess and plan for their learning and development
- Listening to children's verbal and non-verbal communication and making children feel included, valued and good about themselves
- Ensuring that we know what each child knows and "can do" and has equal access to tailored early learning and play opportunities
- Reflecting the widest possible range of communities in the choice of resources
- Avoiding stereotypical or derogatory images in the selection of materials
- Acknowledging and celebrating a wide range of religions, beliefs and festivals
- Creating an environment of mutual respect

- Supporting children to talk about their feelings and those of others, manage emotions and develop empathy
- Helping children to understand that discriminatory behaviour and remarks are unacceptable
- Knowing children well, being able to meet their needs and know when they require further support
- Ensuring that all early learning opportunities offered are inclusive of children with special educational needs and/or disabilities and children from disadvantaged backgrounds
- Ensuring that children whose first language is not English have full access to our early learning opportunities and are supported in their learning
- Working in partnership with all families to ensure they understand the policy and challenge any discriminatory comments made
- Ensuring the medical, cultural and dietary needs of all children are met and help children to learn about a range of food and cultural approaches to meal times and to respect the differences among them.

Parent information and meetings

Information about the nursery, its activities, experiences and resources are shared with parents as well as information about their child's development. This is given in a variety of ways according to individual needs (written, verbal and translated), to ensure that all parents can access the information they need.

Every term the keyperson should check with parents the registration form for any changes.

We also consult with parents regularly about the running of the nursery and ask them to contribute their ideas.

Christchurch Kindergarten Children's Nursery Limited

Infection Control Policy

At **Christchurch Kindergarten Children's Nursery Limited** we promote the good health of all children attending (including oral health) through maintaining high hygiene standards to help reduce the chances of infection being spread. We follow the health protection in schools and other childcare facilities guidance⁵ which sets out when and how long children need to be excluded from settings, when treatment and/or medication is required and where to get further advice from.

Viruses and infections can be easily passed from person to person by breathing in air containing the virus, which is produced when an infected person talks, coughs or sneezes. It can also spread through hand and face contact after touching a person or surface contaminated with viruses.

We follow the guidance below to prevent a virus or infection from spreading around the nursery.

Our staff:

- Encourage all children to use tissues when coughing and sneezing to catch germs.
- Ensure all tissues are disposed of in a hygienic way and all children and staff wash their hands once the tissue is disposed of
- Develop children's understanding of the above and the need for good hygiene procedures in helping them to stay healthy
- Wear the appropriate Personal Protective Equipment (PPE) when changing nappies, toileting children and dealing with any other bodily fluids. Staff are requested to dispose of these in the appropriate manner and wash hands immediately
- Clean and sterilise all potties and changing mats before and after each use
- Clean toilets at least daily and check them throughout the day
- Remind children to wash their hands before eating, after visiting the toilet, playing outside or being in contact with any animal and explain the reasons for this
- Clean all toys, equipment and resources on a regular basis by following a comprehensive cleaning rota and using antibacterial cleanser, or through washing in the washing machine
- Wash or clean all equipment used by babies and toddlers as and when needed, including when the children have placed it in their mouth
- Store dummies in individual hygienic dummy boxes labelled with the child's name to prevent cross-contamination with other children

⁵ <https://www.gov.uk/government/publications/health-protection-in-schools-and-other-childcare-facilities>

- Immediately clean and sterilise (where necessary) any dummy or bottle that falls on the floor or is picked up by another child
- Store toothbrushes (where applicable) hygienically to prevent cross-contamination
- Provide labelled individual bedding for children that is not used by any other child and wash this at least once a week
- Follow the Sickness and illness policy when children are ill to prevent the spread of any infection in the nursery. Staff are also requested to stay at home if they are ill and/or are contagious.

In addition:

- The nursery manager retains the right of refusal of all children, parents, carers, staff and visitors who are deemed contagious and may impact on the welfare of the rest of the nursery
- Parents will be made aware of the need for these procedures in order for them to follow these guidelines whilst in the nursery
- Periodically each room in the nursery will be deep cleaned including carpets and soft furnishings to ensure the spread of infection is limited. This will be implemented earlier if the need arises
- In the event of an infection outbreak the nursery will, where appropriate, undertake a deep clean to ensure the spread of infection is contained
- We will follow Government health guidance, as well as seeking legal advice and information from our insurers, on any national outbreak of a virus and/or pandemic and keep parents informed of any course of action. Each specific circumstance will differ and to ensure we take the most appropriate action; we will treat each case on an individual basis
- In addition, where contagious outbreaks occur, we will adopt Government guidance for all visitors to minimise the risk of further spreading of the infection
- The nursery will ensure stocks of tissues, hand washing equipment, cleaning materials and sterilising fluid are always maintained. These will be increased during the winter months, or when flu and cold germs are circulating.

Christchurch Kindergarten Children's Nursery Limited

Late Collection and Non-Collection of Children Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we have morning, afternoon and all-day sessions. Parents can collect their child from the nursery flexibly within this time. We ask them to be no later than the session end time, for example, if they attend the morning session, we expect children to be collected no later than their collection time. We understand that some parents may arrive earlier to collect their child, which is acceptable. However, the late charges remain if you are going to pick up your child late (£1 /minute). If charges made during the day, money is used for children's resources & items. End of the day the money is shared by the 2 staff who are waiting with the child.

We give parents information about the procedures to follow if they expect to be late. These include:

- Calling the nursery as soon as possible to advise of their situation and expected time of arrival
- A safety password with the nursery in advance to be used by anyone collecting a child who is not the parent (designated adult)
- Asking a designated adult to collect their child wherever possible
- Informing the nursery of this person's identity so the nursery can talk to the child if appropriate. This will help to reduce or eliminate any distress caused by this situation
- If the designated person is not known to the nursery staff, the parent must provide a detailed description of this person, including their date of birth, where known. This designated person must know the individual child's safety password in order for the nursery to release the child into their care. This is the parents' responsibility.

If a child has not been collected from the nursery after a reasonable amount of time **30 minutes** has been allowed for lateness, we initiate the following procedure:

- The nursery manager will be informed that a child has not been collected
- The manager will check for any information regarding changes to normal routines, parents' work patterns or general information. If no information is recorded, the manager will try to contact the parents at the mobile, home, or work numbers provided. If this fails, the manager will try the emergency contacts shown on the child's records. Where possible, we request two or more emergency contact numbers for each child.
- The manager or staff member in charge and one other member of staff must stay behind with the child (if outside normal operating hours). During normal operating times, the nursery will plan to meet required staff ratios. If the parents have not yet collected the child, the manager will telephone all available contact numbers every 10 minutes until contact is made. These calls will be logged on a full incident record

- In the event of no contact being made after one hour has lapsed, the person in charge will ring the local authority children's social services emergency duty team
- The nursery will inform Ofsted as soon as convenient
- The two members of staff will remain in the building until suitable arrangements have been made for the collection of the child
- The child's welfare and needs will be met at all times, and to minimise distress, staff will distract, comfort and reassure the child during the process
- In order to provide this additional care a late fee of **£1 a minute after 5 minutes** will be charged to parents. This will pay for any additional operational costs that caring for a child outside their normal nursery hours may incur.

Christchurch Kindergarten Children's Nursery Limited

Lone Working Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we aim to ensure that no team member is left alone in a room or within the building at any time. However, there may be occasions when this isn't always possible due to:

- *Toilet breaks*
- *Lunch cover*
- *Nappy changes*
- *Comforting a child who may be unwell in a quiet area*
- *Following a child's interest, as this may lead staff away with a child to explore an area*
- *Supporting children in the toilet area*
- *Individual duties of team members, e.g. management, opening and closing the setting, carrying out cleaning or maintenance at the settings and staff working outside operating hours.*

On the rare occasions that lone working within a room does take place, we ensure that a specific risk assessment is completed prior to this taking place, including ensuring that:

- Staff can manage a variety of tasks, such as talking to parents and supervising children safely
- Each member of staff required to work alone holds the required qualifications, training and/or skills for the role, e.g. holds a level 3 qualification, paediatric first aid, safeguarding and child protection training and basic food hygiene
- Staff members working alone are competent in their role
- The staff member can call on others in an emergency, including evacuation or lockdown procedures
- There are procedures in place to check in on the staff member and cover for breaks
- The member of staff and children are always safeguarded (according to our Safeguarding Children and Child Protection Policy)
- Ratios are always maintained.

Public liability insurance for lone working will be sought where applicable.

Staff members' responsibilities when left in the building alone:

- Make a member of the management aware of when they are working and make plans to check in at their expected time of completion of the work
- Ensure they always have access to a telephone in order to call for help if they need it, or for management to check their safety if they are concerned
- Ensure that the building remains locked so no one can walk in unidentified

- Report any concerns for working alone to the management as soon as is practicably possible.
- Cleaners working alone after or before the nursery opens, must let next of kin approximate time in the setting. The nursery managers number should be shared with next of kin in case of any emergency.

Management's responsibilities when left in the building alone:

- Ensure staff working alone are competent and confident to carry out any safety procedures, e.g. evacuation or lockdown
- Ensure that the employee can contact them or a member of the team even if their lone working is outside normal office hours (i.e. access to a phone, contact numbers of someone they can call)
- Check that the employee has someone they can contact in the event of an emergency and the numbers to call
- Ensure that employees can access a telephone whilst lone working
- If reporting in arrangements have been made and the employee does not call in, follow up.

Christchurch Kindergarten Children's Nursery Limited

Looked After Children Policy

At **Christchurch Kindergarten Children's Nursery Limited** we are committed to providing a welcoming and inclusive quality environment for all children and families.

Definition and legal framework

The description 'looked after' is generally used to describe a child who is looked after by the local authority. This includes children who are subject to a care order or temporarily classed as looked after on a planned basis for short breaks or respite care. Most looked after children will be cared for by foster carers with a small minority in children's homes, looked after by family members or even placed back within the family home.

The term 'looked after child' denotes a child's current legal status. The nursery never uses this term to categorise a child as standing out from others or refers to a child using acronyms such as LAC. Looked after children can also be referred to as 'children in care', a term which many children and young people prefer.

The legal framework for this policy is underpinned by or supported through:

- Childcare Act (2006)
- Children Act (1989 and 2004)
- Adoption and Children Act (2002)
- Children and Young Persons Act (2008)
- Children and Families Act (2014)
- Children and Social Work Act (2017).

Our policy

Our nursery treats each child as an individual. We recognise that for young children to get the most out of educational opportunities, they need to be settled appropriately with their carer. We will discuss with the child's carer, and social worker where applicable, the length of time the child has been with the carer before they start nursery to establish how secure the child feels and whether they are ready to be able to cope with further separation, a new environment and new expectations made upon them.

We are aware that there are several reasons why a child may go into care, and these reasons may or may not include traumatic experiences or abuse. All our practitioners are committed to doing all they can to support all children to achieve their full potential. The nursery staff team are all trained to understand our safeguarding policy and procedures. Additional training to support children's individual needs will be planned for, where appropriate. Practitioners are always supported by management, and we have an open-door policy for discussing any sensitive issues regarding the child.

Where applicable, we contribute to any assessment about the child, such as those carried out under local authorities' assessment frameworks or Early Help Assessment (EHA) and to any multi-agency meetings, case conferences or strategy meetings in relation to the child's learning and development. The designated person for looked-after children and/or the child's key person will attend meetings as appropriate.

Each child is allocated a key person. The key person will support the child initially with transition and settling in and then continue to support and build up a relationship with the child, carers and any other agencies involved. Regular contact will be maintained with the carers throughout the child's time at the nursery and with the social worker, virtual schools head or other professionals (where applicable).

The key person will carry out regular ongoing practice such as observations to build up a picture of the child's interests, and plan activities accordingly to support the child's stage of learning and development and interests. This information will be shared with carers and other professionals as appropriate as well as any concerns surrounding their developmental stages.

Where necessary the *key person/*designated person/*manager will develop a care plan with the child's carers and any relevant professionals. This will include:

- The child's emotional needs and how they are to be met
- How any emotional issues and problems that affect behaviour are to be managed
- The child's sense of self, culture, language/s and identity - how this is to be supported
- The child's need for sociability and friendship
- The child's interests and abilities and possible learning journey pathway
- Where applicable, how any special educational needs and/or disabilities will be supported.

In addition, the care plan may also consider:

- How information will be shared with the carer and local authority (as the 'corporate parent') as well as what information is shared with any other organisation or professionals and how it will be recorded and stored
- What contact the child has with his/her birth parent(s) and what arrangements will be in place for supervised contact. If this is to be in the setting, when, where and what form the contact will take will be discussed and agreed
- Who may collect the child from nursery and who may receive information about the child
- What written reporting is required
- Wherever possible, and where the plan is for the child to return to their home, the birth parent(s) should be involved in this planning
- With the social worker's agreement, and as part of the plan, whether the birth parent(s) should be involved in the setting's activities that include parents, such as outings, fun days etc. alongside the foster carer.

Where applicable, we will complete a Personal Education Plan (PEP) for any children aged two to five in partnership with the social worker and/or care manager and carers. We will also attend all appropriate meetings and contribute to reviews.

The key person and designated 'looked after children' person will work together to ensure any onward transition to school or another nursery is handled sensitively to ensure that this is as smooth as possible and all necessary information is shared. The child's individual file, including observations, photographs and pieces of artwork and mark making will be passed on to the carer at this stage.

Private fostering

Private fostering is an arrangement made between the parent and the private foster carer, who then becomes responsible for caring for the child in such a way as to safeguard and promote their welfare.

A privately fostered child is a child under the age of 16 (18 if a disabled child) who is cared for and provided with accommodation etc. for more than 28 days and where the care is intended to continue by someone other than:

- The parents
- A person who is not a parent but has parental responsibility
- A close relative
- The local authority.

It is a statutory duty for us to inform the local authority where we are made aware of a child who may be subject to private fostering arrangements. We will do this by contacting the local authority children's social care team.

Christchurch Kindergarten Children's Nursery Limited

Low-Level Concerns Policy

Introduction

At **Christchurch Kindergarten Children's Nursery Limited** we are committed to safeguarding children and promoting their welfare at all times.

This policy applies to all concerns (including allegations) about members of staff, including students, volunteers and agency staff. We ensure that all those working with children behave appropriately and the early identification and prompt and appropriate management of concerns about adults is critical to effective safeguarding. This section is based on concerns that do not meet the harm threshold, as defined in Keeping Children Safe in Education.

We recognise the importance of responding to and dealing with any concerns in a timely manner to safeguard the welfare of children.

Concerns may arise through, for example:

- Suspicion
- Complaint
- Disclosure made by a child, parent or other adult within or outside the nursery
- Pre-employment vetting checks.

This policy should be read in conjunction with the following policies: Safeguarding children and child protection policy, Staff code of conduct, Online safety policy, Whistleblowing policy, Attendance policy.

Definition of 'low-level' concerns

The term 'low-level' concern is any concern – no matter how small – that an adult working in, or on behalf of, the nursery may have acted in a way that:

- Is inconsistent with the staff code of conduct, including inappropriate conduct outside of nursery
- Does not meet the harm threshold or is otherwise not considered serious enough to consider a referral to the local authority designated officer (LADO).

The behaviour of the staff, student or volunteer may not relate directly to a particular child or children but may raise an issue or issues of concern with respect to safeguarding a child/children. This may potentially call into question the adult's suitability to work with children.

Examples of such behaviour could include, but are not limited to:

- Being overly friendly with children
- Having favourites
- Taking photographs of children on their mobile phone
- Engaging with a child on a one-to-one basis in a secluded area or behind a closed door
- Using inappropriate sexualised, intimidating or offensive language
- Inadvertent or thoughtless behaviour
- Behaviour that might be considered inappropriate depending on the circumstances
- Behaviour which is intended to enable abuse.

Reasons to identify and respond to low-level concerns

We respond to all potential concerns about an adult's behaviour, including those which are considered low-level, in order to help create a culture where the safety of children is always prioritised.

We believe that responding to low-level concerns gives a clear message that any form of inappropriate behaviour will not be tolerated. Staff are made aware that a concern can still be significant even if it does not meet the threshold of harm, recognising that, if left unaddressed, low-level concerns can escalate into more significant rule-breaking or even abuse.

In addition, through monitoring low-level concerns raised, we may identify training needs or improved staff induction.

Sharing low-level concerns

We recognise the importance of creating a culture of openness, trust and transparency to encourage all staff to share low-level concerns so that they can be addressed appropriately. This ensures that adults consistently model our values and helps keep children safer.

We create this culture by:

- Ensuring all staff are clear about what appropriate behaviour is, and are confident in differentiating expected and appropriate behaviour from concerning, challenging or inappropriate behaviour, in themselves and other adults
- Ensuring adults understand what a low-level concern is and the importance of sharing low-level concerns
- Having clear policies and procedures so staff are confident to report any concerns
- Empowering staff to share any low-level concerns
- Empowering staff to self-refer
- Addressing unprofessional behaviour and supporting the individual to correct it at an early stage
- Providing a responsive, sensitive and proportionate handling of such concerns when they are raised

- Helping to reflect on and identify any weakness in the nursery safeguarding procedure
- Having clear procedures for recording, reviewing and responding to concerns.

A low-level concern about a member of staff should be reported to the Designated Safeguarding Lead (DSL) and the manager following the nursery Safeguarding children and child protection procedures. Staff should use the nursery Low-Level Concerns Reporting Form (below).

Responding to low-level concerns

Responding appropriately and following clear, consistent procedures will help protect our staff from potential false allegations or misunderstandings.

- If the concern is raised via a third party, the DSL/manager will collect evidence where necessary by speaking directly to the staff who raised the concern, unless it has been raised anonymously, regardless of whether a written summary or low-level concerns form has been provided
- If the staff member who raises the concern does not wish to be named, then the nursery should respect that person's wishes as far as possible. However, there may be circumstances in which the staff member who raises the concern needs to be named (for example, to carry out a fair disciplinary process) and, for this reason, anonymity should never be promised to members of staff who share low-level concerns. Where possible, we will encourage staff to consent to be named, as this will help to create a culture of openness and transparency
- The DSL/manager will speak to any potential witnesses, unless advised not to do so by the LADO/other relevant external agencies, where they have been contacted
- The DSL/manager will speak to the staff member about whom the low-level concern has been raised, unless advised not to do so by the LADO/other relevant external agencies, where they have been contacted
- The DSL/manager will use the information collected to categorise the type of behaviour and determine any further action, in line with our staff Code of conduct
- Allegations that meet the harm threshold will be referred to the LADO for advice
- Low-level concerns that the nursery feel may need further guidance on will be referred to the LADO for advice
- Low-level concerns that the nursery feel we can deal with internally will be dealt with via the nursery Safeguarding children and child protection procedures and/or Disciplinary procedures
- Where a low-level concern relates to agency staff, we will notify the agency, so any potential patterns of inappropriate behaviour can be identified.

Record keeping

All low-level concerns will be recorded in writing. In addition to details of the concern raised, records will include the context in which the concern was raised, any actions taken, and the reasons for the decisions and actions.

Records will be:

- Reviewed so that potential patterns of concerning, difficult or inappropriate behaviour can be identified
- Retained at least until the volunteer, student or staff member leaves employment at the nursery
- Kept confidential, held securely and comply with the Data Protection Act 2018 (DPA 2018) and UK GDPR procedure.

Reviewing low-level concerns

When reviewing records of low-level concerns, patterns of concerning, challenging or inappropriate behaviour may be identified. When this occurs, the DSL/manager will decide on a course of action, which may include:

- Disciplinary investigation and/or proceedings
- Management advice, including recommendations for training
- Referral to the LADO (where a pattern of behaviour moves from a concern to meeting the harm threshold).

Pre-employment references

We will not include low-level concerns in references unless:

- The concern (or group of concerns) has met the threshold for referral to the designated officer at the local authority(LADO) and is found to be substantiated and/or
- The concern (or group of concerns) relates to issues which would be included in a reference, such as misconduct or poor performance.

Christchurch Kindergarten Children's Nursery Limited

Managing Extreme Weather Policy

At **Christchurch Kindergarten Children's Nursery Limited** we have an extreme weather policy in place to ensure our nursery is prepared for all weather conditions that might affect the running of the nursery such as floods, snow and heat waves.

If any of these impact on the ability of the nursery to open or operate, we will contact parents via *phone/*email/*text message.

We will not take children outdoors where we judge that weather conditions make it unsafe to do so.

Flood

In the event of a flood, we will follow our Critical Incident policy to ensure all children and staff are safe and to plan for continuity of care.

Snow or other severe weather

If high snowfall or another severe weather condition, such as dense fog, is forecast for a nursery day, the manager will decide whether to close the nursery. This decision will consider the safety of the children, their parents and the staff team. In the event of a planned closure during the nursery day, we will contact all parents to arrange for the collection of their child.

In the event of staff shortages due to snow or other severe weather, we will contact all available off-duty staff and/or agency staff and group the children differently until they are able to arrive. If we are unable to maintain statutory ratio requirements after all options have been explored, we will contact Ofsted to inform them of this issue and record all details in our incident file. If we feel the safety, health, or welfare of the children is compromised, we will decide to close the nursery.

Heat wave

We are committed to ensuring that all children are fully protected from the dangers of too much sun and UV rays, as severe sunburn in childhood can lead to the development of malignant melanoma (the most dangerous type of skin cancer) in later life.

Staff will make day-to-day decisions about the length of time spent outside, depending on the strength of the sun, and find the right balance to protect children from sunburn by following the NHS guidance. The benefits are discussed with parents, and their wishes are followed regarding clothing, hats, and sun cream.

We follow guidance from the weather and UV level reports and use the following procedures to keep children safe and healthy in the sun:

- Children must have a clearly labelled sun hat which will be worn at all times whilst outside in sunny weather. This hat will preferably be of legionnaires design to provide additional protection i.e. with an extended back and side to shield children's neck and ears from the sun
- Children must have their own labelled high-factor sun cream with prior written consent for staff to apply. This enables children to use sun cream suited to their individual needs. Staff must be aware of the expiry date and discard sunscreen after this date. Sun cream containing nut-based ingredients will not be allowed in the setting
- Parents are requested to supply light-weight cotton clothing for their children, suitable for the sun, with long sleeves and long legs
- Children's safety and welfare in hot weather is the nursery's prime objective so staff will work closely with parents to ensure all appropriate cream and clothing is provided
- Staff will make day-to-day decisions about the length of time spent outside depending on the strength of the sun (UV levels); children will not be allowed in direct sunlight between 11.00 am and 3.00 pm on hot days from March to October, following NHS sun safety advice
- Shaded areas are provided to ensure children can go out in hot weather, cool down or escape the sun should they wish to or need to
- Children will always have sun cream applied before going outside in the hot weather and at frequent intervals during the day
- Children are encouraged to drink cooled water more frequently throughout sunny or warm days, and this will be accessible both indoors and out
- Children are made aware of the need for sun hats, sun cream and the need to drink more fluids during their time in the sun
- Key persons also work with the parents of their key children to decide and agree on suitable precautions to protect children from sunburn, taking into account individual skin types and tolerance to sun exposure. This includes children with sensitive skin and those with darker skin tones, who may still be at risk of sun damage.

Vitamin D

Sunlight is important for the body to receive vitamin D. We need vitamin D to help the body absorb calcium and phosphate from our diet. These minerals are important for healthy bones, teeth and muscles. The main source of vitamin D is summer sunlight on our skin, while keeping your child's skin safe in the sun.

We also promote the NHS recommendation to parents that all young children should still have vitamin drops, even if they get out in the sun.

Christchurch Kindergarten Children's Nursery Limited

Manual Handling Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we recognise that staff may need to carry out manual handling, particularly when lifting babies and young children. Staff must all be aware of and adhere to the nursery's Manual handling policy to prevent or minimise injuries resulting from poor manual handling. We instruct all staff on correct handling techniques and expect them to follow them to minimise the risk of injury.

We know that lifting and carrying babies and young children is different from carrying static loads; therefore, our manual handling training reflects this. All staff will receive training in manual handling within their first year of employment and will receive ongoing training as appropriate.

Preventing injuries

As with other health and safety issues, we recognise that the most effective method of prevention is to eliminate or reduce the need for hazardous manual handling. Wherever possible, we review the circumstances under which staff must carry out manual handling and redesign the workplace so that items do not need to be moved from one area to another.

Where manual handling tasks cannot be avoided, for example, lifting children when changing nappies, we carry out a risk assessment by examining the tasks and deciding what the risks associated with them are, and how these can be removed or reduced by adding control measures.

Our manual handling assessment considers the following:

- The tasks to be carried out
- The load to be moved (including moving children)
- The environment in which handling takes place
- The capability of the individual involved in the manual handling.

We expect staff to follow the guidance below when carrying out manual handling to reduce the risk of injury.

Planning and procedure

- Think about the task to be performed and plan the lift
- Consider what you will be lifting, where you will put it, how far you are going to move it and how you are going to get there
- Never attempt manual handling unless you have read the correct techniques and understood how to use them

- Ensure that you can undertake the task – people with health problems and pregnant women may be at particular risk of injury. Complete risk assessments as required
- Assess the size, weight and centre of gravity of the load to make sure that you can maintain a firm grip and see where you are going
- Assess whether you can lift the load safely without help. If not, get help or use specialist moving equipment, e.g. a trolley. Bear in mind that it may be too dangerous to attempt to lift some loads
- If more than one person is involved, plan the lift first and agree who will lead and give instructions
- Plan your route and remove any obstructions. Check for any hazards such as uneven or slippery flooring
- Ensure lighting is adequate
- Control harmful loads – for instance, by covering sharp edges or by insulating hot containers
- Check whether you need any Personal Protective Equipment (PPE) and obtain the necessary items, if appropriate. Check the equipment before use and check that it fits you
- Ensure that you are wearing the correct clothing, avoiding tight clothing and unsuitable footwear
- Consider a resting point before moving a heavy load or carrying something any distance.

Carrying children

- If the child is old enough, ask them to move to a position that is easy to pick up, and ask them to hold onto you as this will support you and the child when lifting
- Do not place the baby or child on your hip. Carry them directly in front of you in order to balance their weight equally
- Wherever possible, avoid carrying the baby or child a long distance
- Where a baby is young and is unable to hold onto you, ensure you support them fully within your arms
- Avoid carrying anything else when carrying a baby or child - make two journeys or ask a colleague to assist you and only carry one child at a time
- If a baby or child is struggling or fidgeting whilst you are carrying them, stop, place them back down and use reassuring words to calm them before continuing
- Students and pregnant staff members will not carry babies or children.

Position for lifting

Stand in front of the load with your feet apart and your leading leg forward. Your weight should be even over both feet. Position yourself, or turn the load around, so that the heaviest part is next to you. If the load is too far away, move toward it or bring it nearer before starting the lift. Do not twist your body to pick it up.

Lifting

Always lift using the correct posture:

- Bend the knees slowly, keeping the back straight
- Tuck the chin in on the way down
- Lean slightly forward if necessary and get a good grip
- Keep the shoulders level, without twisting or turning from the hips
- Try to grip with the hands around the base of the load
- Bring the load to waist height, keeping the lift as smooth as possible.

Moving a child or load

- Move the feet, keeping the child or load close to the body
- Proceed carefully, making sure that you can see where you are going
- Lower the child or load, reversing the procedure for lifting
- Avoid crushing fingers or toes as you put the child or load down
- If you are carrying a load, position and secure it after putting it down
- Make sure that the child or load is rested on a stable base and in the case of the child ensure their safety in this new position
- Report any problems immediately, for example, strains and sprains. Where there are changes, for example to the activity or the load, the task must be reassessed.

The task

- Carry children or loads close to the body, lifting and carrying the load at arm's length increases the risk of injury
- Avoid awkward movements such as stooping, reaching or twisting
- Ensure that the task is well designed and that procedures are followed
- Try never to lift loads from the floor or to above shoulder height. Limit the distances for carrying
- Minimise repetitive actions by re-designing and rotating tasks
- Ensure that there are adequate rest periods and breaks between tasks
- Plan ahead – use teamwork where the load is too heavy for one person.

The environment

- Ensure that the surroundings are safe. Flooring should be even and not slippery, lighting should be adequate, and the temperature and humidity should be suitable
- Remove obstructions and ensure that the correct equipment is available.

The individual

- Never attempt manual handling unless you have been trained and given permission to do so
- Ensure that you are capable of undertaking the task – people with health problems and pregnant women may be particularly at risk of injury.
- Where applicable and appropriate, encourage children to use steps up to a changing table for nappy changes rather than lifting. Where this is not appropriate always follow the lifting process
- Use cots with a drop down side and avoid bending to lift babies from their cot.

Christchurch Kindergarten Children's Nursery Limited

Medication Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we promote the health of children attending the nursery and take the necessary steps to prevent the spread of infection (see Sickness and Illness and Infection control policies). If a child requires medication, we will obtain information about the child's needs and ensure it is kept up to date.

We follow strict guidelines when dealing with medication of any kind in the nursery and these are set out below.

Medication prescribed by a doctor, dentist, nurse or pharmacist

(Medicines containing aspirin will only be given if prescribed by a doctor)

- Prescription medicine will only be given when prescribed by the above and for the person named on the bottle for the dosage stated
- Medicines must be in their original containers with their instructions printed in English
- Those with parental responsibility for any child requiring prescription medication should hand over the medication to the most appropriate member of staff who will then note the details of the administration on the appropriate form and another member of staff will check these details
- Those with parental responsibility must give prior written permission for the administration of each and every medication. However, we will accept written permission once for a whole course of medication or for the ongoing use of a particular medication under the following circumstances:
 - a. The written permission is only acceptable for that brand name of medication and cannot be used for similar types of medication, e.g. if the course of antibiotics changes, a new form will need to be completed
 - b. The dosage on the written permission is the only dosage that will be administered. We will not give a different dose unless a new form is completed
 - c. Parents must notify us **IMMEDIATELY** if the child's circumstances change, e.g. a dose has been given at home, or a change in strength or dose needs to be given
- The nursery will not administer a dosage that exceeds the recommended dose on the instructions unless accompanied by written instructions from a relevant health professional such as a letter from a doctor or dentist
- The parent must be asked when the child has last been given the medication before coming to nursery and the staff member must record this information on the

medication form. Similarly, when the child is picked up, the parent must be given precise details of the times and dosage given throughout the day. The parent's signature must be obtained at both times

- At the time of administering the medicine, a senior member of staff will ask the child to take the medicine, or offer it in a manner acceptable to the child at the prescribed time and in the prescribed form (it is important to note that staff working with children are not legally obliged to administer medication)
- If the child refuses to take the appropriate medication, then a note will be made on the form
- Where medication is 'essential' or may have side effects, discussion with the parent will take place to establish the appropriate response.

Non-prescription medication (*these will not usually be administered*)

- The nursery will not administer any non-prescription medication containing aspirin
- The nursery will only administer non-prescription medication for a short initial period, dependant on the medication or the condition of the child. After this time medical attention should be sought
- If the nursery feels the child would benefit from medical attention rather than non-prescription medication, we reserve the right to refuse nursery care until the child is seen by a medical practitioner
- If a child needs liquid paracetamol or similar medication during their time at nursery, such medication will be treated as prescription medication, with the *onus being on the parent to provide the medicine/*nursery providing one specific type of medication, should parents wish to use this.
- On the registration, parents will be asked to give consent to their child being given a specific type of liquid paracetamol or antihistamine in particular circumstances, such as an increase in the child's temperature over 38.5 or a wasp or bee sting. This consent will state the dose to be given, the circumstances in which this can be given, e.g. the temperature increase of their child, the specific brand name or type of non-prescription medication, and a signed statement to say that this may be administered in an emergency if the nursery CANNOT contact the parent or the parents gives verbal consent.
- ***An emergency nursery supply of fever relief (e.g. Calpol) and antihistamines (e.g. Piriton) will be stored on site.*** This will be checked at regular intervals by the designated trained first aider to make sure that it complies with any instructions for storage and is still in date
- If a child does exhibit the symptoms for which consent has been given to give non-prescription medication during the day, the nursery will make every attempt to contact the child's parents. Where parents cannot be contacted, then the nursery manager will make the decision as to whether the child is safe to have this medication based on the time the child has been in the nursery, the circumstances surrounding the need for this medication and the medical history of the child on their registration form

- Giving non-prescription medication will be a last resort, and the nursery staff will use other methods first to try to alleviate the symptoms (where appropriate). The child will be closely monitored until the parents collect the child
- For any non-prescription cream for skin conditions, e.g. Sudocream, prior written permission must be obtained from the parent and the onus is on the parent to provide the cream, which should be clearly labelled with the child's name
- If any child is brought to the nursery in a condition in which he/she may require medication sometime during the day, the manager will decide if the child is fit to be left at the nursery. If the child is staying, the parent must be asked if any kind of medication has already been given, at what time and in what dosage and this must be stated on the medication form
- As with any kind of medication, staff will ensure that the parent is informed of any non-prescription medicines given to the child whilst at the nursery, together with the times and dosage given
- The nursery DOES NOT administer any medication unless prior written consent is given for each and every medicine.

Injections, pessaries, suppositories

- As the administration of injections, pessaries and suppositories represents intrusive nursing, we will not administer these without appropriate medical training for every member of staff caring for the child. This training is specific for every child and not generic. The nursery will do all it can to make any reasonable adjustments including working with parents and other professionals to arrange for appropriate health officials to train staff in administering the medication. For children with long term medical requirements, an Individual Health Care Plan from the relevant health team will be in place to ensure that appropriate arrangements are in place to meet the child's needs.

Staff medication

All nursery staff have a responsibility to work with children only where they are fit to do so. Staff must not work with children where they are infectious or feel unwell and cannot meet children's needs. This includes circumstances where any medication taken affects their ability to care for children, for example, where it makes a person drowsy.

If any staff member believes that their condition, including any condition caused by taking medication, is affecting their ability to care for children they must inform their line manager and seek medical advice. *The nursery manager/*person's line manager/*registered provider will decide if a staff member is fit to work, including circumstances where other staff members notice changes in behaviour suggesting a person may be under the influence of medication. This decision will include any medical advice obtained by the individual or from an occupational health assessment.

Where staff may occasionally or regularly need medication, any such medication must be kept in the person's locker or a separate locked container in the staff room or nursery room where staff may need easy access to the medication such as an asthma inhaler. In all cases it

must be stored securely out of reach of the children, at all times. It must not be kept in the first aid box and must be labelled with the name of the member of staff.

Storage

All medication for children must have the child's name clearly written on the original container and kept in a closed box, which is out of reach of all children.

Emergency medication, such as inhalers and EpiPens, will be within easy reach of staff in case of an immediate need, but will remain out of children's reach. Any antibiotics requiring refrigeration must be kept in a fridge inaccessible to children. This must be in a designated place with the child's name clearly written in the original container.

All medications must be in their original containers, labels must be legible and not tampered with, or they will not be given. All prescription medications should include the pharmacist's details and notes, including the dosage required and the date the prescription was issued. This will all be checked, along with expiry dates, before staff agree to administer medication.

Medication stored in the setting will be regularly checked with parents to ensure it remains required, and that the details on the medication form remain current.

Christchurch Kindergarten Children's Nursery Limited

Menopause Policy

Introduction

Menopause is the time during an individual's life when menstrual periods permanently stop and an individual experiences hormonal changes. It is defined as occurring when an individual has had no periods for 12 consecutive months, and no other biological or psychological cause can be identified. However, menopausal symptoms can begin months or years before periods stop, and this stage is known as the perimenopause. According to the NHS website⁶ Symptoms typically last about four years after an individual's last period, although some may experience them for much longer.

The purpose of this policy is to outline how the nursery will support our staff who may be experiencing menopause-related issues. We aim to foster a culture that encourages open discussion of menopause-related matters and creates a supportive work environment.

Aims

The aims of this policy are to:

- Foster an environment in which colleagues can openly and comfortably instigate conversations or engage in discussions about menopause
- Ensure everyone understands what menopause is, can confidently approach the subject and is clear on our policy and practices
- Educate and inform staff about the potential symptoms of menopause and how they can support individuals experiencing these symptoms at work
- Ensure that those who are experiencing menopause symptoms feel confident to discuss them and ask for any support and reasonable adjustments so they can continue to be successful in their roles
- Assure individuals that as a responsible employer, we are committed to supporting their needs during menopause.

Employee responsibilities

All employees should contribute to a respectful working environment and be willing to support colleagues who may be experiencing the menopause. It is important that employees talk openly with their line manager if they need support with menopausal symptoms. All employees are responsible for:

- Taking personal responsibility to look after their health
- Being open and honest in conversations with managers
- Contributing to a respectful and productive working environment
- Being willing to help and support their colleagues

⁶ <https://www.nhs.uk/conditions/menopause/>

- Understanding any necessary adjustments their colleagues are receiving as a result of their menopausal symptoms.

During any discussions, your manager will consider your individual situation and evaluate if any adjustments can be made. Your individual needs will be addressed sensitively and confidentiality will be maintained.

Employer responsibilities

Managers are responsible for:

- Ensuring that no one experiences less favourable treatment as a result of the menopause
- Ensuring that any conversations are kept strictly confidential
- Putting in place any required support and/or adjustments where reasonably possible
- Recording any agreements made
- Holding regular reviews with employees regarding support required, including follow-up meetings to review adjustments that have been made
- Seeking additional advice from occupational health where necessary
- Agreeing with the employee on whether other colleagues should be informed about any adjustments that have been agreed upon (even if the reason is not disclosed).

When responding to an employee experiencing difficulties related to menopause, managers will maintain an open-door policy to ensure employees feel comfortable approaching them. They will support staff in talking openly about their current situation and will not make assumptions about how it is affecting them.

We understand that employees may feel uncomfortable discussing personal information with their manager. If this is the case, they are encouraged to discuss their situation with another senior member of staff.

Workplace adjustments

As with any longstanding health-related condition, the nursery must provide employees with the support they need. Above all, it is important to listen to individuals and respond sympathetically to any requests for workplace adjustments.

There are numerous symptoms of the menopause that can affect an individual both physically and mentally. The menopause affects individuals in different ways and symptoms can start during the perimenopause and last for many years.

Some of the more common symptoms include:

- Hot flushes
- Difficulty sleeping
- Fatigue
- Headaches
- Low mood or anxiety
- Problems with memory or concentration
- Anxiety
- Heavy and/or painful periods

- Panic attacks.

Employees and managers may find external sources of help and support useful including the following:

The company hand book

Information about the menopause, menopausal symptoms and treatment options
(<https://www.menopausematters.co.uk/>)

Support for women experiencing premature menopause or premature ovarian insufficiency
(<https://www.daisynetwork.org/>)

Information about events where strangers gather to eat cake, drink tea and discuss the menopause (<https://www.menopausecafe.net/>)

Christchurch Kindergarten Children's Nursery Limited

Missing Child from Nursery Procedure

At **Christchurch Kindergarten Children's Nursery Limited**, we take all reasonable steps to ensure the safety of children on the premises. We only release children into the care of individuals who have been notified to us by the parent and have safety systems in place to ensure that children do not leave the premises unsupervised.

In the unlikely event of a child going missing within or from the nursery, we have the following procedure, which will be implemented immediately:

- All staff will be aware of the procedure when a child goes missing and supply information to support the search, e.g. a recent photograph and a detailed description of clothing
- The nursery manager will be informed immediately, and all staff present will be informed. Some staff will be deployed to start an immediate, thorough search of the nursery, followed by a search of the surrounding area, whilst ensuring that some staff remain with the other children so they remain supervised, calm and supported throughout
- The manager will call the police as soon as they believe the child is missing and follow police guidance. The parents of the missing child will also be contacted
- A second search of the area will be carried out
- During this period, available staff will be continually searching for the missing child, whilst other staff maintain as near to normal routine as possible for the rest of the children in the nursery
- The manager will meet the police and parents
- The manager will then await instructions from the police
- In the unlikely event that the child is not found, the nursery will follow the local authority and police procedure
- Any incidents must be recorded in writing as soon as practicably possible, including the outcome, who was lost, time identified, notification to police and findings
- Ofsted will be contacted and informed of the incident
- With incidents of this nature, parents, children and staff may require support and reassurance following the traumatic experience. Management will provide this or seek further support where necessary
- In any case with media attention, staff will not speak to any media representatives
- Post-incident risk assessments will be conducted following any incident of this nature to enable the chance of this reoccurring being reduced.

Christchurch Kindergarten Children's Nursery Limited

Missing Child from Outings Procedure

At **Christchurch Kindergarten Children's Nursery Limited**, we take all reasonable steps to ensure children are kept safe while on outings. We assess the risks or hazards that may arise for children and identify steps to remove, minimise and manage those risks and hazards. This includes the consideration of adult-to-child ratios and carrying out regular headcounts of children throughout any outing or visit.

In the unlikely event of a child going missing whilst on an outing we have the following procedure which we implement immediately:

- All staff are aware of the procedure when a child goes missing and supply information to support the search, e.g. a recent photograph and a detailed description of clothing
- The designated person in charge or most senior member of staff is informed immediately and all staff present will be informed. Some staff will be deployed to start an immediate thorough search of the area, ensuring that all other children remain supervised, calm and supported throughout
- If appropriate, on-site security will also be informed and a description given
- The designated person in charge or most senior member of staff will immediately inform the police
- The designated person in charge or most senior member of staff will then inform the nursery who will contact the child's parents giving details of what has happened. If the whole nursery is on an outing, all contact details will be taken on the trip by the person in charge
- During this period, some staff will be continually searching for the missing child, whilst other staff maintain the safety and welfare of the remaining children
- It will be the designated person in charge or most senior member of staff responsibility to ensure that there are adequate staff to care for the children and get them back safely, a member of staff to meet the police and someone to continue the search (this may mean contacting relief staff)
- Any incidents must be recorded in writing as soon as practicably possible including the outcome, who was lost, time identified, notification to police and findings
- In the unlikely event that the child is not found, the nursery will follow the local authority and police procedure
- Ofsted will be contacted and informed of any incidents
- With incidents of this nature parents, children and staff may require support and reassurance following the traumatic experience. Management will provide this or seek further support where necessary

- In any cases with media attention, staff will not speak to any media representatives
- Post-incident risk assessments will be conducted following any incident of this nature to enable the chance of this reoccurring being reduced.

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Mobile Phone and Electronic Device Use Policy

Mobile phones and other electronic devices with imaging and sharing capabilities

At **Christchurch Kindergarten Children's Nursery Limited** we promote the safety and welfare of all children in our care. We believe our staff should remain fully attentive during their working hours to ensure that all children in the nursery receive high-quality care and education.

To ensure the safety and well-being of children, we do not allow staff to use personal mobile phones or other personal devices with imaging and sharing capabilities during working hours.

This policy should be used in conjunction with our Online safety policy and Acceptable internet use policy, to ensure children are kept safe when using the nursery devices online.

Staff must adhere to the following:

- Mobile phones, or other personal devices with imaging and sharing capabilities, are not accessed during working hours
- Mobile phones, or other personal devices with imaging and sharing capabilities, can only be used on a designated break, and then this must be away from the children
- Mobile phones, or other personal devices with imaging and sharing capabilities, must be stored safely in lockers if outside of the children's room or safe deposit boxes.
- No personal device is allowed to be connected to the nursery Wi-Fi at any time
- The use of nursery devices, such as tablets, must only be used for nursery purposes
- The nursery devices will have messaging apps (WhatsApp) on them, as this is the main way of communicating with the parents.
- Any apps downloaded onto nursery devices must be done only by management. This will ensure only age and content-appropriate apps are accessible to staff or children using them
- ***Passwords and/or passcodes for nursery devices must not be shared or written down and will be changed regularly.***
- Only during outings, the leading staff is allowed to use their personal phone for any emergency. On outings they may take pictures/ videos of the activity and shared with the nursery phone and after delete immediately. Manager to check next day deletion.

Parent use of mobile phones and smartwatches

Parents are kindly asked to refrain from using their mobile telephones or other personal devices with imaging and sharing capabilities whilst in the nursery or when collecting or dropping off their children. We will ask any parents using their phone/device inside the nursery premises to finish the call or take the call outside. We do this to ensure all children are safeguarded and the time for dropping off and picking up is a quality handover opportunity where we can share details about your child

Parents are requested not to allow their child to wear or bring in devices with imaging and sharing capabilities. This ensures all children are safeguarded and also protects their property as it may get damaged or misplaced at the nursery.

Visitors' use of mobile phones or other personal devices with imaging and sharing capabilities

Visitors are not permitted to use their mobile phones or other personal devices with imaging and sharing capabilities, e.g. smart glasses, whilst at nursery and are asked to leave them in a safe secure place, such as the nursery office, for the duration of their visit.

Photographs and videos

We recognise that photographs and video recordings play a part in the life of the nursery. We ensure that any photographs or recordings taken of children in our nursery are taken only with prior written permission from each child's parent, and that photos are shared with parents in a secure manner. We will obtain this permission when each child is registered.

We ask for individual permissions for photographs and video recordings for a range of purposes, including use in the child's learning journey, for display, for promotional materials, including our nursery website, brochure, the local press, and the different social media platforms we use. We ensure that parents understand that when their child is also in another child's photograph but not as the primary person, it may be used in that child's learning journey. Photographs and videos will not be taken in areas where intimate care is provided.

If a parent is not satisfied with any of these uses, we will respect their wishes and find alternative ways to record their child's play or learning.

Staff are not permitted to take any photographs or recordings of a child on their own personal devices with imaging and sharing capabilities, e.g., cameras, mobiles, tablets, or smartwatches, and may only use those provided by the nursery. The nursery manager will monitor all photographs and recordings to ensure that the parents' wishes are met and children are safeguarded.

Photographs or videos recorded on nursery mobile devices will be transferred termly to the correct storage device (nursery USB) to ensure no images remain on these devices.

Parents and children are not permitted to use any personal devices with imaging and sharing capabilities on the nursery premises without the prior consent of the manager.

During special events, e.g. Christmas or leaving parties, staff may produce group photographs to distribute to parents on request. In this case we will gain individual permission for each child before the event. This will ensure all photographs taken are in line with parental choice. We ask that photos of events such as Christmas parties are not posted on any social media websites or other platforms areas without permission from the parents of all the children included in the picture.

Applicable for settings using online learning journals only

At the nursery, we use tablets in the rooms to take photos of the children and record these directly onto their electronic learning journeys. We ensure that these devices are used for this purpose only and that no applications such as social media or messaging sites are installed on them.

We carry out routine checks to ensure that emails and text messages (where applicable) are not sent from these devices, and we remind staff of the Whistleblowing policy if they observe staff breaching these safeguarding procedures.

Christchurch Kindergarten Children's Nursery Limited

More Able and Talented Children Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we plan our teaching and learning so that each child can aspire to achieve their full potential.

The purpose of this policy is to help to ensure that we recognise and support the needs of those children in our nursery who have been identified as 'more able' and/or 'talented' and extend their learning to challenge them further.

'More able' refers to a child who has a broad range of achievement at a level well above average, typically in the more academic subjects.

'Talented' refers to a child who excels in one or more specific fields, typically those that call for performance skills, such as sport or music, but who does not necessarily perform at a high level across all areas of learning.

With this in mind, we will ensure all children are fully supported and challenged by:

- Working together with parents to establish starting points on entry to nursery
- Observing, assessing and planning activities in line with the individual child's needs and interests
- Providing challenging next steps to enhance the learning opportunities
- Where applicable, working with the nursery SENCO (see SEND policy), other services and professionals to ensure we can fully support the child's individual needs
- Effective transitions through providing relevant key information to the next provision.

We ensure staff are aware of some early development signs of children that may be more able or talented, including the following indicators.

More able children in language and literacy:

- Are able to read and respond to a range of texts at a more advanced level
- Use a wide vocabulary and variety of words in conversations and play
- Are able to write fluently and with little support.

More able children in mathematics:

- Explore a broader range of strategies for solving a problem
- Establish their own strategies for problem-solving
- Are able to manipulate numbers in a wide range of ways, e.g. adding, subtracting.

The management monitors all outcomes for children by tracking cohorts and individual children across the whole setting. This will include more able and talented children.

Management will ensure that all children are progressing at an appropriate rate from their starting points through challenging and supportive activities and opportunities.

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Multiple Birth Families Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we ensure that all families are included and supported fully, no matter how big or small. The number of multiple births in the UK is increasing, including twins, triplets, and higher-order multiples. As a nursery we accommodate all families and work together with parents to ensure all children are treated as individuals and supported to make the best progress they can.

This policy should be read in conjunction with our Settling in policy and Parents as partners policy. In addition to these, to support the needs of multiple birth families we will:

- Acknowledge multiple birth relationships as special and to be celebrated as well as encouraging children to develop as individuals
- Work with parents to explore each child's individual preferences, interests, needs and starting points including, where applicable, ways for staff to identify them
- Complete individual forms for each child to discover their individual routines, specific requirements, dietary needs etc.
- Recognise and celebrate all individual achievements
- Report back on each child separately at the end of the day to the parents
- Consider separation if this is beneficial for their development. Parents, and where appropriate, the children, will be involved in the decision for when, where and how this may occur (e.g. focused activities, outdoor play)
- Arrange parental consultations for each child. Each child will receive the same time during the consultation as any other child in the setting. Assessments will be shared based on their individual progress and comparisons between the children will not be made, any concerns will be discussed as per SEND policy
- Understand that each child is unique and not expect them to behave in the same manner, excel in the same areas or enjoy the same activities.

Christchurch Kindergarten Children's Nursery Limited

Nappy Changing Policy

At **Christchurch Kindergarten Children's Nursery Limited** we support children's care and welfare daily in line with their individual needs. All children need contact with familiar, consistent carers to help them grow confidently and feel self-assured. Wherever possible, each child's key person will change nappies according to the child's individual needs and requirements.

Our procedure meets best practice identified by the UK Health Security Agency's *Preventing and controlling infections* document⁷.

We enable a two-way exchange between parents and key persons so that information about nappy changing and toilet training is shared in a way that suits the parents and meets the child's needs.

We have appropriately designated facilities for nappy changing which meet the following criteria:

- Facilities are separate to food preparation, serving areas and children's play areas
- Changing mats have a sealed plastic covering and are frequently checked for cracks or tears. If cracks or tears are found, the mat is discarded.
- Clean nappies are stored in a clean, dry place; soiled nappies are placed in **a nappy sack** before being placed in the bin. Bins are regularly emptied and at the end of the day are always emptied into an appropriate waste collection area
- We ask that where any non-prescribed creams are needed, e.g. Sudocrem, these are supplied by the parent and clearly labelled with the child's name. Prior written permission is obtained from the parent. When applying creams for rashes, a gloved hand is used.

Staff changing nappies will:

- Use a new disposable apron and pair of gloves for each nappy change and always wash hands before and after using gloves
- Clean, disinfect and dry mats thoroughly after each nappy change.
- Ensure they have all the equipment they need before each nappy change
- Keep nappy bags, gloves and aprons out of reach of babies and children.

Staff wiping children during toileting when they don't wear a nappy, ensure you have a written permission from parent, on the registration form.

⁷ <https://www.gov.uk/government/publications/health-protection-in-schools-and-other-childcare-facilities/preventing-and-controlling-infections>

We wish to ensure the safety and welfare of the children whilst being changed and safeguard against any potential harm, as well as ensuring the staff member involved is fully supported and able to perform their duties safely and confidently. We aim to support all parties through the following actions:

- Promoting consistent and caring relationships through the key person system and ensuring all parents understand how this works and who is caring for their child
- Using this one-to-one time as a key opportunity to talk to children and help them learn, e.g. through singing and saying rhymes during the change
- Ensuring that the nappy changing area is inviting and stimulating, and changing this area regularly to continue to meet children's interests
- Ensuring all staff undertaking nappy changing have suitable enhanced DBS checks
- Training all staff in the appropriate methods for nappy changing
- Ensuring that no child is ever left unattended during the nappy changing time
- Making sure staff do not change nappies whilst pregnant until a risk assessment has been discussed and conducted
- Ensuring suitably competent and responsible students only change nappies with the support and supervision of a qualified member of staff
- Conducting thorough inductions for all new staff to ensure they are fully aware of all nursery procedures relating to nappy changing
- Ensuring hygiene procedures are followed appropriately, e.g. hands washed before and after nappies are changed and changing mats cleaned before and after each use
- Following up procedures through supervision meetings and appraisals to identify any areas for development or further training
- Working closely with parents on all aspects of the child's care and education as laid out in the Parents as Partners policy. This is essential for any intimate care routines which may require specialist training or support. If a child requires specific support, the nursery will arrange a meeting with the parent to discover all the relevant information relating to this, to enable the staff to care for the child fully and meet their individual needs
- Ensuring all staff have an up-to-date understanding of child protection and how to protect children from harm. This includes identifying signs and symptoms of abuse and how to raise these concerns, as set out in the Safeguarding Children and Child Protection Policy
- Balancing the right for privacy for the children with the need for safeguarding children and adults by making sure intimate care routines do not take place behind closed doors
- Cameras, tablets, mobile phones and any other image-sharing or recording devices are not permitted within the toilet and intimate care areas
- Operating a Whistleblowing policy to help staff raise any concerns relating to their peers or managers, and helping staff develop confidence in raising concerns as they arise, in order to safeguard the children in the nursery

- Conducting working practice observations of all aspects of nursery operations to ensure that procedures are working in practice and all children are supported fully by the staff. This includes all intimate care routines
- Conducting regular risk assessments of all aspects of nursery operations, including intimate care, and reviewing the safeguards in place. The nursery has assessed all risks associated with intimate care routines and implemented appropriate safeguards to ensure the safety of all involved.

When developmentally appropriate, we work closely with parents to sensitively support toilet training in a way that suits the child's individual needs and ensures consistency between home and nursery.

If any parent or member of staff has concerns or questions about nappy-changing procedures or individual routines, please speak with the manager at the earliest opportunity.

Christchurch Kindergarten Children's Nursery Limited

No Smoking/ Vaping Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we are committed to promoting children's health and well-being. This is of the utmost importance for the nursery.

Smoking and the use of e-cigarettes have proved to be a health risk and therefore, in accordance with legislation, the nursery operates a strict no-smoking/vaping policy within its buildings and grounds. It is illegal to smoke/vape in enclosed places.

All persons must abstain from smoking/vaping while on the premises. This applies to staff, students, parents, carers, contractors and any other visitors to the premises.

Staff accompanying children outside the nursery, are not permitted to smoke/vape. We also request that any parents accompanying nursery children on outings refrain from smoking/vaping while caring for the children.

Staff must not smoke/vape while wearing nursery uniform as it is essential that staff are positive role models to children and promote a healthy lifestyle. Where staff choose to smoke/vape during breaks, they are asked to smoke/vape away from the main entrance and nursery premises. They should have a change of clothes and wash their hands before going back to the children. .

We respect that smoking/vaping is a personal choice, although as an organisation we support healthy lifestyles. We follow UK Health Security Agency advice and aim to help staff and parents to stop smoking/vaping by:

- Providing factsheets and leaflets
- Providing information of local help groups
- Providing details of the NHS quit smoking helpline
<https://www.nhs.uk/better-health/quit-smoking/>
- Offering information regarding products that are available to help stop smoking.

Christchurch Kindergarten Children's Nursery Limited

Nutrition and Mealtimes Policy

At **Christchurch Kindergarten Children's Nursery Limited** we believe that mealtimes should be happy, social occasions for children and staff alike. We promote shared, enjoyable positive interactions at these times.

We are committed to offering children healthy, nutritious and balanced meals and snacks, which meet individual needs and requirements, following the Department for Education nutrition guidance⁸.

This policy should be read in conjunction with the Allergies and allergic reactions policy.

Our approach to food and healthy eating

- A balanced and healthy breakfast, midday meal, tea and two daily snacks are provided for children attending a full day at the nursery
- Settings where meals are provided, menus are planned and in line with the example menu and guidance produced by the Department for Education (copies can be provided on request). These are rotated regularly, reflect cultural diversity and variation and are displayed for children and parents to view; parents and children are involved in menu planning
- Menus include servings of fresh fruit and vegetables per day
- We provide nutritious food at all snack and mealtimes, avoiding large quantities of fat, sugar, salt and artificial additives, preservatives and colourings
- Quantities offered take account of the ages of the children being catered for, in line with recommended portion sizes for babies and young children.

Sustainability

- To provide cost-effective foods, we purchase staple long-life ingredients in bulk, use frozen or tinned fruit and vegetables if appropriate, prepare home-made sauces using raw ingredients, and use left-over foods where possible
- We plan menus to ensure that fruits and vegetables are seasonal .
- We grow and use our own herbs.

Mealtime environment

- No child is ever left alone when eating or drinking to minimise the risk of choking, and a qualified paediatric first aider is always present during meal and snack times
- Staff can choose to eat with the children, and demonstrate good table manners. Meal and snack times are organised so that they are social occasions in which

⁸ https://bit.ly/EYFS_nutrition_guidance

children and staff participate in small groups. During meal and snack times children are encouraged to use appropriate table manners and staff promote conversation to support social development

- Staff use meal and snack times to help children to develop independence through making choices, serving food and drinks, and feeding themselves
- Any child who shows signs of distress at being faced with a meal they do not like will have their food taken out without any fuss.
- Children not on special diets are encouraged to eat a small piece of everything
- Children who refuse to eat at the mealtime are offered food later in the day
- Children are given time to eat at their own pace and are not rushed.

Drinks

- Only milk and water are provided as drinks to promote oral health
- Fresh drinking water is always available and accessible. It is frequently offered to children and babies, and intake is monitored
- In hot weather staff will encourage children to drink more water to keep them hydrated.

Baby feeding and weaning

- We follow babies' individual feeding patterns following conversations with parents. We regularly review these to ensure they continue to meet the baby's needs
- We feed babies responsively according to their needs and support mothers with breastfeeding, through providing suitable places to breastfeed in the setting and making provision for expressed breastmilk
- We prepare infant formula milk if required, following NHS guidelines
- Weaning is introduced in collaboration with parents, including discussions about the stage their baby is at, the types of foods and textures their baby is eating at home and how these are presented to the baby; no assumptions are made based on the age of the baby

Management of food allergies and dietary needs

- All allergens are displayed alongside the menus to show the ingredients of each meal
- Individual dietary requirements are respected. Before a child joins the nursery, we gather information from parents regarding their children's dietary needs, including any special dietary requirements, preferences and food allergies that a child has, and any special health requirements. All information is shared with staff involved in preparing and handling food
- Where appropriate, we will carry out a risk assessment in the case of allergies and work alongside parents to put into place an individual dietary/allergy plan for their child. This will be regularly reviewed and any changes shared with all staff
- We give careful consideration to seating to avoid cross contamination of food from child to child. Where appropriate, an adult will sit with children during meals to ensure safety and minimise risks

- At each meal and snack time, we ensure a nominated practitioner is responsible for checking that the food being provided meets all the requirements for each child
- Where appropriate, discussions will also take place with children about allergies and potential risks to make them aware of the dangers of sharing certain foods
- Staff show sensitivity in providing for children's diets and allergies. They do not use a child's diet or allergy as a label for the child, or make a child feel singled out because of their diet or allergy.

Provision for cultural and dietary preferences

- Cultural differences in eating habits are respected.

Learning about food and cooking with children

- Staff support children to make healthy choices and understand the need for healthy eating
- We promote positive attitudes to healthy eating through play, growing, shopping and cooking opportunities and discussions.

Celebrations and special occasions

- We will sometimes celebrate special occasions with treats such as cake, sweets or biscuits. These will be given at mealtimes to help prevent tooth decay and not spoil the child's appetite.
- We allow parents to bring in cakes on special occasions
- We ensure that all food brought in from parents meet health and safety requirements and that ingredients are listed, following the Food Information for Consumers (FIR) 2014.

Food safety and hygiene

- All staff who prepare and handle food are competent to do so and receive training in food hygiene which is updated every three years
- All staff are trained in preparing foods safely to avoid the risk of choking, following the Foods Standards Agency guidelines
- All staff are aware of the symptoms and treatments for allergies and anaphylaxis
- All staff are aware of the differences between allergies and intolerances, including that they need to maintain vigilance, as children can develop allergies at any time
- In the very unlikely event of any food poisoning affecting two or more children on the premises, whether this may arise from food offered at the nursery, we will inform Ofsted as soon as reasonably practicable and in all cases within 14 days. We will also inform the relevant health agencies and follow any advice given.
- We follow the guidelines of safer food for better business.

Food brought from home

- We allow children to bring packed lunches into the setting. We provide parents with guidelines for nutritious content and signpost to the NHS packed lunch guidance: <https://www.nhs.uk/healthier-families/recipes/healthier-lunchboxes/>

- We share the Food Standards Agency choking hazards guidance to support parents in preparing foods to reduce choking hazards
- We provide appropriate storage and request parents use ice packs and thermos.
- We provide reheating services for children's packed lunches
- Children's lunch boxes are checked prior to giving the contents to the children to ensure any risks from potential allergens or choking hazards are managed.

Our policy is developed in partnership with parents, staff and children, and is reviewed regularly.

Christchurch Kindergarten Children's Nursery Limited

Online Safety Policy

Our nursery, **Christchurch Kindergarten Children's Nursery Limited**, is aware of the growth of the internet and technology and the advantages this can bring to everyday life. However, it is also aware of the dangers it can pose and we strive to support children, staff and families to use the internet safely.

We refer to ['Safeguarding children and protecting professionals in early years settings: online safety considerations'](#) to support this policy.

The Designated Safeguarding Lead is ultimately responsible for online safety concerns. All concerns need to be raised with DSL as soon as possible.

The use of technology has become a significant component of many safeguarding issues, such as child sexual exploitation, radicalisation and sexual predation, with technology often providing the platform that facilitates harm.

The breadth of issues included within online safety is considerable, but can be categorised into three areas of risk:

1. **Content:** *being exposed to illegal, inappropriate or harmful material; for example, pornography, fake news, racist or radical and extremist views*
2. **Contact:** *being subjected to harmful online interaction with other users; for example commercial advertising as well as adults posing as children or young adults, and*
3. **Conduct:** *personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images, or online bullying.*

Within the nursery, we aim to keep children, staff and parents safe online. Our safety measures include:

- Ensuring we have appropriate antivirus and anti-spyware software on all devices and update them regularly
- Ensuring content blockers and filters are on all our devices, e.g. computers, laptops, tablets and any mobile devices
- Ensuring all devices are password-protected and have screen locks. Practitioners are reminded to use complex, strong passwords, keep them safe and secure, change them regularly and not to write them down
- Monitoring all internet usage across the setting
- Providing secure storage of all nursery devices at the end of each day
- Ensuring no social media or messaging apps are installed on nursery devices
- Reviewing all apps or games downloaded onto devices ensuring they are age and content appropriate
- Using only nursery devices to record and/or photograph children in the setting

- Ensuring that staff do not use personal electronic devices with imaging and sharing capabilities, including mobile phones, smart watches and cameras
- Never email personal or financial information
- Reporting emails with inappropriate content to the Internet Watch Foundation (IWF www.iwf.org.uk)
- Teaching children how to stay safe online and report any concerns they have
- Ensuring children are supervised when using internet connected devices
- Using tracking software to monitor suitability of internet usage (for older children)
- Not permitting staff or visitors private access to the nursery Wi-Fi
- Talking to children about 'stranger danger' and deciding who is a stranger and who is not; comparing people in real life situations to online 'friends'
- When using online video chat, such as Zoom, Teams, Skype, FaceTime etc. (where applicable) discussing with the children what they would do if someone they did not know tried to contact them
- Providing training for staff, at least annually, in online safety and understanding how to keep children safe online. We encourage staff and families to complete a free online safety briefing, which can be found at <https://moodle.ndna.org.uk/>
- Staff modelling safe practice when using technology with children and ensuring all staff abide by an acceptable use policy such as instructing staff to use the nursery IT equipment for matters relating to the children and their education and care only. No personal use will be tolerated (see Acceptable internet use policy)
- Monitoring children's screen time to ensure they remain safe online and have access to material that promotes their development. We ensure that their screen time is within an acceptable level and is integrated within their programme of learning
- Making sure the physical safety of users is considered, including the posture of staff and children when using devices
- Being aware of the need to manage our digital reputation, including the appropriateness of information and content that is posted online, both professionally and personally. This is continually monitored by the setting's management
- Staff must not friend or communicate with parents on personal devices or social media accounts
- Ensuring all electronic communications between staff and parents is professional and takes place via the official nursery communication channels, e.g. the setting's email addresses and telephone numbers. This is to protect staff, children and parents
- Signposting parents to appropriate sources of support regarding online safety at home.

If any concerns arise relating to online safety, then we will follow our Safeguarding Children and Child Protection policy and report all online safety concerns to the DSL.

The DSL will make sure that:

- All staff know how to report a problem and when to escalate a concern, including the process for external referral
- All concerns are logged, assessed and actioned in accordance with the nursery's safeguarding procedures
- Parents are supported to develop their knowledge of online safety issues concerning their children via **meetings**.
- Parents are offered support to help them talk about online safety with their children using appropriate resources
- Parents are signposted to appropriate sources of support regarding online safety at home and are fully supported to understand how to report an online safety concern
- Staff have access to information and guidance for supporting online safety, both personally and professionally.
- Under no circumstances should any member of staff, either at work or in any other place, make, deliberately download, possess, or distribute material they know to be illegal, for example, child sexual abuse material.

Cyber security

Good cyber security means protecting the personal or sensitive information we hold on children and their families in line with the Data Protection Act. We are aware that cyber criminals will target any type of business, including childcare, and ensure all staff are aware of the value of the information we hold in terms of criminal activity, e.g. scam emails. All staff are reminded to follow all the procedures above including backing up sensitive data, using strong passwords and protecting devices to ensure we are cyber secure.

To prevent any attempts of a data breach (which is when information held by a business is stolen or accessed without authorisation) that could cause temporary shutdown of our setting and reputational damage with the families we engage with, we inform staff not to open any suspicious messages such as official-sounding messages about 'resetting passwords', 'receiving compensation', 'scanning devices' or 'missed deliveries'.

Staff are asked to report these to the manager as soon as possible and these will be reported through the National Cyber Security Centre (NCSC) Suspicious email reporting service at report@phishing.gov.uk

Christchurch Kindergarten Children's Nursery Limited

Outdoor Play Policy

At **Christchurch Kindergarten Children's Nursery Limited** we recognise the importance of daily outdoor play and physical development and are committed to ensuring all children have daily access regardless of their age or stage of development. Where possible this includes the children having free access to the outdoors allowing them the freedom to choose whether to play indoors or out. We provide an inclusive outdoor play environment with areas for non-mobile children to freely explore. We make reasonable adjustments where required, in line with the Equality Act 2010. We go out to play with all children in all weathers (unless it is deemed unsafe).

We understand the vital role that learning outdoors has on children's learning and development as well as the importance of regular access to outdoor play in order to keep fit and healthy, develop children's large and fine motor skills, experience learning in a natural environment and access sunlight in order to absorb vitamin D more effectively. We also refer to the Chief Medical Officers guidance on physical activity.⁹

The outdoor areas, both within the nursery grounds and in the local community, have a wealth of experiences and resources, which help children to learn and develop in a variety of ways, including independence, exploration and investigative skills, risk taking and self-esteem, all of which support children to develop skills now and for the future.

We take reasonable steps to ensure the safety of children through risk assessments whilst balancing the benefits to learning through providing an element of 'risky play.' This type of play allows children to explore and find their own boundaries in a safe environment with supportive practitioners. Staff are informed of the importance of safety procedures and are trained appropriately to ensure these procedures are followed effectively.

We ensure outdoor play is adequately supervised and we have robust safety checks in place, including regular head counts.

We obtain parental permission before any child leaves the nursery during the day. This includes short outings into the local community. There is more information in the Visits and outings policy.

We plan all outdoor play opportunities and outings to complement the early years curriculum. This includes providing children with purposeful activities and quality resources that support and follow their individual interests and the seven areas of learning and

⁹ <https://www.gov.uk/government/collections/physical-activity-guidelines>

development. We plan both adult-led and child-initiated opportunities to enable children to learn and practice new skills, knowledge and behaviours. Where possible and in line with the children's needs we will also often have snacks and meals outdoors.

Where activities take place away from the setting (e.g. in the local wood) then a nursery mobile phone and first aid kit will be taken to ensure the safety of children at all times. A trained paediatric first aider will be present when children are away from the main setting.

We use this policy alongside the following policies to ensure the safety and welfare of children throughout their time outside:

- Caring for babies and toddlers
- Health and safety – general policy
- Managing extreme weather
- Missing child from nursery
- Missing child from outings
- Parents as partners
- Supervision of children
- Safeguarding children and child protection
- Visits and outings.

Christchurch Kindergarten Children's Nursery Limited

Overall Approach to Risk Assessment

At **Christchurch Kindergarten Children's Nursery Limited** we take all reasonable steps to ensure staff and children in our care are not exposed to risks. We promote the safety of children, parents, staff and visitors by reviewing and reducing any risks.

Risk assessments

Risk assessments document the hazards or environmental aspects that need to be checked regularly. These include who could be harmed, existing controls, the seriousness of the risk or possible injury, any further action needed to control the risk, who is responsible for what action, when and how often the action will be undertaken, and how this will be monitored, checked and by whom.

The nursery carries out written risk assessments regularly (at least annually). These are reviewed regularly and cover potential risks to children, staff and visitors at the nursery. When circumstances change in the nursery, e.g., a significant piece of equipment is introduced or a new activity or experience is planned, we review our current risk assessment or conduct a new one, depending on the nature of the change.

All staff are trained in the risk assessment process to ensure understanding and compliance of how they manage risks. All outings away from the nursery are individually risk-assessed and adequately staffed with paediatric first aid-trained practitioners. For more details, please refer to the Visits and Outings policy.

Christchurch Kindergarten Children's Nursery Limited

Packed Lunch Policy

Aim of this policy

To ensure that all packed lunches brought from home and consumed in nursery (or on trips) provide your child with healthy and nutritious food for their growth and development while keeping all children safe from known food allergies.

At **Christchurch Kindergarten Children's Nursery Limited** we are committed to children eating healthy, nutritious and balanced meals and snacks which meet individual needs and requirements, following the Department for Education nutrition guidance.¹⁰

This policy supports the health, safety and well-being of all children in our care and reflects the requirements of our insurers.

Parents are asked to provide packed lunches that comply fully with this policy. We reserve the right to remove food items that present an allergen or choking risk. Parents who regularly fail to meet the expected standards will be invited to discuss the issues to find joint solutions to ensure our policy is upheld.

We are required to support you with information to help you provide healthy meals for your child to bring to nursery. To meet our statutory welfare requirements, we avoid foods which are high in saturated fat, salt, and sugar as these are proven to negatively affect children's health, development and overall well-being. We wish for food brought from home to align with the healthy and nutritious meals we provide, so children are receiving consistent messages about healthy eating.

This policy should be read in conjunction with the Nutrition and mealtimes policy, the Allergies and allergic reactions policy and the Caring for babies and toddlers policy (for babies who are not yet weaned).

Our facilities

- *We operate a strict nut free environment
- We provide facilities for children bringing in packed lunches
- We ensure that fresh, plain tap water is always readily available

¹⁰

https://assets.publishing.service.gov.uk/media/6839b752210698b3364e86fc/Early_years_foundation_stage_nutrition_guidance.pdf

- We work with parents to ensure that packed lunches abide by the standards listed below.
- We provide parents with guidelines for nutritious content and signpost to the NHS packed lunch guidance:
NHS Healthier lunchbox recipes - <https://www.nhs.uk/healthier-families/recipes/healthier-lunchboxes/>
Food for Life's packed lunches guidance - <https://bit.ly/4t3Jb9d>
- We provide appropriate storage in allocated fridges/ we request parents use insulated lunch boxes and ice packs
- We do provide reheating services for children's packed lunches if required.

Packed lunch guidelines

All food for the day must be brought on a daily basis to ensure freshness and manage storage space. It is recommended that packed lunches should include the following on a daily basis:

- A minimum of two portions of fruit or vegetables
- A starchy food for energy and concentration, e.g. any bread, wrap, chapatti, pasta, rice, noodles, potatoes
- Meat, fish, eggs or another plant-based source of iron and protein, e.g. lentils, cooked kidney beans, chickpeas, hummus
- Dairy or dairy alternative food, e.g. cheese, plain unsweetened yoghurt or fromage frais.

To reduce risks of allergens or choking, the following items must not be included:

- *Nuts – whole nuts, nut products including those which use nuts in preparation (for example, nut oil)
- Any drinks other than plain water. Fresh water is provided for all children and alternative drinks will not be served to the children
- Flavoured dried rice, pasta and noodle products, e.g. packets and pots of instant noodles, pasta or rice
- Popcorn, chewing gum, marshmallows, raw jelly cubes, sweets (boiled, hard, gooey or sticky).

Organisation

- See the Food Standards Agency 'Early years food choking hazards' advice for preparing food for babies and children under five years olds:
<https://tinyurl.com/EYchokinghazards>
- To reduce choking risks, we expect:
 - Hard pips or stones removed from fruit; consider removing the skin for very young children
 - Small round fruits (such as grapes, cherry tomatoes, cherries, berries) cut into quarters lengthways
 - Vegetables such as carrots, cucumber and celery cut into narrow batons
 - Sausages/hot dogs peeled and cut into short thin strips
 - Meat/fish boned and cut into thin strips

- Cheese grated or cut into short strips.
- Use easy-to-open containers/packaging where possible, to promote your child's independence
- Ensure all food is within the use-by date
- Ensure all lunchboxes/containers/bags are clearly marked with your child's name
- *Provide appropriate clean cutlery your child will need, such as spoons and forks/
*We keep a small supply of spare cutlery, if required.

Management of food safety, allergies and dietary needs

- All staff are aware of children with food allergies or intolerances and individual dietary requirements are respected. Information from parents is shared with staff involved in preparing and serving food
- Where appropriate, we will carry out a risk assessment in the case of known allergies and work alongside parents to put into place an individual dietary/allergy plan for their child. This will be regularly reviewed and any changes shared with all staff
- Children's lunch boxes will be reviewed prior to giving the contents to the children to manage any risks from potential allergens or choking hazards
- We give careful consideration to seating to avoid cross contamination of food from child to child
- Children will always be within sight and hearing of a member of staff while eating and, where possible, an adult will sit facing children while they eat, to minimise risks from choking and allergic reactions. In addition, a member of staff with a full and valid paediatric first aid certificate will be in the room, where possible
- At each meal and snack time, we ensure a nominated practitioner is responsible for checking that the food being provided meets all the requirements for each child
- Where appropriate, discussions will also take place with children about allergies and potential risks to make them aware of the dangers of sharing certain foods
- Staff show sensitivity towards children's diets and allergies. They do not use a child's diet or allergy as a label for the child, or make a child feel singled out because of their diet or allergy
- Cultural differences in eating habits are respected.

Our policy is developed in partnership with parents, staff and children and reviewed on a regular basis.

Christchurch Kindergarten Children's Nursery Limited

Parents as Partners Policy

Christchurch Kindergarten Children's Nursery Limited we welcome all parents as partners and support a two-way sharing of information that helps establish trust and understanding. We are committed to supporting parents in an open and sensitive manner and include them as an integral part of the care and early learning team within the nursery. Working together ensures we can meet the individual needs of the family and child and provide the highest quality of care and education.

The key person system supports engagement with all parents and we use strategies to ensure that all parents can contribute to their child's learning and development. We ask parents to contribute to initial assessments of children's starting points on entry and they are kept well informed about their children's progress. We encourage parents to support and share information about their children's learning and development at home and the key person seeks to engage them in guiding their child's development at home too. The key person system ensures all practitioners use effective, targeted strategies and interventions to support learning that match most children's individual needs.

Our policy is to:

- Recognise and support parents as their child's first and most important educators and to welcome them into the life of the nursery
- Generate confidence and encourage parents to trust their own instincts and judgement regarding their own child
- Welcome all parents into the nursery at any time and provide an area where parents can speak confidentially with us as required
- Welcome nursing mothers. The nursery will make available a private area whenever needed to offer space and privacy to nursing mothers
- Ensure nursery documentation and communications are provided in different and accessible formats to suit each parent's needs, e.g. Braille, multi-lingual, electronic communications
- Ensure that all parents are aware of the nursery's policies and procedures. Full policy documents will be available to parents on the nursery website.
- Maintain regular contact with parents to help us to build a secure and beneficial working relationship for their children
- Support parents in their own continuing education and personal development including helping them to develop their parenting skills and inform them of relevant conferences, workshops and training, where required
- Create opportunities for parents to talk to other adults in a secure and supportive environment through such activities as open days, parents' evenings and a parents' forum

- Inform parents about the range and type of activities and experiences provided for children, the daily routines of the setting, the types of food and drinks provided for children and events through *regularly distributed newsletters/*the nursery website
- Operate a key person system to enable parents to establish a close, working relationship with a named practitioner and to support two-way information sharing about each child's individual needs both in nursery and at home. Parents are given the name of the key person of their child and their role when the child starts and updates as they transition through the setting
- Inform parents on a regular basis about their child's progress and involve them in shared record keeping. Parents' evenings are held at least twice a year. The nursery consults with parents about the times of meetings to avoid excluding anyone
- Actively encourage parents to contribute to children's learning through sharing observations, interests and experiences from home. This may be verbally, sharing photographs or in written form EYlog.
- Agree the best communication method with parents, e.g. email, face-to-face, telephone and share information about the child's day, e.g. food eaten, activities, sleep times etc.
- Consider and discuss all suggestions from parents concerning the care and early learning of their child and nursery operation
- Provide opportunities and support for all parents to contribute their own skills, knowledge and interests to the activities of the nursery including signposting to relevant services, agencies and training opportunities
- Inform all parents of the systems for registering queries, compliments, complaints or suggestions, and to check that these systems are understood by parents
- Make sure all parents have access to our written Complaints and compliments policy
- Share information about the Early Years Foundation Stage, young children's learning in the nursery, how parents can further support learning at home and where they can access further information
- Provide a written contract between the parent(s) and the nursery regarding conditions of acceptance and arrangements for payment
- Respect the family's religious and cultural backgrounds and beliefs and accommodate any special requirements wherever possible and practical to do so
- Inform parents how the nursery supports children with special educational needs and disabilities
- Find out the needs and expectations of parents. We will do this through regular feedback via questionnaires, suggestion system and encouraging parents to review working practices. We will evaluate any responses and publish these for parents with an action plan to inform future, policy and staff development.

Christchurch Kindergarten Children's Nursery Limited

Personnel Policy

Christchurch Kindergarten Children's Nursery Limited, we aim to have a high-quality staff team that acts at all times in the best interests of children's safety and welfare. To achieve this, we have a range of policies to support the recruitment, development and retention of staff.

The nursery's policies in respect of personnel are governed by the following:

- The best interests of the children, their welfare, safety, care and development
- The statutory requirements of the Early Years Foundation Stage
- The individual needs of the children, including maintaining continuity of care
- Compatibility between all members of staff and the building of a good team spirit
- Consideration of the advancement of each member of staff, both by internal and external training to help them achieve their maximum potential
- Equal pay for work of equal value
- Compliance with the current legislation, including the principles of the Equality Act 2010 and all current legislation governing discrimination.

We will ensure:

- The provision of a person specification and job description for every member of staff prior to an interview
- All interviews follow our recruitment procedures to ensure safe, fair, and non-discriminatory recruitment occurs
- The provision of a statement of terms and conditions and contract for every member of staff in employment (contract to be received by new employee on the first day of employment)
- Prior to commencement of employment, the successful applicant shall be provided with an offer letter (conditional on an enhanced Disclosure and Barring Service (DBS) clearance and satisfactory references) with the induction procedure and any details of other information relevant for their first day of work
- New members of staff will be provided with online copies of policies and procedures, and we will ensure their understanding and adherence to these over an induction period. They will receive induction training, including information about emergency evacuation procedures, safeguarding, child protection and health and safety issues
- All staff receive effective supervision, including support, coaching and training to promote the best interests of children. Staff are also provided with ongoing training and professional development opportunities to ensure they offer quality learning and development experiences for children that continually improves
- We promote staff well-being (see Staff well-being policy) and foster teamwork through regular meetings, team events, and/or outings

- Discrimination or harassment of any member of staff relating to sex, race, sexual orientation, gender, gender reassignment, age, religion or belief and disability will not be acceptable. This includes unwanted verbal or physical third-party harassment by those not employed by the nursery.
- Incentives are in place contact manager for further details.

This policy is reviewed at least annually in consultation with staff.

Christchurch Kindergarten Children's Nursery Limited

Physical Activity Policy

At **Christchurch Kindergarten Children's Nursery Limited** we aim to promote the health and well-being of the whole setting through encouraging physical activity and providing consistent messages to children, parents and staff.

We are aware that children of all ages should be active. Being active is important for children under five because it helps them to build and maintain a good level of health; physical activity is essential for growth and development. Children under five need time to play and learn new skills; the early years are also an important time to establish good habits relating to physical activity.

Children who are not yet walking

- Physical activity should be encouraged from birth, through floor-based play, reaching, grasping, rolling etc. Babies should also have 30 minutes tummy time everyday, spread throughout the day

Children who are confident walkers

- Children should be physically active for at least three hours throughout the day. For preschoolers, 60 minutes of this time should be moderate to vigorous activity.

Our nursery curriculum includes planning our indoor and outdoor activities. For children who cannot walk, we encourage movement through the use of treasure baskets and floor play which helps encourage children to reach and grasp.

We ensure that the children have as much time outdoors as possible.

Physical activities are planned to ensure children are taught the skills they need, as well as having child-initiated, free-flow play (according to the staff ratio and weather conditions). They are able to be creative with these resources in a stimulating and safe environment.

We conduct risk assessments, both internally and for off-site visits to ensure the safety of all the children in our care.

We minimise the amount of time children spend being sedentary (except sleeping time). This includes low-energy activities such as sitting or lying down which limits the child's opportunity to move. Children are only required to sit when eating and not for extended periods of time.

All children, including those with special education need and disabilities (SEND) are entitled to a comprehensive programme of physical activities.

We are confident in providing advice to parents and carers in relation to families adopting healthy lifestyles and being physically active. We encourage parents to walk, scoot or cycle with their children for part or all the way to the nursery. We enable this by providing a safe place to store scooters and buggies. We hold information sessions to help parents understand the importance of being physically active.

Our staff aspire to be positive role models for our children. We aim to take part in physical activity whenever possible, e.g. as part of practitioner sessions and sharing hobbies such as running, cycling, dancing etc. Alongside this, we join in when the children are doing physical activity at nursery.

All physical activity is in line with our Health and safety - general policy and Overall approach to risk assessments policy.

Use of any external personnel including activity leaders and volunteers will be in line with the Supervision of visitors policy.

Christchurch Kindergarten Children's Nursery Limited

Pregnancy and Family Leave Policy

Note: This policy reflects new rules which apply to any baby born on or after 6 April 2026; to any baby born before 6 April 2026, but where they were due on or after 5 April 2026; and to any children placed for adoption on or after 6 April 2026. Further, where the expected week of childbirth starts between 5th April and 25th July 2026, employees need to only give 28 days' notice to take Paternity Leave, with the earliest date they can give notice being 18 February 2026. Should an employee be affected by these transitional arrangements, it is recommended that employees are notified of these temporary measures in a separate letter, following relevant legal advice.

Parental leave rights also change from 6 April 2026, when parental leave becomes a day-one right.

Maternity rights

This section is for pregnant employees and new mothers. It details their rights, which fall into three main categories:

- Paid time off for antenatal care
- Maternity leave
- Maternity benefits.

Ante-natal care

You are entitled to be paid your normal rate of pay for any appointments during working hours related to antenatal care. In order to receive payment an appointment card must be produced confirming the appointment and you will be expected to return to work after keeping your appointment wherever possible. When a certificate confirming pregnancy is issued, this must be handed in as soon as possible.

Ordinary maternity leave

You are entitled to 26 weeks' ordinary maternity leave and have the right to return to work in your previous job. These rights apply regardless of length of service, or the number of hours worked.

If you work full time, you have the right to return to your full time position but you do not have the right to return part time. However, your employer will discuss any request for part time work and on request consider offering part time work. Requests should be made in writing to your employer, giving as much notice as possible.

You can start your ordinary maternity leave at any time from the 11th week before the expected week of childbirth (EWC) and there is a two-week compulsory maternity leave

period following the birth (four weeks for factory workers). For all maternity leave purposes “childbirth” is either a live birth before the end of the 24th week of pregnancy or a live or still birth after the 24th week of pregnancy.

Throughout the ordinary maternity leave period, all your terms and conditions of employment are maintained with the sole exception of pay.

Additional maternity leave

Additional maternity leave starts at the end of the ordinary maternity leave period and ends 26 weeks later. As with ordinary maternity leave, all your terms and conditions of employment are maintained throughout this period with the sole exception of pay.

Notification

The notice periods detailed below must be complied with in order to safeguard your rights. You must notify your employer in writing by the 15th week before the EWC of the following:

- That you are pregnant
- The EWC
- The date on which you intend to start your maternity leave.

You must also provide a certificate (normally a form MAT B1) stating the EWC. Your employer will then write to you within 28 days to confirm your date of return to work. You can change the date on which you intend to start your maternity leave by giving your employer at least 28 days written notice.

Returning to work

If you take the full entitlement to maternity leave your return date will be the date previously notified to you by your employer. If you wish to return early you must give your employer eight weeks’ written notice of your early return date. Your early return may be delayed if this procedure is not followed. Employment at different sites can be offered.

If you intend to return to work at the end of your maternity leave but fail to do so, your employer’s normal rules regarding absence will apply.

Maternity benefits

Although you do not need any qualifying service or to work a minimum number of hours to be entitled to maternity leave or the right to return to work, in order to qualify for Statutory Maternity Pay (SMP) from your employer, you need to have the following:

- At least 26 weeks continuous service at the end of the 15th week before the EWC (this is known as the “qualifying week” for maternity pay purposes)
- Average earnings above the National Insurance lower earnings limit during the eight weeks before the qualifying week.

If you meet these conditions, you are entitled to a maximum of 39 weeks SMP which is calculated as:

- Six weeks at 90% of average weekly earnings

- 33 weeks at the lesser of the lower rate of SMP or 90% of average weekly earnings.

If you do not qualify for SMP you may be entitled to Maternity Allowance (MA).

Sickness absence during pregnancy

If you are absent from work because of a pregnancy related illness or reason at any time during the four weeks before your EWC, the ordinary maternity leave period begins on the first day of absence. If the pregnancy related absence began before the fourth week, then the ordinary maternity leave period begins at the start of the fourth week.

If you are absent from work and the illness is not pregnancy related, the maternity leave period will begin on the date you have previously notified.

If you are absent from work in the weeks leading up to your maternity leave it may affect the higher rate of SMP (90% of normal pay) because it is based on your average earnings in the eight weeks prior to the qualifying week.

Adoption rights

This section is similar to the previous section but deals with employee rights on the adoption of a child, which fall into three main categories:

- Paid time off to attend pre-adoption appointments
- Adoption leave
- Adoption benefits.

Pre-adoption appointments

If you are the primary or sole adopter and you have been advised that a child is due or expected to be placed with you for adoption you are entitled to be paid your normal rate of pay for up to five pre-adoption appointments during working hours. The appointments must have been made by or at the request of the adoption agency and in order to receive payment an appointment card must be produced confirming each appointment. The maximum time off for each appointment is six and a half hours and you will be expected to return to work after keeping your appointment wherever possible.

Ordinary adoption leave

If you are the adoptive parent who has elected to take adoption leave you have the right to 26 weeks' ordinary adoption leave, which includes two weeks' compulsory adoption leave. You can start your adoption leave as soon as the child is placed with you for adoption or if pre-notified up to 14 days before that date.

You are entitled to return to work in your previous job after the ordinary adoption leave period. If you work full time, you have the right to return to your full time position but you do not have the right to return part time. However, your employer will discuss any request for part time work and on request consider part time work. Requests should be made in writing to your employer, giving as much notice as possible.

Throughout the ordinary adoption leave, all your terms and conditions of employment are maintained with the sole exception of pay.

Additional adoption leave

If you are entitled to ordinary adoption leave, additional adoption leave starts at the end of the ordinary adoption leave period and ends 26 weeks later. As with ordinary adoption leave, all your terms and conditions of employment are maintained throughout this period with the sole exception of pay.

Notification

The notice periods detailed below must be complied with in order to safeguard your rights. You must notify your employer in writing of the following no later than seven days after being matched with a child for adoption:

- The date of placement of the child for adoption
- The date on which you intend to start your adoption leave.

You must also provide an Adoption Certificate from the approved adoption agency. Your employer will then write to you within 28 days to confirm your date of return to work. You can change the date on which you intend to start your adoption leave by giving your employer at least 28 days' written notice.

Returning to work

If you take the full entitlement to adoption leave your return date will be the date previously notified to you by your employer. If you wish to return early you must give your employer eight weeks' written notice of your early return date. Your early return may be delayed if this procedure is not followed.

If you intend to return to work at the end of your adoption leave but fail to do so, your employer's normal rules regarding absence will apply.

Adoption benefits

Although you do not need any qualifying service or to work a minimum number of hours to be entitled to adoption leave or the right to return to work, in order to qualify for Statutory Adoption Pay (SAP) from your employer, you need to have the following:

- At least 26 weeks' continuous service at the end of the week in which the child was matched with you for adoption
- Average earnings above the National Insurance lower earnings limit during the eight weeks before the week in which the child was matched with you for adoption.

If you meet these conditions you are entitled, subject to special rules where the adoption is disrupted or where the child reaches age 18, to a maximum of 39 weeks SAP, calculated as:

- Six weeks at 90% of average weekly earnings
- 33 weeks at the lesser of the lower rate of SAP or 90% of average weekly earnings.

In order to be paid SAP, you should notify your employer in writing of the following no later than 28 days before the date on which you wish your SAP period to begin:

- The name and address of the approved adoption agency
- The date on which the child is expected to be placed for adoption and where the child has already been placed for adoption, the date of placement
- The date on which you were informed that the child was to be placed with you for adoption.

Paternity rights (birth)

Ante-natal appointments

You are entitled to accompany the child's mother on up to two ante-natal appointments without pay during working hours. This is on condition that you have or expect to have responsibility for the upbringing of the child and that you are the biological father of the child or are married to or are the partner of the child's mother. The maximum time off for each appointment is six and a half hours and you will be expected to return to work after keeping your appointment wherever possible.

Ordinary paternity leave

If you have at least 26 weeks' continuous service at the end of the 15th week before the EWC, you are entitled to choose to take a single block of either one week or two separate blocks of one whole week each, of ordinary paternity leave if you meet the following conditions:

- You have or expect to have responsibility for the upbringing of the child
- You are the biological father of the child or are married to or are the partner of the child's mother.

Leave has to be taken in whole weeks and cannot be split into days.

You cannot start your ordinary paternity leave until the child is born and the leave can be taken within 52 weeks of birth. You must give prior notice of your entitlement and intention to take leave by the 15th week before the EWC (or if this is not reasonably practical, as soon as is reasonably practical) but you do not have to give notice of the dates you intend to take leave until at least 28 days before that period of leave is due to start.

Throughout the ordinary paternity leave, all your terms and conditions of employment are maintained with the sole exception of pay.

Paternity benefits

If you are entitled to ordinary paternity leave and your average earnings were above the National Insurance lower earnings limit during the eight weeks up to and including the 15th week before the EWC, you are entitled to be paid Statutory Paternity Pay (SPP). SPP is paid during the entire ordinary paternity leave period and is the lesser of:

- The standard rate of SPP, or
- 90% of average weekly earnings.

Notification

To safeguard your rights to ordinary paternity leave and pay you must complete Form SC3 by the 15th week before the EWC. You can change the date on which you intend to start your ordinary paternity leave by completing a new Form SC3 at least 28 days before the original leave date.

Paternity rights (adoption)

Pre-adoption appointments

If you are the primary adopter's partner and you have been advised that a child is due or expected to be placed with you, you are entitled to attend up to two pre-adoption appointments without pay during working hours. The appointments must have been made by or at the request of the adoption agency and the maximum time off for each appointment is six and a half hours. You will be expected to return to work after keeping your appointment wherever possible.

Ordinary paternity leave

If you have at least 26 weeks' continuous service at the end of the week in which the child's adopter is matched with the child for a UK adoption, you are entitled to choose to take a single block of either one week or two separate blocks of one whole week each, of ordinary paternity leave if you meet the following conditions:

- You are not taking adoption leave in respect of the child
- You have or expect to have responsibility for the upbringing of the child
- You are married to or are the partner of the child's adopter.

Leave has to be taken in whole weeks and cannot be split into days.

You cannot start your ordinary paternity leave before the day the child is placed with the adopter and it must end within 56 days beginning with the date of placement.

Notice of actually taking the leave must be provided 28 days before each period of leave by employee.

Notice of entitlement must be provided to the employer within seven days of the employee receiving notification that they have been matched with a child for adoption. This notice must be in writing and should include the date of notification of being matched with a child, when the placement is expected to start or has started, whether they have or will have responsibility of child's upbringing; and whether they are married to, civil partner of or partner of child's main adopter.

Throughout the ordinary paternity leave, all your terms and conditions of employment are maintained with the sole exception of pay.

Paternity benefits

If you are entitled to ordinary paternity leave and your average earnings were above the National Insurance lower earnings limit during the eight weeks before the week in which the child was matched for adoption, you are entitled to be paid Statutory Paternity Pay (SPP). SPP is paid during the entire ordinary paternity leave period and is the lesser of:

- The standard rate of SPP, or
- 90% of average weekly earnings.

Notification

To safeguard your rights to ordinary paternity leave and pay you must complete a Form SC4 no later than seven days after the date on which the adopter is notified of having been matched with the child for adoption. You can change the date on which you intend to start your ordinary paternity leave by completing a new Form SC4 at least 28 days before the original leave date.

Shared parental rights (birth)

Introduction

Many parents will be able to share leave in the year after their child's birth and take leave in a more flexible way by stopping and starting their shared parental leave, taking their leave at the same time, and returning to work between periods of leave.

To qualify for shared parental leave you must have at least 26 weeks' continuous service at the end of the 15th week before the EWC and still be in employment the week before you take the shared parental leave. In addition, you must share the main responsibility for the care of the child that the shared parental leave and pay relates to with the other parent and meet an 'employment and earnings' test.

Opting into shared parental leave and pay

If the mother and her partner agree, the mother can curtail her current maternity leave and 'convert' what remains of the leave period into shared parental leave (SPL). The mother must do this by giving formal notice to her employer and, if you are the mother, we have a form that can be completed to provide the required information. At least eight weeks' notice must be given to curtail maternity leave, at which time the mother and her partner must also give their respective employers an indication of how they intend to take the shared parental leave and pay.

The mother's notice to curtail maternity leave will normally be accompanied by a notice of entitlement to take shared parental leave and a request for a period of shared parental leave and pay. Once notice to curtail maternity leave has been given, it can only be withdrawn in very limited circumstances. However, if the mother gives notice to curtail her maternity leave before the child is born, she has up to six weeks after the birth to change her mind. If the mother revokes her curtailment notice, she remains on maternity leave and can give a new notice to curtail her maternity leave at a later date.

Taking shared parental leave

Before you can take shared parental leave and pay you must provide your employer with a notice of your entitlement to shared parental leave and pay, and this must be accompanied by a 'declaration' from your partner. This is a 'one off' notice and, if you are the mother, you will already have given this notice with your notice to curtail your maternity leave. If you are the mother's partner we have a form that can be completed to provide the required information. The total number of weeks of SPL available is 52 weeks minus the maternity leave that the mother has already taken (including the compulsory maternity leave period). The leave must be taken in whole weeks (part-weeks count as whole weeks), and it must be taken before the child's first birthday.

All your terms and conditions of employment are maintained throughout the SPL period with the sole exception of pay and, if your combined total of maternity/paternity and SPL does not exceed 26 weeks, you are entitled to return to work in your previous job. If you work full time you have the right to return to your full time position but you do not have the right to return part time. However, your employer will discuss any request for part time work and on request consider part time work. Requests should be made in writing to your employer, giving as much notice as possible.

Notification

You are allowed three 'notifications' to take a period of SPL. A minimum of eight weeks' notice must be given before each period of leave, and the mother's first notice to take SPL will usually be included as part of the notice to curtail maternity leave.

If your notice is for a continuous period of SPL, for example six weeks off, it cannot be refused. If, however, your notice is for a discontinuous period of leave, for example six weeks comprising three weeks of SPL, three weeks in work, then three weeks of SPL, this can be refused. The first two weeks of the eight week notice period are to enable you and your employer to discuss this type of request and to try to reach agreement on the pattern of leave.

If agreement cannot be reached you have until the 15th day after you submitted your request (i.e. the day after the discussion period expires) to either let the request stand or to withdraw the request. If you let the request stand your employer can insist that the SPL is taken as a period of continuous leave (in the above example as a continuous period of six weeks). You then have five days in which to decide the start date for the period of continuous leave, otherwise it will start on the date of the first period you previously notified. Alternatively, you can withdraw the request and it will not count as one of your three notifications.

If you want to change the dates of a previously notified period of SPL and your employer agrees to this, then the change does not count as a formal 'notification'. If, however, your employer does not agree to the change you can submit a formal notification of the change (giving at least eight weeks' notice). Your employer will have to accept this notification, but the change will count as one of your three 'notifications'.

Statutory Shared Parental Pay

If you qualified for SMP, MA or SPP you will also qualify for Statutory Shared Parental Pay (SSPP). The total number of weeks of SSPP available is 39 weeks minus the number of weeks of SMP already paid to the mother. SSPP is paid at the lesser of:

- The standard rate of SSPP, or
- 90% of average weekly earnings.

As there will be more weeks of SPL available than weeks of SSPP, employees who claim SSPP will be required to sign a declaration stating the total pay available and the total pay received.

Shared parental rights (adoption)

Introduction

Many parents will be able to share leave in the year after the adoption and take leave in a more flexible way by stopping and starting their shared parental leave, taking their leave at the same time, and returning to work between periods of leave.

To qualify for shared parental leave you must have at least 26 weeks' continuous service at the end of the week in which the adopter is notified of having been matched with a child for adoption and still be in employment the week before you take the shared parental leave. In addition, you must share the main responsibility for the care of the child that the shared parental leave and pay relates to with the other parent and meet an 'employment and earnings test'.

Opting into shared parental leave and pay

If the primary adopter and their partner agree, the primary adopter can curtail their current adoption leave and 'convert' what remains of the leave period into shared parental leave (SPL). The primary adopter must do this by giving formal notice to the employer and if you are the primary adopter, we have a form that can be completed to provide the required information. At least eight weeks' notice must be given to curtail adoption leave, at which time the primary adopter and their partner must also give their respective employers an indication of how they intend to take the shared parental leave and pay.

The primary adopter's notice to curtail adoption leave will normally be accompanied by a notice of entitlement to take shared parental leave and a request for a period of shared parental leave and pay. Once notice to curtail adoption leave has been given, it can only be withdrawn in very limited circumstances.

Taking shared parental leave

Before you can take shared parental leave and pay you must provide your employer with a notice of your entitlement to shared parental leave and pay, and this must be accompanied by a 'declaration' from your partner. This is a 'one off' notice and, if you are the primary adopter, you will already have given this notice with your notice to curtail your adoption

leave. If you are the secondary adopter/adopter's partner we have a form that can be completed to provide the required information. The total number of weeks of SPL available is 52 weeks minus the adoption leave that the primary adopter has already taken (including the compulsory adoption leave period). The leave must be taken in whole weeks (part-weeks count as whole weeks), and it must be taken during the first year following the adoption.

All your terms and conditions of employment are maintained throughout the SPL period with the sole exception of pay and if your combined total of adoption/paternity and SPL does not exceed 26 weeks, you are entitled to return to work in your previous job. If you work full time you have the right to return to your full time position but you do not have the right to return part time. However, your employer will discuss any request for part time work and will, on request consider part time work. Requests should be made in writing to your employer, giving as much notice as possible.

Notification

You are allowed three 'notifications' to take a period of SPL. A minimum of eight weeks' notice must be given before each period of leave, and the primary adopter's first notice to take SPL will usually be included as part of the notice to curtail adoption leave.

If your notice is for a continuous period of SPL, for example six weeks off, it cannot be refused. If however, your notice is for a discontinuous period of leave, for example six weeks comprising three weeks of SPL, three weeks in work, then three weeks of SPL, this can be refused. The first two weeks of the eight week notice period are to enable you and your employer to discuss this type of request and to try to reach agreement on the pattern of leave.

If agreement cannot be reached you have until the 15th day after you submitted your request (i.e. the day after the discussion period expires) to either let the request stand or to withdraw the request. If you let the request stand your employer can insist that the SPL is taken as a period of continuous leave (in the above example as a continuous period of six weeks). You then have five days in which to decide the start date for the period of continuous leave, otherwise it will start on the date of the first period you previously notified. Alternatively, you can withdraw the request and it will not count as one of your three notifications.

If you want to change the dates of a previously notified period of SPL and your employer agrees to this, then the change does not count as a formal 'notification'. If, however, your employer does not agree to the change you can submit a formal notification of the change (giving at least eight weeks' notice). Your employer will have to accept this notification, but the change will count as one of your three 'notifications'.

Statutory Shared Parental Pay

If you qualified for SAP or SPP you will also qualify for Statutory Shared Parental Pay (SSPP). The total number of weeks of SSPP available is 39 weeks minus the number of weeks of SAP already paid to the primary adopter. SSPP is paid at the lesser of:

- The standard rate of SSPP, or
- 90% of average weekly earnings.

As there will be more weeks of SPL available than weeks of SSPP, employees who claim SSPP will be required to sign a declaration stating the total pay available and the total pay received.

Parental leave

Parents of children born or placed for adoption are entitled, on completion of one year's service with the nursery, to take unpaid parental leave. The right applies to mothers and fathers and to a person who has legal parental responsibility. Parents who already have at least one year's service are able to start taking parental leave when the child is born or adopted and the remainder are able to start taking parental leave as soon as they have completed one year's service.

Parents are entitled to 18 weeks' leave for each child, to be taken before the child reaches age 18. Parents must give 21 days' written notice to take parental leave and it must be taken in blocks or multiples of one week (part-weeks, including single days or part days, count as whole weeks) up to a maximum of four weeks in any one year. Parents of disabled children for whom a disability living allowance has been awarded have the additional flexibility to take leave in days without them being counted as whole weeks, although part days count as full days.

Leave can be postponed by the nursery for up to six months where the business cannot cope, except when a father gives the above advance notice to take leave immediately after the date when the child is born or when the partner of a primary adopter gives the above advance notice to take leave immediately after the date when the child is placed for adoption.

Neonatal care leave (NCL)

If your baby requires specialist neonatal care after birth, the Neonatal Care (Leave and Pay) Act 2023 entitles you to take statutory neonatal care leave (NCL) in addition to any other statutory family leave to which you may be entitled and to receive statutory neonatal care pay (SNCP), subject to satisfying the eligibility criteria. NCL is a day-one right, if you comply with the notice requirements.

You are entitled to one week of NCL for each qualifying week your child spends in neonatal care, up to a maximum of 12 weeks. It must be taken in weekly blocks. The neonatal care must begin within 28 days of your child's birth and last for a continuous period of at least seven days (not including the day on which the care starts).

NCL will be granted when you have a qualifying parental, or other personal relationship, with your child including where your child has been adopted and in parental order (surrogacy) cases. NCL may be taken in addition to other types of statutory family leave, but must be taken within the first 68 weeks of your child's birth.

You have the right to return to the same job (or, in certain circumstances, to return to a suitable and appropriate alternative job), are entitled to be offered suitable alternative employment on redundancy in priority to other employees and you are protected from detriment or dismissal related to NCL).

Further information will be available from your employer.

Time off for dependants

You will be allowed to take reasonable time off work without pay to deal with an emergency involving a dependant. The amount of time off allowed will depend on the circumstances.

For example, if a dependant is ill or injured, reasonable time off will be given to deal with the emergency – this does not mean that you will be allowed to take time off to look after the dependant personally. Further time off will result in no payment.

Compassionate leave

Reactions to bereavement may vary greatly according to individual circumstances a relative for whom the employee has a special bonded relationship with cannot count amongst someone never mentioned before with colleagues. You should discuss your circumstances with your Manager and agree appropriate time off, but no more than 1 working week. Any extra leave will be unpaid.

Death of a child

If an employee experiences the death of a child under the age of 18 or suffers a stillbirth from 24 weeks of pregnancy, or has an abortion after 24 weeks (in very limited circumstances an abortion can take place after 24 weeks if the mother's life is at risk or the child would be born with a severe disability), the employee will be entitled to two weeks paid leave, subject to meeting the eligibility criteria having been employed for at least 26 weeks.

Additionally, an employee may take parental bereavement leave in the event of the death of an adopted child while on adoption leave or the death of a child while on shared parental leave. The amount of leave depends on the circumstances and the employer will seek legal advice regarding the employee's individual circumstances at the time of the bereavement.

Support will be given including making reasonable adjustments on the return to work and further ongoing support as required.

Christchurch Kindergarten Children's Nursery Limited

Promoting Positive Behaviour Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we believe that children flourish best when they feel safe and secure and have their needs met by supportive practitioners who act as good role models, show them respect and value their individual personalities. Children are supported through co-regulation, where adults and children work together towards a common purpose, including finding ways to resolve stress-related upsets and return to balance, leading to a path to self-regulation. The nursery actively promotes British values, always encourages and praises positive, caring and polite behaviour, and provides an environment where children learn to respect themselves, others and their surroundings.

We implement the early years curriculum, supporting children to develop their personal, social and emotional development. This involves helping children understand their own feelings and those of others, and begin to regulate their behaviour. We support children to do this by working with parents, using consistent approaches, structures, routines, and age- and stage-appropriate boundaries that are appropriate to the child's emotional development. We help build confidence and self-esteem by valuing all children and giving lots of praise and encouragement.

To support positive behaviour in our setting, we aim to:

- Recognise the individuality of all our children
- Provide a warm, responsive relationship where children feel respected, comforted and supported in times of stress, and confident that they are always cared for
- Understand that certain behaviours are a normal part of some young children's development, e.g. biting
- Encourage self-regulation, consideration for each other, our surroundings and property
- Encourage children to participate in a wide range of group activities to enable them to develop their social skills
- Ensure that all staff act as positive role models for children
- Encourage parents, carers and other visitors to be positive role models
- Work in partnership with parents by communicating openly
- Praise children and acknowledge their positive actions and attitudes, therefore ensuring that children see that we value and respect them
- Encourage all staff working with children to accept their responsibility for implementing the goals in this policy and to be consistent
- Promote non-violence and encourage children to deal with conflict peacefully
- Provide a key person system enabling staff to build a strong and positive relationship with children and their families

- Provide activities and stories to help children learn about accepted behaviours, including opportunities for children to contribute to decisions about accepted behaviour where appropriate
- Supporting and developing children's **emotional literacy**, understanding of different feelings and emotions, self-regulation and empathy as appropriate to the stage of development. This includes using strategies and naming and talking about feelings and ways to manage them
- Have a named person who has overall responsibility for promoting positive behaviour and behaviour support.

The named person for promoting and supporting behaviour is
[.....]

It is their role to:

- Advise and support other staff on any behaviour concerns
- Liaise with the setting's Special Educational Needs Co-ordinator (SENCo) where a child requires further support, or there are concerns about the impact of the behaviour on a child's education and care
- Along with each room leader will keep up to date with legislation and research relating to promoting positive behaviour
- Support changes to policies and procedures in the nursery
- Access relevant sources of expertise where required and act as a central information source for all involved
- Attend regular external training events, and ensure all staff attend relevant in-house or external training for behaviour management. Keep a record of staff attendance at this training.

Our nursery rules are concerned with safety, care and respect for each other. We keep the rules to a minimum and ensure that these are age and stage appropriate. We regularly involve children in the process of setting rules to encourage cooperation and participation, and ensure children gain an understanding of the expectations of behaviour relevant to them as a unique child.

Children who are displaying distressed and /or behaviour which challenges, for example, by physically abusing another child or adult, e.g. biting, or through verbal bullying, are helped to talk through their feelings and actions through co-regulation before thinking about the situation and apologising if appropriate. We make sure that the child who has been upset is comforted. We always acknowledge when a child is feeling angry or upset and that it is the behaviour that is not acceptable, not the child or their feelings.

Our promoting positive behaviour procedure is:

- We support all children to develop positive behaviour, and we make every effort to provide for their individual needs

- We never use or threaten to use physical punishment or corporal punishment such as smacking or shaking or use or threaten any punishment that could adversely affect a child's well-being
- We only use physical intervention (where practitioners may use reasonable force to prevent children from injuring themselves or others or damaging property) or to manage a child's behaviour if necessary. We keep a record of any occasions where physical intervention is used and inform parents on the same day, or as reasonably practicable
- *We recognise that there may be occasions where a child is displaying distressed and/or behaviour which challenges and may need individual techniques to restrain them to prevent a child from injuring themselves or others. We will complete an incident form following any restraints used and notify the parents.*
- We do not single out children or humiliate them in any way. Where children are displaying behaviour which challenges, they will, wherever possible, be distracted and redirected to alternative activities. Discussions with children will take place as to why their behaviour was not acceptable, respecting their level of understanding and maturity
- Staff do not raise their voices (other than to keep children safe)
- In any case of behaviour which challenges, we always make it clear to the child or children in question that it is the behaviour and not the child that is unwelcome
- We decide on particular strategies to support particular types of behaviour depending on the child's age, level of development and the circumstances surrounding the behaviour. This may involve asking the child to talk about and reflect on what he/she has done. All staff support children in developing empathy and children will only be asked to apologise if they have developed strong empathy skills and have a good understanding of why saying sorry is appropriate
- We help staff to reflect on their own responses towards behaviours that challenge to ensure that their reactions are appropriate
- We inform parents if their child's behaviour is unkind to others or if their child has been upset. In all cases we deal with behaviour that challenges in nursery at the time. We may ask parents to meet with staff to discuss their child's behaviour, so that if there are any difficulties, we can work together to ensure consistency between their home and the nursery. In some cases, we may request additional advice and support from other professionals, such as an educational psychologist
- We support children in developing non-aggressive strategies to enable them to express their feelings and emotions
- We keep confidential records on any behaviour that challenges that has taken place. We inform parents and ask them to read and sign any incidents concerning their child
- Through partnership with parents and formal observations, we make every effort to identify any behavioural concerns and the causes of that behaviour. From these observations and discussions, we will implement:
First: **IBIP** (individual behaviour initial plan) alongside the IBL individual behaviour log form, where a child's behaviour involves aggressive actions towards other

children and staff, for example, hitting, kicking, etc., to ensure the safety of other children and staff. In these instances, we may remove a child from an area until they have calmed down.

Then : **ABC chart**

We recognise that children need their own time and space and that it is not always appropriate to expect a child to share. We believe it is important to acknowledge each child's feelings and to help them understand how others might be feeling.

At our nursery, staff follow the procedure below to enable them to deal with behaviour that challenges:

- Staff are encouraged to ensure that all children feel safe, happy and secure
- Staff are encouraged to recognise that active physical aggression in the early years is part of the child's development and that it should be channelled in a positive way
- Children are helped to understand that using aggression to get things is inappropriate and they will be encouraged to resolve problems in other ways
- Staff will initiate games and activities with children when they feel play has become overly boisterous or aggressive, both indoors and outdoors
- We will ensure that this policy is available for staff and parents and it will be shared at least once a year to parents and staff
- If any parent has a concern about their child, a member of staff will be available to discuss those concerns. Working together can ensure our children feel confident and secure in their environment, both at home and in the nursery
- All concerns will be treated in the strictest confidence.

Anti-bullying

We encourage children to recognise that bullying, fighting, hurting and discriminatory comments are not acceptable behaviour. We want children to recognise that certain actions are right and that others are wrong.

Bullying takes many forms. It can be physical, verbal or emotional, but it is always a repeated behaviour that makes other people feel uncomfortable or threatened. We acknowledge that any form of bullying is unacceptable and will be dealt with immediately while recognising that physical aggression is part of children's development in their early years. Staff will intervene when they think a child is being bullied, however mild or harmless it may seem and sensitively discuss any instance of bullying with the parents of all involved to look for a consistent resolution to the behaviour.

By promoting positive behaviour, valuing co-operation and a caring attitude, we hope to ensure that children will develop a positive sense of self, have confidence in their own abilities, make good friendships, co-operate and resolve conflicts peaceably. These will provide them with a secure platform for school and later life.

Christchurch Kindergarten Children's Nursery Limited

Quality Provision Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we are passionate about providing high-quality care and education for all children. High-quality care directly leads to better outcomes for our children, and all staff are committed to providing children with the best possible start in life and to enabling them to reach their full potential.

As part of our quality practice, we ensure children receive the highest quality care and education by:

- Having high expectations for all children so they can achieve the best outcomes
- Building close attachments with children so they feel safe, secure, happy and can thrive
- Developing close relationships with families so together we can best support the child's individual learning and development
- Implementing all of the safeguarding and welfare requirements of the Early Years Foundation Stage (EYFS)
- Ensuring that the EYFS learning and development requirements are embedded including providing a curriculum that is underpinned by the EYFS principles, educational programmes and seven areas of learning and development
- Reflecting on all areas of practice and striving towards the Ofsted grade descriptors for outstanding quality indicators
- Ensuring all the EYFS assessment requirements are met including the planning, observation, assessment and next steps and that they are linked to each individual child's needs and interests and are evaluated for effectiveness
- Having a highly qualified, skilled staff team that understand what is meant by high quality practice and how to deliver this, deploying staff appropriately to meet the individual needs of all children
- Creating and achieving the nurseries quality vision, mission and outcomes
- Consistently delivering high quality practice and teaching that makes a difference to children's daily experiences
- Ensuring a solid understanding of the importance of pedagogy and child development amongst all practitioners
- Ensuring that the environment, resources and provision is of high quality both indoors and out; monitoring resources and equipment ensuring these are risk assessed and fit for purpose
- Providing children with wonderful experiences and opportunities giving them the best start in life
- Valuing continuous professional development for all staff and accessing a variety of training and development to support the needs of the children in the nursery

- Appropriately assessing children's learning and development and recognising where children may need support and acting on this quickly
- Evaluating the effectiveness of training and link to the outcomes for children
- Ensuring all staff are confident and supported in their roles and have the training and skills they need to be able to perform their roles
- Conducting regular supervision meetings with all team members to ensure all staff are supported to be the best they can be
- Using peer on peer observations to share, discuss and improve practice across the setting
- Monitoring all practice and feedback ideas for improvement
- Undertaking a quality improvement programme to ensure quality is embedded throughout the nursery
- Engaging with families and carers and supporting the home learning environment
- Operating a robust and embedded quality improvement and evaluation process across the whole setting that includes all parties such as practitioners, children, parents and external partners.

Christchurch Kindergarten Children's Nursery Limited

Recruitment, Selection and Suitability of Staff Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we are vigilant in our recruitment procedures, aiming to ensure that all people looking after children are suitable to fulfil the requirements of their role. We are committed to ensuring that all staff, including students, volunteers and any agency or supply staff are suitable to fulfil the requirements of their role in order to work with, or be in regular contact with, children.

We have effective systems in place to ensure that practitioners and any other person who may have regular contact with children are suitable, as part of the recruitment process as well as monitoring continued suitability, as part of regular staff and/or student supervision.

Every time we recruit a new member of staff to join our team, we follow these procedures:

1. Legal requirements

- We abide by all legal requirements relating to safer recruitment set out in the Statutory Framework for the Early Years Foundation Stage (EYFS) and accompanying regulations, including our legal responsibilities under the Equality Act 2010
- We also follow any requirements or guidance given by the Disclosure and Barring Service (DBS) in relation to carrying out checks. We fulfil our employer's responsibilities by informing the DBS of any changes to the suitability of our staff, whether they have left the nursery or are still under investigation. Please refer to the Safeguarding children and child protection policy for further information.

2. Advertising

- We use **websites, job sites, social media sites, and local job centre** to advertise for any vacancies
- We ensure that all recruitment literature includes details of our equal opportunities policy and our safer recruitment procedures, including an enhanced DBS check and at least two independent references for every new employee.

3. Interview stage

- We shortlist all suitable candidates against pre-set specifications and ensure all applicants receive correspondence regardless of whether they are successful in reaching the interview stage or not
- All shortlisted candidates receive a job description and *a request for two references prior to the interview (which must be checked verbally and then in written form)*
- The manager decides the most appropriate people for the interview panel. There will be at least two people involved in the overall decision-making

- At the start of each interview, all candidates' identities are checked using, for example, their passport and/or photo card driving licence. All candidates must prove they are eligible to work in the UK. The interview will also cover any gaps in the candidate's employment history
- All candidates reaching the interview stage are questioned using the same set of criteria and questions. These cover specific areas of childcare, including safeguarding children in their care, planning suitable activities to enhance children's development, and their understanding of the legal frameworks applied to childcare and used in the nursery. The questions are value-based and will ensure the candidate has the same values as the nursery with regard to the safety and welfare of the children in their care
- Candidates will be given a score for their answers, including a score for their individual experience and qualifications
- Every shortlisted candidate will be asked to take part in a supervised practical exercise which will involve spending time in a particular age group in the nursery, interacting with the children, staff and, where appropriate, parents
- In addition, the manager may choose to carry out an online search for every shortlisted candidate. This may help identify any incidents or issues publicly available online, which may be explored with the applicant at the interview
- The manager and deputy will then select the most suitable person for this position based on these scores and their knowledge and understanding of the Early Years Framework as well as the needs of the nursery
- Every candidate will receive communication from the nursery stating whether they have been successful or not. Unsuccessful candidates are offered feedback.

4. Starting work

- The successful candidate will be offered the position subject to at least two references from previous employment or, in the case of a newly qualified student, their tutor and a personal or *professional reference*. *These references will be taken up BEFORE employment commences and will meet the requirements for references as set out in the EYFS under 'Suitable people'*. This may be verbal initially and then followed up with a written reference, which will form part of their personnel file
- The successful candidate will be asked to provide proof of their qualifications, where applicable. All qualifications will be checked and copies taken for their personnel files where applicable
- *Prior to employment but after the job has been offered, a health check questionnaire will be given to the employee, and its results will be taken into account in making an overall decision about suitability.* The nursery reserves the right to take any further advice necessary in relation to a person's physical and mental fitness to carry out their role. Please see the Absence management procedure for more details about how the nursery manages health problems, including access to medical records
- All new starters, other than those who have registered for the continuous updating service (see below), will be subject to an enhanced Disclosure and Barring Service (DBS) check. This will be initiated before the member of staff commences work in

the nursery and they will not have unsupervised access to any child or children's records before this check comes back clear. Further to this, without an up-to-date enhanced DBS check, the new starter will not be allowed to take photographs of any child, look at their learning and development log or change the nappy of any child (whether supervised or not)

- The nursery will record and retain details about individuals, including staff qualifications, identity checks carried out and the vetting process completed. This will include the DBS reference number, the date the disclosure was obtained and details of who obtained it. The nursery will not retain copies of the disclosure itself once the employment decision is taken
- There may be occasions when a DBS check is not clear, but the individual is still suitable to work with children. This will be treated on an individual case basis and at the *manager's/*owner's discretion, taking the following into account:
 - seriousness of the offence or other information
 - accuracy of the person's self-disclosure on the application form
 - nature of the appointment, including levels of supervision
 - age of the individual at the time of the offence or other information
 - the length of time that has elapsed since the offence or other information
 - relevance of the offence or information to working or being in regular contact with children
- If the individual has registered on the DBS system since 17 July 2013, managers may use the update service with the candidate's permission instead of carrying out an enhanced DBS check
- New starters are required to sign (either an application form, a contract or a separate form) to state that they have no criminal convictions, court orders or any other reasons that disqualify them from working with children or identify that they are unsuitable to do so
- All new members of staff will undergo an intensive induction period during which time they will read and discuss the nursery policies and procedures, and be assigned a mentor or buddy who will introduce them to the way in which the nursery operates
- During their induction period, all new staff will receive training on how to safeguard children in their care and follow the Safeguarding Children and Child Protection Policy, Lockdown Policy, Inclusion and Equality Policy and Health and Safety Issues.
- New staff members will have a probationary period as per your contract, during which the suitability for the position to which they have been appointed will be assessed. The nursery reserves the right to extend the probationary period if necessary
- The new member of staff will have regular meetings with the manager and their mentor or buddy during their induction period to discuss their progress, support required and/or further training and professional development opportunities.

5. Delayed DBS checks

- Where possible, staff will have the checks completed prior to starting employment. As long as the DBS check has been applied for, if there are delays in the results coming through, staff may work in the nursery as a last resort before these checks are completed, but they must be supervised at all times by staff who already hold an enhanced check. All nursery staff will be informed of any staff awaiting enhanced DBS clearance
- Staff awaiting these checks will **never**:
 - Be left unsupervised whilst caring for children
 - Take children for toilet visits unless supervised by staff holding an enhanced check
 - Change nappies
 - Be left alone in a room or outside with children
 - Administer medication
 - Administer first aid
 - Take photographs of any children
 - Be involved in looking at a child's learning and development log, but can contribute to it
 - Have access to children's personal details and records
- While adhering to the above list, we recognise that it is vital that the staff member awaiting an enhanced disclosure is made to feel part of the team and we support them in participating fully in every other aspect of the nursery day.

6. Ongoing support and checks

- All staff are responsible for notifying the manager in person if there are any changes to their circumstances that may affect their suitability to work with children (staff suitability status will also be checked through an annual 'staff suitability questionnaire'). This includes any incidents occurring outside the nursery. Staff will face disciplinary action should they fail to notify the manager **immediately**
- We act on any information that comes to our attention that suggests someone may no longer be suitable for their role
- All members of staff will update a *health questionnaire on an annual basis* to ensure management have a good knowledge of any changes that may require support or additional resources to aid them to carry out their day-to-day duties. This will also be discussed at staff supervisions and review meetings. Management may require this more regularly where health circumstances change. There are more details about how the nursery deals with any health problems in the Absence management procedure
- The nursery manager*/owner* will review any significant changes to an individual's circumstances that may suggest they are no longer suitable to work with children and take appropriate action to ensure any unsuitable or potentially unsuitable employee does not have unsupervised contact with children until the matter is resolved. Please see the Disciplinary procedure for further details
- Every member of staff will have two one to one supervision per year with the manager: This will provide an opportunity for the manager and member of staff to

discuss training needs for the following six months as well as evaluate and discuss their performance in the previous six months

- The manager, deputy and room leaders will be responsible for any support the staff team may have between these reviews. This includes mentor support, one-to-one training sessions, ongoing supervision, work-based observations and constructive feedback.
- We will ensure staff receive continuous support, training and supervision from management in order to provide a safe, secure and healthy environment for all children in the nursery
- The nursery will provide appropriate opportunities for all staff to undertake professional development and training to help improve the quality of experiences provided for children.

7. Students and agency/supply staff

- All students will receive an interview to ensure they are suitable for the nursery and an induction process to ensure they fully understand and are able to implement the nursery procedures, working practices and values
- All students will be fully supervised to ensure they receive the appropriate support, training and information they may require
- We request confirmation that all necessary checks have been completed by the agency before using any supply or agency staff. Once checks are obtained we record the DBS check reference number, the date the check was obtained and details of who obtained it
- We have a short induction prior to agency staff working with the children. It is our policy that all agency and supply staff are fully supervised and not left alone with children
- *Students on long term placements and volunteers (aged 17 or over) and staff working as apprentices in early education (aged 16 or over) may be included in the ratios at the level below their level of study, if the provider is satisfied that they are competent and responsible.*

Christchurch Kindergarten Children's Nursery Limited

Respectful Intimate Care Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we believe that all children need contact with familiar, consistent carers to ensure they can grow and develop socially and emotionally. Children need to feel safe, secure and happy, so we expect nursery staff to be responsive to children's needs, whilst maintaining professionalism. We accept that children need to be cuddled, encouraged, held, and offered physical reassurance, and we ensure intimate care routines are undertaken in a safe, respectful, and child-centred way.

Intimate care routines may include nappy changing, supporting children with toileting, changing clothes, and giving first aid treatment and specialist medical support, where required. To maintain the child's privacy, we will carry out most of these actions on a one-to-one basis and, wherever possible, by the child's key person. First aid treatment will be carried out by a qualified paediatric first aider.

Providing intimate care involves working with children when they are particularly vulnerable, which can provide heightened opportunities for abuse. Therefore, to promote good practice and minimise the risk of allegations we have the following guidelines to ensure staff are fully supported and able to perform their duties safely and confidently.

Management

- Promote consistent and caring relationships through the key person system in the nursery and ensure all parents understand how this works
- Ensure all staff undertaking intimate care routines have suitable enhanced DBS checks
- Conduct thorough inductions for all new staff to ensure they are fully aware of all nursery procedures and arrange specialist training where required, i.e. paediatric first aid training, specialist medical support
- Follow up procedures through supervision meetings and appraisals to identify any areas for development or further training
- Ensure all staff have an up-to-date understanding of the Safeguarding Children and Child Protection policy, including how to protect children from harm. This will include identifying signs and symptoms of abuse and how to raise concerns
- Operate a Whistleblowing policy to help staff raise any concerns about their peers or managers, and help staff develop confidence in raising worries as they arise in order to safeguard the children in the nursery
- Conduct working practice observations on all aspects of nursery operations to ensure that procedures are working in practice and all children are supported fully by the staff, including intimate care routines

- Conduct regular risk assessments on all aspects of the nursery operation, including intimate care, and review the safeguards in place. The nursery assesses all the risks relating to intimate care routines and uses appropriate safeguards to ensure the safety of all involved.

Environment

- Leave the doors open when changing children's nappies, soiled or wet clothing, or other intimate routines, whilst maintaining their dignity
- Ensure children are afforded privacy and dignity during intimate care routines, whilst balancing this with the need to safeguard children and staff.

Parents

- Work closely with parents on all aspects of the child's care and education as laid out in the Parents as partners policy. This is essential for intimate care routines which require specialist training or support
- If a child requires specific support the nursery will arrange a meeting with the parent to discover all the relevant information relating to this to enable the staff to care for the child fully and meet their individual needs.

Relationships

- Although we recognise it is appropriate to cuddle children, we give cuddles only when sought by children needing comfort to support their emotional development. Staff are advised to do this in view of other children and practitioners, whenever possible. We recognise that there may be occasions where it is appropriate for this to happen away from others, such as when a child is ill. In these circumstances, staff are advised to leave the door open. It is the duty of all staff and the manager to ensure that children are appropriately comforted and to monitor practice
- We discourage inappropriate behaviour such as over tickling, over boisterous play or inappropriate questions such as asking children to say they love a staff member and we advise staff to report any such observed practice
- Staff are respectful of each other and the children and families in the nursery and do not use inappropriate language or behaviour, including during breaks.

If a parent or member of staff has concerns or questions about intimate care procedures or individual routines, practice procedures or behaviour they consider as inappropriate, including between staff members, they are urged to see the manager at the earliest opportunity.

Management will challenge inappropriate behaviour in line with the Supervisions policy, Disciplinary procedure or Whistleblowing policy.

If the concern relates to the manager and/or nursery owner, then parents should contact Ofsted or the local safeguarding partner (LSP) .

Christchurch Kindergarten Children's Nursery Limited

Safety Checks

At Christchurch Kindergarten Children's Nursery Limited, we take reasonable steps to ensure the safety of children, staff and others on the premises, including carrying out safety checks on a regular basis in accordance with the timescales set out in the nursery checklists table at the end of this policy.

These include daily safety checks of the premises, indoors and outdoors, and of all equipment and resources before the children access any areas. The checks are recorded, showing any issues and their solutions.

(This policy should be read in conjunction with the Health and Safety - General Policy, Fire Safety Policy, Overall Approach to Risk Assessments Policy, Visits and Outings Policy and the Equipment and Resources Policy.)

All staff are trained in health and safety to raise awareness. Staff know how to recognise potential hazards, including near misses in the nursery environment and always monitor safety.

Risk assessments (refer to the Overall approach to risk assessments policy)

Risk assessments document the hazard, who could be harmed, existing controls, the seriousness of the risk or potential injury, any further action needed to control the risk, who is responsible for what action, when and how often the action will be undertaken, and how this will be monitored and checked and by whom.

The nursery carries out written risk assessments at least annually. These are regularly reviewed and cover potential risks to children, staff and visitors at the nursery. When circumstances change in the nursery, e.g. a significant piece of equipment is introduced or new activity or experience planned, we review our current risk assessment or conduct a new risk assessment dependent on the nature of this change.

All staff are trained in the risk assessment process to ensure understanding and compliance of how they manage risks.

All outings away from the nursery are individually risk assessed. For more details refer to the Visits and outings policy.

- All electrical cables are kept out of the reach of children wherever possible and shielded by furniture where they need to be at floor level

- We take a risk-based approach, considering the type of equipment and what it is being used for, to make a decision whether to have certain electrical items Portable appliance testing (PAT) tested (as per HSE guidance)
- Electrical sockets are all risk assessed and any appropriate safety measures are in place to ensure the safety of the children.

Mains information

Locations of:

- Water stop tap: [.....]
- Gas point: [.....]
- Fuse box: [.....]
- Main electricity box: [.....]

Dangerous substances

All dangerous substances including chemicals out of children's reach. All substances are kept in their original containers with their original labels attached. Safety data sheets (Control of Substances Hazardous to Health (COSHH)) and risk assessments are kept for all substances and the appropriate personal protection taken and used, e.g. gloves, apron and goggles.

Hot drinks and food

Hot drinks must only be consumed in the staff room. No bottled or canned drinks, sweets or crisps are to be kept or consumed in the nursery rooms or outside.

Transport and outings

The nursery has a comprehensive documented policy relating to outings, which incorporates all aspects of health and safety procedures including the arrangements for transporting and the supervision of children when away from the nursery.

Room temperatures

- Staff should be aware of room temperatures in the nursery, ensure that they are suitable at all times and recorded on the appropriate sheet. There is a thermometer in each room to ensure this is monitored
- Staff must always be aware of the dangers of babies and young children being too warm or too cold
- *Temperatures should not fall below 18°C in the baby rooms and 16°C in all other areas what is the contingency plan to use portable heaters/ fans.*
- Where fans are being used to cool rooms, great care must be taken with regard to their positioning.

Water supplies

- A fresh water drinking supply is available and accessible to all children, staff and visitors
- All hot water taps accessible to children are thermostatically controlled to ensure that the temperature of the water does not exceed 40°C.

Gas appliances

- All gas appliances are checked annually by a registered Gas Safety Register engineer
- Carbon monoxide detectors are fitted.

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Separated Family Policy

At **Christchurch Kindergarten Children's Nursery Limited** we support families going through separation by working closely with the parents to establish the most effective transition and support. We understand that this can be a difficult time and support a child's emotional well-being, while reporting any significant changes in behaviour to the parent.

Parents are signposted to relevant services and organisations for whole-family support, where required.

Parental responsibility

While the law does not define in detail what parental responsibility is, the following list sets out some of the key features of someone holding parental responsibility.

These include:

- Providing a home for the child
- Having contact with and living with the child
- Protecting and maintaining the child
- Disciplining the child
- Choosing and providing for the child's education
- Determining the religion of the child
- Agreeing to the child's medical treatment
- Naming the child and agreeing to any change of the child's name
- Accompanying the child outside the UK and agreeing to the child's emigration, should the issue arise
- Being responsible for the child's property
- Appointing a guardian for the child, if necessary
- Allowing confidential information about the child to be disclosed.

If the parents of a child are married to each other at the time of the birth, or if they have jointly adopted a child, then they both have parental responsibility. Parents do not lose parental responsibility if they divorce, and this applies to both the resident and the non-resident parent.

This is not automatically the case for unmarried parents. According to current law, a mother always has parental responsibility for her child. However, a father has this responsibility only if he is married to the mother when the child is born or has acquired legal responsibility for his child through one of these three routes:

- By jointly registering the birth of the child with the mother (from 1 December 2003)
- By a parental responsibility agreement with the mother

- By a parental responsibility order, made by a court.

Be aware of different types of family arrangements and seek further advice from a solicitor, NDNA legal helpline or children's social care if required.

Nursery registration form

During the registration process we collect details about both parents including who has parental responsibility, as this will avoid any future difficult situations.

We request these details on the child registration form. If a parent does not have parental responsibility or has a court order in place to prevent this, we must have a copy of this documentation for the child's records.

If a child is registered by one parent of a separated family, we request disclosure of all relevant details relating to the child and other parent such as court orders or injunctions. This will make sure we can support the child and family fully in accordance with the policy set out below.

We will:

- Ensure the child's welfare is always paramount when the child is in the nursery
- Comply with any details of a court order where applicable to the child's attendance at the nursery where we have a copy attached to the child's file
- Provide information on the child's progress, e.g. learning journeys, progress checks within the nursery, to both parents where both hold parental responsibility
- Invite both parents to nursery events, including parental consultations and social events where both hold parental responsibility
- Ensure any incident or accident within the nursery relating to the child is reported to the person collecting the child
- Ensure that all matters known by the staff pertaining to the family and the parents' separation remain confidential
- Ensure that no member of staff takes sides regarding the separation and treats both parents equally and with due respect
- Not restrict access to any parent with parental responsibility unless a formal court order is in place. We respectfully ask that parents do not put us in this position
- We will seek legal advice in the case of any disputes regarding the care or collection of the child and sharing of information, where required, to ensure we meet all legal requirements.

We ask parents to:

- Provide us with all information relating to parental responsibilities, court orders and injunctions
- Update information that changes any of the above as soon as practicably possible
- Work with us to ensure continuity of care and support for your child

- Not involve nursery staff in any family disputes, unless this directly impacts on the care we provide for the child
- Talk to the manager and/or key person away from the child when this relates to family separation in order to avoid the child becoming upset. This can be arranged as a more formal meeting or as an informal chat
- Not ask the nursery to take sides in any dispute. We will only take the side of your child and this will require us to be neutral at all times.

Christchurch Kindergarten Children's Nursery Limited

Settling In Policy

At **Christchurch Kindergarten Children's Nursery Limited** our aim is to work in partnership with parents to help them become familiar with the setting and offer a settled relationship for the child. We know children learn best when they are healthy, safe and secure, we build positive relationships with parents to ensure we can meet children's individual needs and help them settle quickly into nursery life.

All our staff know about the importance of building strong attachments with children. They are trained to recognise the different stages of attachment and use this knowledge to support children and families settling into the nursery.

Our settling in procedure includes:

- Allocating a key person to each child and his/her family, before he/she starts to attend. The key person welcomes and looks after the child, ensuring that their care is tailored to meet their individual needs. He/she offers a settled relationship for the child and builds a relationship with his/her parents during the settling in period and throughout his/her time at the nursery, to ensure the family has a familiar contact person to assist with the settling in process
- Reviewing the nominated key person if the child is bonding with another member of staff to ensure the child's needs are supported
- Providing parents with relevant information about the policies and procedures of the nursery
- Working with parents to gather information before the child starts on the child's interests, likes and dislikes and their favourite things available at settling sessions, e.g. their favourite story or resource, as well as completing *All about me and Flower chart* of the child's current development to plan, and meet, the individual needs of the child from the first day
- Planning tailored settling-in visits and introductory sessions, following any necessary government advice
- Welcoming parents to stay with their child, applicable to the individual branch (one hour/day for the first week. Settling-in visits and introductory sessions are key to a smooth transition and to ensuring good communication and information sharing between staff and parents. We understand that some children may take a bit longer to settle, and we want to reassure parents by collaborating with them on a tailored plan. Our approach includes offering each paying child five complimentary one-hour sessions to aid in their settlement. If we determine that additional sessions are necessary, we will recommend this to the parents, and a minimal fee will apply.
- Encouraging parents to send in family photos to display to help settle the child

- Creating photo books of the setting, including photos of staff for the child to take home and share with their parent, and becoming familiar with the staff and the new environment (*Our settling-in book*).
- Reassuring parents whose children seem to be taking a little longer to settle in and developing a plan with them, for example, shorter days, where possible
- Providing regular updates and photos of the children settling
- Encouraging parents, where appropriate, to separate themselves from their children for brief periods at first, gradually building up to longer absences
- Assigning a buddy or back-up key person to each child in case the key person is not available. Parents are made aware of this to support the settling process and attachment
- Respecting the circumstances of all families, including those who are unable to stay for long periods of time in the nursery and reassure them of their child's progress towards settling in
- Not taking a child on an outing from the nursery until he/she is completely settled.

Christchurch Kindergarten Children's Nursery Limited

Sickness and Illness Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we promote the good health of all children attending, including oral health by:

- Asking parents to keep children at home if they are unwell. If a child is unwell, it is in their best interest to be in a home environment rather than at nursery with their peers
- Asking staff and other visitors not to attend the setting if they are unwell
- Helping children to keep healthy by providing balanced and nutritious snacks, meals and drinks
- Minimising infection through our rigorous cleaning and hand-washing processes (see Infection control policy)
- Ensuring children have regular access to the outdoors and having good ventilation inside
- Sharing information with parents about the importance of the vaccination programme for young children to help protect them and the wider society from communicable diseases
- Sharing information from the Department of Health that all children aged 6 months – 5 years should take a daily vitamin
- Having areas for rest and sleep, where required and sharing information about the importance of sleep and how many hours young children should be having.

Our procedures

In order to take appropriate action of children who become ill and to minimise the spread of infection we implement the following procedures:

- If a child becomes ill during the nursery day, we contact their parent(s) and ask them to pick up their child as soon as possible. During this time we care for the child in a quiet, calm area with their key person (wearing PPE), wherever possible
- We follow the guidance published by UK Health Security Agency for managing specific infectious diseases¹¹ and advice from our local health protection unit on exclusion times for specific illnesses, e.g. sickness and diarrhoea, measles and chicken pox, to protect other children in the nursery
- Should a child have an infectious disease, such as sickness and diarrhoea, they must not return to nursery until they have been clear for at least 48 hours
- We inform all parents if there is a contagious infection identified in the nursery, to enable them to spot the early signs of this illness. We thoroughly clean and sterilise

¹¹ <https://www.gov.uk/government/publications/health-protection-in-schools-and-other-childcare-facilities/managing-specific-infectious-diseases-a-to-z>

all equipment and resources that may have come into contact with a contagious child to reduce the spread of infection

- We notify Ofsted as soon as is reasonably practical, but in any event within 14 days of the incident of any food poisoning affecting two or more children cared for on the premises
- We ask parents to keep children on antibiotics at home for the first 48 hours of the course (unless this is part of an ongoing care plan to treat individual medical conditions, e.g. asthma and the child is not unwell). This is because it is important that children are not subjected to the rigours of the nursery day, which requires socialising with other children and being part of a group setting, when they have first become ill and require a course of antibiotics
- We have the right to refuse admission to a child who is unwell. This decision will be taken by the manager on duty and is non-negotiable
- We make information and posters about head lice readily available and all parents are requested to regularly check their children's hair. If a parent finds that their child has head lice, we would be grateful if they could inform the nursery so that other parents can be alerted to check their child's hair.

Meningitis procedure

If a parent informs the nursery that their child has meningitis, the nursery manager will contact the Local Area Infection Control (IC) Nurse. The IC Nurse will give guidance and support in each individual case. If parents do not inform the nursery, we may be contacted directly by the IC Nurse and the appropriate support given. We will follow all guidance given and notify any of the appropriate authorities including Ofsted where necessary.

We will follow the transporting children to hospital procedure in any cases where children may need hospital treatment.

The nursery manager or selected staff member must:

- Inform a member of the management team immediately
- Call 999 for an ambulance immediately if the illness is severe. *DO NOT attempt to transport the unwell child in your own vehicle***
- Follow the instructions from the 999 call handler
- Whilst waiting for the ambulance, a member of staff must contact the parent(s) and arrange to meet them at the hospital
- Redeploy staff if necessary to ensure there is adequate staff deployment to care for the remaining children. This may mean temporarily grouping the children together
- Arrange for the most appropriate member of staff to accompany the child, taking with them any relevant information such as registration forms, relevant medication sheets, medication and the child's comforter
- Remain calm at all times. Children who witness an incident may well be affected by it and may need lots of cuddles and reassurance. Staff may also require additional support following the accident. If a child has an accident see accident policy.

Christchurch Kindergarten Children's Nursery Limited

Sleep Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we aim to ensure that all children have enough sleep to support their development and natural sleeping rhythms in a safe environment.

The safety of babies' sleep is paramount. Our policy follows the advice provided by The Cot Death Society and Lullaby Trust to minimise the risk of sudden infant death syndrome (SIDS). We make sure that:

- Babies are placed on their backs to sleep. If a baby has rolled onto their tummy, we turn them onto their back again unless they are able to roll from back to front and back again on their own, in which case we enable them to find their own position
- Babies and toddlers are never put down to sleep with a bottle to self-feed
- Babies and toddlers are monitored visually when sleeping looking for the rise and fall of the chest and if the sleep position has changed
- Checks are recorded every 10 minutes and as good practice we monitor babies under six months or a new baby sleeping during the first few weeks every five minutes until we are familiar with the child and their sleeping routines, to offer reassurance to them and families
- Babies and children are never left to sleep in a separate sleep room without staff supervision at all times. A sleep chart is followed.

We provide a safe sleeping environment by:

- Monitoring the room temperature
- Using clean, light bedding or blankets and ensuring babies are appropriately dressed for sleep to avoid overheating
- Only using safety-approved cots and other suitable sleeping equipment (i.e. mats) that are compliant with British Standard regulations
- Using a firm and flat mattress and waterproof mattress covers in conjunction with a clean fitted sheet
- Only letting babies sleep in prams if they lie flat and we have written permission from the parent
- Not using cot bumpers or cluttering cots with soft toys, although comforters may be given where required
- Keeping all spaces around cots and beds clear from hanging objects i.e. hanging cords, blind cords, drawstring bags
- Ensuring every baby and toddler is provided with clean bedding labelled for them and working in partnership with parents to meet any individual needs, e.g. if a child prefers to sleep in a sleeping bag, we will ask parents to bring one from home

- Cleaning all bedding as required and at least weekly
- Transferring any baby who falls asleep while being nursed by a practitioner to a safe sleeping surface to complete their rest
- Transferring a baby/child who is brought into nursery while sleeping to a safe sleeping surface to complete their rest
- Having a No smoking/vaping policy.

We ask parents to inform on their child's sleeping routine with the child's key person when the child starts at nursery and these are reviewed and updated at timely intervals. If a baby has an unusual sleeping routine or a position that we do not use in the nursery i.e. babies sleeping on their tummies or in a sling, we will explain our policy to the parents and not usually offer this unless the baby's doctor has advised the parent of a medical reason to do so. In such cases, we would ask parents to sign to say they have requested we adopt a different position or pattern on the sleeping babies form.

We recognise parent knowledge of their child with regard to sleep routines and will, where possible, work together to ensure each child's individual sleep routines and well-being continues to be met. However, staff will not force a child to sleep or keep them awake against his or her will. They will also not usually wake children from their sleep.

Individual sleep routines are followed rather than one set sleep time for all children. We create an environment that helps to settle children that require a sleep, for example dimming the lights or using soft music, where applicable. We will maintain the needs of the children that do not require a sleep and ensure they can continue to play, learn and develop. This may involve taking children outdoors or linking with other rooms or groups of children.

Staff will discuss with parents any changes in sleep routines at the end of the day and share observations and information about children's behaviour if they do not receive enough sleep.

Sleeping twins

We follow the advice from The Lullaby Trust regarding sleeping twins while working with parents to maintain sleep routines and well-being.

Further information can be found at: <http://www.lullabytrust.org.uk>

Christchurch Kindergarten Children's Nursery Limited

Social Networking Policy

Social media is a large part of the world we live in, and as such, at **Christchurch Kindergarten Children's Nursery Limited**, we need to make sure we protect our children by having procedures in place to ensure the safe use.

We use Facebook & Instagram to share posts, pictures and videos of the experiences and activities the children have accessed at nursery, as well as to post updates, reminders and links to best practice.

To safeguard children, we ensure:

- We have prior written permission in place from parents before posting any images of children
- Only the designated person or management can post on our social media pages
- We have a closed page which only parents and others who have been invited to join the group can view and comment on the posts
- * We have separate permission to use any images for any open public pages that we use for marketing purposes
- We monitor comments on all posts and address any concerns immediately.

Staff use of social media

We require our staff to be responsible and professional in their use of social networking sites in relation to any connection to the nursery, nursery staff, parents or children.

- When using social networking sites such as Facebook or Instagram we ask staff:
 - Not to name the setting they work at
 - Not to make comments relating to their work or post pictures in a work uniform
 - Not to send private messages to any parents or family members
 - To direct any parent questions relating to work via social networking sites, to the manager
 - To ensure any posts reflect their professional role in the community (e.g. no inappropriate social event photos or inappropriate comments i.e. foul language)
 - To report any concerning comments or questions from parents to the manager or designated safeguarding lead
 - To follow the Staff behaviour policy

- Not to post anything that could be construed to have any impact on the nursery's reputation or relate to the nursery or any children attending the nursery in any way
- To follow this in conjunction with the Whistleblowing policy.
- If any of the above points are not followed then the member of staff involved will face disciplinary action, which could result in dismissal.

Note from Citation: Nursery settings are advised at their discretion to decide if staff and parents can connect on social media and should update the procedures based on this decision.

All electronic communications between staff and parents should be professional and take place via the official nursery communication channels, e.g. whatapp work emails and phone numbers. This is to protect staff, children and parents.

Parents' and visitors' use of social networking

We promote the safety and welfare of all staff and children and therefore ask parents and visitors not to post, publicly or privately, information about any child on social media sites such as Facebook, Instagram and Twitter. We ask all parents and visitors to follow this policy to ensure that information about children, images and information do not fall into the wrong hands.

We ask parents **not to**:

- *Send friend requests to any member of nursery staff
- Screen shot or share any posts or pictures from the nursery on social media platforms (these may contain other children in the pictures)
- Post any photographs to social media that have been supplied by the nursery with other children in them (e.g. Christmas concert photographs or photographs from an activity at nursery).

We ask parents to:

- Share any concerns regarding inappropriate use of social media through the official procedures (please refer to the Parents as partners policy, Complaints and compliments policy).

Christchurch Kindergarten Children's Nursery Limited

Special Consideration for Employees Policy

At **Christchurch Kindergarten Children's Nursery Limited**, we recognise that employees may require special consideration during their employment.

Legal requirements

The nursery complies with the legal requirements set out in the Management of Health and Safety at Work Regulations (1992) and the Equality Act (2010).

This policy should be read in conjunction with our Health and Safety - General Policy, which has regard to any employees requiring special consideration at the commencement of employment and during the course of it. See also the Menopause policy.

Procedure

The nursery manager:

- Assesses any employee requiring special consideration in conjunction with the individual on induction to the nursery or when their condition or special educational needs and/or disability is obtained
- Carries out necessary risks assessments to support the employee
- Agrees with the staff member any necessary special measures such as training and supervision, arrangements, modifications and medical surveillance
- Carries out further assessments and reviews at least annually, or if and when any changes to the special circumstances or environment occur.

Special educational needs and/or disabilities

If a member of staff has a special educational need and/or disability, we encourage them to tell us about their condition so that we can consider what reasonable adjustments or support may be appropriate.

Part-time and fixed-term work

Part-time and fixed-term employees are treated the same as comparable full-time or permanent employees and enjoy no less favourable terms and conditions (on a pro-rata basis where appropriate), unless different treatment is objectively justified.

Transgender (transsexual) employees

If an employee proposes, has started, or has already changed their gender, they are protected by the Equality Act (changing gender does not have to involve medical processes or intervention).

When reviewing special considerations for transgender employees, we will seek specialist advice and liaise directly with the employee regarding their requirements. For example, we

enable employees to inform us of their preferred gender and pronouns, we enable trans employees to select the toilet facility

es appropriate to the gender in which they present and we treat absence for transitioning in line with our general absence procedures

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Special Educational Needs and Disabilities (SEND) Policy

This policy has been created regarding:

- The SEND Code of Practice 2015
- Children and Families Act 2014 (Part 3)
- Equality Act 2010
- Working Together to Safeguard Children
- Statutory Framework for the EYFS.

Special Educational Needs and Disability (SEND) code of practice

The nursery has regard to the statutory guidance set out in the Special Educational Needs and Disability Code of Practice to identify, assess and make provision for children's special educational needs.

At **Christchurch Kindergarten Children's Nursery Limited**, we use the SEND Code of Practice definition of Special Educational Needs and Disability:

A child or young person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for him or her.

A child of compulsory school age or a young person has a learning difficulty or disability if he or she:

- *Has a significantly greater difficulty in learning than the majority of others of the same age, or*
- *Has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age.*

Statement of intent

We are committed to the inclusion of all children at our nursery. We ensure all children are cared for and educated to develop to their full potential alongside their peers through positive experiences. We enable them to share opportunities and experiences and develop and learn from each other. We provide a positive and welcoming environment where children are supported according to their individual needs and we work hard to ensure no child is discriminated against or put at a disadvantage as a consequence of their needs. Each child's needs are unique and we do not attempt to categorise children.

We are committed to working in partnership with parents in order to meet each child's individual needs and develop to their full potential. We are committed to working with any child who has a special educational need and/or disability and making reasonable adjustments to enable every child to make full use of the nursery's facilities. All children have a right to a broad and well-balanced early learning environment.

We undertake a Progress Check of all children at age two in accordance with the Code of Practice and statutory framework for the EYFS to support early identification of needs.

We will also undertake the Early Years Foundation Stage Profile (EYFSP) assessment for any children who remain with us in the final term of the year in which they turn five, as per the statutory framework for the EYFS.

We will work closely with the child's parents and any relevant professionals if we identify any areas where a child's progress is less than expected to establish if any additional action is required. This may include:

- Liaising with any professional agencies
- Reading any reports that have been prepared
- Attending any review meetings with the local authority and other professionals
- Observing each child's development and assessing such observations regularly to monitor progress.

All new children will be given a full settling in period when joining the nursery according to their individual needs.

We will:

- Recognise each child's individual needs and ensure all staff are aware of, and have regard for, the Special Educational Needs Code of Practice
- Ensure that all children are treated as individuals and are supported to take part in every aspect of the nursery day according to their individual needs and abilities
- Include all children and their families in our provision
- Identify the specific needs of children with special educational needs and/or disabilities and meet those needs through a range of strategies
- Ensure that children who learn at an accelerated pace, e.g. 'more able' are also supported (see the More able and talented children policy)
- Encourage children to value and respect others
- Provide well informed and suitably trained practitioners to help support parents and children with special educational difficulties and/or disabilities
- Develop and maintain a core team of staff who are experienced in the care of children with additional needs and identify a Special Educational Needs and Disabilities Co-ordinator (SENCo) who is experienced in the care and assessment of children with additional needs. Staff will be provided with specific training relating to SEND and the SEND Code of Practice
- Monitor and review our practice and provision and, if necessary, make adjustments, and seek specialist equipment and services where required
- Challenge inappropriate attitudes and practices

- Promote positive images and role models during play experiences of those with additional needs wherever possible
- Celebrate diversity in all aspects of play and learning
- Work in partnership with parents and other agencies in order to meet individual children's needs, including the education, health and care authorities, and seek advice, support and training where required
- Share any statutory and other assessments made by the nursery with parents and support parents in seeking any help they or the child may need.

Our nursery Special Education Needs and Disabilities Co-ordinator (SENCo) is **[insert name]**.

The role of the SENCo in our setting includes:

- Ensuring all practitioners in the setting understand their responsibilities to children with SEND and the setting's approach to identifying and meeting SEND
- Advising and supporting colleagues
- Ensuring parents are closely involved throughout and that their insights inform action taken by the setting
- Liaising with professionals or agencies beyond the setting
- Taking the lead in implementing the graduated response approach and supporting colleagues through each stage of the process.

We will:

- Designate a named member of staff to be the SENCo and share their name and role with all staff and parents
- Have high aspirations for all children and support them to achieve their full potential
- Develop respectful partnerships with parents and families
- Ensure parents are involved at all stages of the assessment, planning, provision and review of their child's care and education and include the thoughts and feelings voiced by the child, where possible
- Signpost parents and families to our Local Offer in order to access local support and services
- Undertake formal Progress Checks and assessments of all children in accordance with the SEND Code of Practice January and statutory framework for the EYFS
- Provide a statement showing how we provide for children with special educational needs and/or disabilities and share this with staff, parents and other professionals
- Ensure that the provision for children with SEN and/or disabilities is the responsibility of all members of staff in the nursery through training and professional discussions
- Set out in our inclusive admissions practice on how we meet equality of access and opportunity
- Make reasonable adjustments to our physical environment to ensure it is, as far as possible suitable for children and adults with disabilities using the facilities

- Provide a broad, balanced, aspirational early learning environment for all children with SEN and/or disabilities and differentiated activities to meet all individual needs and abilities
- Liaise with other professionals involved with children with special educational needs and/or disabilities and their families, including transition arrangements to other settings and schools (see our Transitions policy)
- Use the graduated approach response system to assess, plan, do and review to ensure early identification of any SEND
- Ensure that children with special educational needs and/or disabilities and their parents are consulted at all stages of the graduated response, taking into account their levels of ability
- Review children's progress and support plans **accordingly to individual Baroow** and work with parents to agree on further support plans
- Provide privacy of children with special educational needs and/or disabilities when intimate care is being provided
- Raise awareness of any specialism the setting has to offer, e.g. Makaton trained staff
- Ensure the effectiveness of our SEN and disability provision by collecting information from a range of sources, e.g. additional support reviews, Education, Health and Care (EHC) plans, staff and management meetings, parental and external agencies' views, inspections and complaints. This information is collated, evaluated and reviewed annually
- Provide a complaints procedure and make available to all parents in a format that meets their needs, e.g. Braille, audio, large print, additional languages
- Monitor and review our policy and procedures annually.

Effective assessment of the need for early help

We are aware of the process for early help and adhere to the following procedure:

Local agencies should work together to put processes in place for the effective assessment of the needs of individual children who may benefit from early help services. Children and families may need support from a wide range of local agencies. Where a child and family would benefit from coordinated support from more than one agency (e.g. education, health, housing, police) there should be an inter-agency assessment. These early help assessments should identify what help the child and family require to prevent needs escalating to a point where intervention would be needed via a statutory assessment under the Children Act 1989.

The early help assessment should be undertaken by a lead professional who should provide support to the child and family, act as an advocate on their behalf and coordinate the delivery of support services. The lead professional role could be undertaken by a General Practitioner (GP), family support worker, teacher, health visitor and/or special educational needs coordinator. Decisions about who should be the lead professional should be taken on a case-by-case basis and should be informed by the child and their family.

For an early help assessment to be effective:

- The assessment should be undertaken with the agreement of the child and their parents. It should involve the child and family as well as all the professionals who are working with them
- A teacher, GP, health visitor, early years worker or other professional should be able to discuss concerns they may have about a child and family with a social worker in the local authority. Local authority children's social care should set out the process for how this will happen
- If parents and/or the child do not consent to an early help assessment, then the lead professional should make a judgement as to whether, without help, the needs of the child will escalate. If so, a referral into local authority children's social care may be necessary.

If at any time it is considered that the child may be a child in need as defined in the Children Act 1989, or that the child has suffered significant harm, or is likely to do so, a referral should be made immediately to local authority children's social care. This referral can be made by any professional (*Working together to safeguard children*).

Graduated response approach

We follow the SEND Code of Practice recommendation that, in addition to the formal checks above, we adopt a graduated approach to assessment and planning, led and coordinated by a SENCO. Good practice of working together with parents, and the observation and monitoring of children's individual progress, will help identify any child with special educational needs or disability. This graduated approach will be led and coordinated by our SENCO and appropriate records will be kept according to the Code of Practice.

Assess

In identifying a child as needing SEND support, the key person, working with the SENCO and the child's parents, will carry out an analysis of the child's needs. This initial assessment will be reviewed regularly to ensure that support is matched to need. Where there is little or no improvement in the child's progress, more specialist assessment may be called for from specialist teachers or from health, social services or other agencies beyond the setting. Where professionals are not already working with the setting, the SENCO will contact them, with the parents' agreement.

Plan

Where it is decided to provide SEND support, and having formally notified the parents, the key person and the SENCO, in consultation with the parents, will agree the outcomes they are seeking, the interventions and support to be put in place, the expected impact on progress, development or behaviour, and a clear date for review. Plans will take into account the views of the child.

The support and intervention provided will be selected to meet the outcomes identified for the child, based on reliable evidence of effectiveness, and provided by practitioners with

relevant skills and knowledge. Any related staff development needs are identified and addressed. Parents will be involved in planning support and, where appropriate, in reinforcing the provision or contributing to progress at home.

Do

The child's key person will be responsible for working with the child on a daily basis. With support from the SENCO, they will oversee the implementation of the intervention agreed as part of SEN support. The SENCO will support the key person in assessing the child's response to the action taken, in problem solving and advising on the effective implementation of support.

Review

The effectiveness of the support and its impact on the child's progress will be reviewed in line with the agreed date. The impact and quality of the support will be evaluated by the key person and the SENCO in full consultation with the child's parents and taking into account the child's views. Information will be shared with parents about the impact of the support provided.

Education and Health Care Plan (EHCP)

Some children and young people may require an EHC needs assessment to determine whether an EHC plan is necessary. The purpose of an EHC plan is to make adjustments and provide support to meet the child's special educational needs, to secure the best possible outcomes for them across education, health and social care.

The local authority will conduct the EHC needs assessment and consider a wide range of evidence, including:

- Evidence of the child's developmental milestones and rate of progress
- Information about the nature, extent and context of the child's SEND
- Evidence of the action already being taken by us as the early years provider to meet the child's SEND needs
- Evidence that, where progress has been made, it has only been as a result of much additional intervention and support over and above that which is usually provided
- Evidence of the child's physical, emotional and social development and health needs, drawing on relevant evidence from clinicians and other health professionals and what has been done to meet these by other agencies.

We will then work with the local authority and other agencies to ensure that the child receives the support they need to gain the best outcomes.

We will review this policy annually to ensure it continues to meet the needs of the children, parents and our nursery.

Christchurch Kindergarten Children's Nursery Limited

Staff Code of Conduct

At **Christchurch Kindergarten Children's Nursery Limited**, we take the safety and welfare of our children and staff seriously. This policy ensures staff behave in an appropriate manner, act as role models, and protect all children in their care. Within this policy, we will also ensure that any changes to staff behaviours or ways of working are closely monitored, discussed, and supported, to safeguard all children throughout their time here.

Expected staff behaviour

Within our nursery, we expect our staff to:

- Put our children first. The safety, welfare and ongoing development of children is the most important part of their role
- Behave as a positive role model for the children in their care by remaining professional at all times and demonstrating caring attitudes to all
- Work as part of the wider team, cohesively and openly
- Be aware of their requirements under the Statutory Framework for the EYFS and the nursery policies and procedures designed to keep children safe from harm whilst teaching children and supporting their early development
- React appropriately to any safeguarding concerns quickly and concisely in accordance with relevant procedures and training received
- Not share any confidential information relating to the children, nursery or families using the nursery
- Maintain the public image of the nursery and do nothing that will put the setting into disrepute
- Ensure that parental relationships are professional and external social relationships are not forged. If a relationship exists prior to the child starting at the setting, discussions with management will be held to ensure the relationship remains professional
- Adhere to the Mobile phone and electronic device use policy and Social networking policy
- Report to management immediately any changes in their personal life that may impact on the ability to continue the role. These may include (but are not limited to) changes in police record, medication or any social service involvement with their own children.

Monitoring staff behaviour

Within the nursery we:

- Conduct regular peer observations using all staff and management, during which we observe interactions between staff and children

- Have regular supervisions with all staff in which ongoing suitability is monitored and recorded
- Have a Whistleblowing policy that enables team members to discuss confidentially any concerns about their colleagues
- Operate staff suitability checks and clauses in staff contracts to ensure any changes in their suitability to work with children are reported immediately to management
- Ensure all new staff members are deemed suitable with the appropriate checks as detailed in the Safer recruitment of staff policy.

Some behaviours that may cause concern and will be investigated further include:

- Change in moods
- Sudden change in religious beliefs and/or cultural beliefs (which may indicate radicalisation)
- Changes in the way they act towards the children or the other members of the team (becoming more friendly and close, isolation, avoidance, agitation etc.)
- Sudden outbursts
- Becoming withdrawn
- Secretive behaviours
- Missing shifts, calling in sick more often, coming in late
- Standards in work slipping
- Extreme changes in appearance.

Procedures to be followed:

If we have a concern about changes in staff behaviour within the nursery, an immediate meeting will be called with the individual and a member of management to ascertain how the person is feeling. We will aim to support the staff wherever possible and will put support mechanisms in place where appropriate.

Ultimately, we wish to ensure all staff are able to continue to work with the children as long as they are suitable to do so, but if any behaviours cause concern regarding the safety or welfare of the children then the Safeguarding children and child protection policy will be followed. In the case of allegations against a staff member, the Local Authority Designated officer (LADO) will be contacted.

All conversations, observations and notes on the staff member will be logged and kept confidential.

Christchurch Kindergarten Children's Nursery Limited

Staff Development and Training Policy

At **Christchurch Kindergarten Children's Nursery Limited** we value our staff highly. We believe that ongoing personal and professional development is essential for the delivery of high-quality learning and development opportunities for children in their early years.

The overall quality of our nursery is underpinned by our staff having the appropriate qualifications, training, skills, knowledge, and a clear understanding of their roles and responsibilities.

Every staff member is given the opportunity to further develop their training, knowledge and skills through a comprehensive and targeted programme of professional development. High-quality professional supervision is also provided, supporting each staff member with coaching and training and promoting the interests of children. Each meeting is planned based on individual performance-related targets, consistent and sharply focused observation and evaluations of the impact of staff's practice.

We ensure that **50%** of staff are qualified to Level 3 (or equivalent) or above in childcare and education, or as an Early Years Educator. Other staff working at the nursery are either qualified to Level 2 or are undertaking training. Where necessary, staff will be supported to achieve a suitable Level 2 *qualification in English (as defined by the Department for Education on the Early Years Qualifications List) to complete the Early Years Educator*. We ensure staff have adequate mathematical knowledge to deliver the EYFS curriculum effectively.

We ensure that setting managers appointed on or after 4 January 2024 hold a level 2 maths qualification, or they achieve one within two years of starting in the position. We follow the Early Years Qualification requirements and Standards Effective January 2026.

In addition to this, we ensure that all level 2 and/or level 3 qualified staff (on or after 30 June 2016) have either a full paediatric first aid (PFA) or an emergency PFA certificate within three months of starting work and ongoing in order to include them in the required staff: child ratios at level 2 or level 3.

We strongly promote continuous professional development and all staff have individual training records and training plans to enhance their skills and expertise, which are based on discussions at supervision meetings and appraisal meetings.

To facilitate the development of staff we:

- Coach, mentor, lead and offer encouragement and support to achieve a high level of morale and motivation
- Promote teamwork through ongoing communication, involvement and a no blame culture to enhance nursery practice
- Provide opportunities for delegation based on skills and expertise to offer recognition and empower staff
- Encourage staff to contribute ideas for change within the nursery and hold regular staff meetings and team meetings to develop these ideas. Regular meetings are also held to discuss strategy, policy and activity planning
- Encourage staff to further their experience and knowledge by attending relevant external training courses
- Encourage staff to pass on their knowledge to those who are less experienced and share knowledge from external training with small groups of staff within the nursery by using **cascade notes template**
- Provide regular in-house training relevant to the needs of the nursery
- Carry out regular *monthly/*bi-monthly supervision meetings with all staff. These provide opportunities for staff to discuss any issues particularly concerning children's development or well-being including child protection concerns, identify solutions to address issues as they arise and receive coaching to improve their personal effectiveness. Staff appraisals are carried out *annually/*
- Develop a training plan that sets out the aims and intended outcomes of any training, addressing both the qualification and continuous professional development needs of the nursery and individual staff
- Carry out training need analyses for all individual staff, the team as a whole, and for the nursery during one to one supervision.
- Promote a positive learning culture within the nursery
- Offer annual team building training
- Carry out full evaluations of all training events and use these to evaluate the training against the aims set to enable the development of future training programmes to improve effectiveness and staff learning
- Provide inductions to welcome all new staff and assign a 'work buddy' to coach, mentor and support new staff
- Offer ongoing support and guidance
- Offer varied information sources including membership of local and national organisations, resources, publications and literature to all staff.

Christchurch Kindergarten Children's Nursery Limited

Staff Well-being Policy

At **Christchurch Kindergarten Children's Nursery Limited** we promote the good health and well-being of all our staff. As a nursery, we endeavour to support staff well-being, not only to ensure that children receive high-quality care, but also to ensure our employees feel supported and cared for, as part of a team.

Mental ill-health is usually caused by a combination of work and non-work-related factors. There is a myriad of reasons for mental ill-health, from the pressure of ongoing change at work to longer or more intense hours exacerbated by financial pressures at home, or relationship problems and greater caring responsibilities. Striking the balance between what is considered appropriate results, or output, and robust mental health is tricky. We are committed to continually upskilling ourselves so that we know how to create and maintain conditions that support and encourage good mental health, as well as to recognise the signs of mental ill health and provide appropriate support.

We recognise the importance of safeguarding the mental health of all of our employees, by providing a happy and nurturing working environment. With statistics in the UK showing that each week 1 in 6 of us experiences a common mental health problem, we are committed to acknowledging and supporting our staff's physical and emotional needs.

Our ethos

We know that the care and education of babies and young children is highly rewarding. However, we are also aware of the day-to-day demands and pressures of modern life such as family life, financial worries, health concerns and work-life balance and how these pressures, alongside the role of providing high quality care and education to babies and young children, can place a high level of demand on all of our employees.

In order to support our staff team, the management team put procedures in place that ensure staff well-being remains one of the key focuses of our practice. In doing this, we aim to provide our team with a safe, inclusive and nurturing working environment that acknowledges their needs, not just within the workplace but as a whole person.

The Manager is the named member of staff who leads our setting's well-being practice. They offer support on staff well-being and know where to access external support.

The Manager is also committed to keeping their well-being and mental health knowledge up-to-date and is responsible for reviewing our practices, supporting the developing

knowledge of the whole staff team, to ensure we are implementing the necessary strategies to safeguard the well-being of our staff.

Procedures to minimise work related stress:

- To manage work-related stress linked to demands, control, support, relationships, role and change (see Health and Safety Executive advice¹²The managers use different resources.
- To ensure staff are supported within the setting, new staff will receive a full induction, so they feel competent and capable to carry out their role and responsibilities
- Staff will receive ongoing training, coaching and mentoring to ensure that they are supported to feel confident in their role and to minimise stress within the workplace
- Regular supervisions take place in which staff well-being is discussed and recorded
- Practitioners are respected and valued in their work, whatever their role. Tasks are shared out appropriately according to their role and level of responsibility, the workload is monitored and reviewed on a regular basis
- Staff are encouraged to have a healthy work-life balance; this is supported by ensuring the workload is monitored so that it is not necessary for staff to work outside of their scheduled hours. All contributions to work are valued and celebrated
- We carefully review our expectations around the amount of paperwork that staff must complete, including observations and assessments of children. We work as a team to ensure all record keeping is meaningful and kept to an appropriate level so as not to add undue pressure to staff members
- We work hard to maintain a reflective culture within the setting that encourages feedback from staff about management procedures and working relationships. This reflective culture supports an environment of teamwork, facilitating the involvement of every member of staff in the practice of our setting
- Staff are encouraged to take their required breaks at appropriate intervals to ensure they have time to rest and recuperate, with time away from busy rooms
- The nursery manager and well-being representative are available for staff to come and discuss any issues or concerns
- The nursery ensures that confidential conversations take place in private, away from other staff members and children
- All information remains confidential or on a need to know basis to support the facilitation of open and honest conversations. However, where the manager or the well-being representative feels there is a question around the safety of the staff member, they will refer to outside agencies for support and guidance. These measures will be discussed in a sensitive and understanding manner with the staff member, as appropriate
- We actively promote a culture of mutual respect, tolerance and cooperation tolerance, in line with the British values

¹² <https://www.hse.gov.uk/stress/risk-assessment.htm>

- Team meetings are facilitated to support with team development, to raise awareness of mental health and well-being by engaging staff in conversations about how the setting maintains a supportive environment
- We promote a culture that supports any staff member who is experiencing a mental health related illness to discuss this and reasonable adjustments will be made to support any staff experiencing stress and any mental health issues
- If the nursery is made aware of any member of staff who requires support, a plan for more regular support sessions and adjustments to their working day will be discussed and decided in partnership with the staff member. This plan will be reviewed regularly and adapted to ensure it is relevant and appropriate (see Supporting staff members individually section)
- If adjustments are unable to meet the needs of the member of staff or the nursery, then further advice and support will be sought
- Staff well-being and staff self-care information is available within designated staff areas
- Leaders and managers support practitioners in a safe culture where bullying, harassment and discrimination are not tolerated, along with a culture that challenges and deals with any inappropriate behaviour in a timely manner; we have anonymous procedures to encourage reporting sexual harassment
- We have a zero tolerance approach towards discriminatory behaviour and sexual harassment
- Training includes an appropriate understanding that harassment, of any kind, is subjective and so depends on how the behaviour makes someone feel in order to create a culture of zero tolerance towards sexual harassment, in particular
- If a member of staff is returning to work after a period of absence, a back to work interview is carried out as per our Absence management procedure.

Supporting staff members individually

We include well-being as part of our discussions at staff supervision sessions and appraisals. During these sessions, we work with staff on an individual basis, and have well-being discussions to ascertain any individual well-being needs. Where the manager and staff member feel it is appropriate, they will draw up an individual action plan, including reviewing workload and any stress triggers. With the needs of the nursery also in mind, reasonable adjustments will be made for the member of staff; this could include flexible working agreements (see below), changes in environment, adjustments to job roles and responsibilities, more frequent breaks, a working buddy, or any other appropriate measure that it is felt could be helpful.

Flexible working requests

Employees can request either morning or afternoon shifts or term time and full year.

We follow all statutory guidance on the safeguarding of our workforce and as stated, if the manager is concerned about the safety of a member of staff, we will work with the

Designated Safeguarding Lead to ask for support from the appropriate external agencies; this is to ensure the continued safety of our workforce at all times.

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Staff Working with Their Own Children/ Close Relation Policy

At **Christchurch Kindergarten Children's Nursery Limited** we support all employees returning to work after having a baby and understand that there may be times when a member of staff chooses our nursery to provide childcare alongside them working or that there may be occasions when a member of staff is working in the same environment as a close relation, e.g. niece or nephew.

In these cases, we request the member of staff meet with the nursery manager and room leader, where appropriate, to discuss how best this will work alongside the nursery business needs.

We believe children learn best when they are healthy, safe and secure, have their individual needs met and have a positive relationship with the staff caring for them. It is our policy that all staff remain neutral and treat all children as individuals with the same regard.

When looking to accommodate staff members working alongside their own child or close relative in the nursery, we will make a decision and agreement based on the following circumstances:

- The individual needs of the child, including if they have any special educational needs and/or disabilities
- The number of rooms, number of staff, staff deployment and ratios
- Age or stage of development of the child
- Staff member's expertise and where and when they usually work
- Days and times the child attends
- Transition arrangements.

Whether the child or close relation is better placed within the same room or a different room from the staff member will be decided on a case-by-case basis.

Once a decision has been made, an agreed set of guidelines will be developed between the nursery and the member of staff setting out the expectations of working with their child or close relation. This includes agreeing that during their time at nursery the child is in the care of the nursery, it is the nursery that retains responsibility for the child and their care and agreeing what they will do if they need to cover in different rooms, outdoor play etc. A similar agreement will be put in place for any staff who do not have direct care of the children, e.g. manager, cook, admin but whose own child or family member attends the setting.

Staff caring for another staff member's child will treat them as they would any other parent and child.

Where this agreement is not working or is impacting on the care of the child or other children in the room, the manager will meet with the member of staff to review the agreement and the following will be considered:

- Time left until the child is due to transition to the next room or school
- Temporarily moving the staff member to another room. It is nursery policy to move the staff member and not the child (unless transitioning) so the child continues to be in the appropriate group and can forge consistent relationships with other children
- Where the staff member is already in another room but there are concerns, there will be an agreement between the staff member, manager and room leader about contact with the child during the nursery day. Although we do not want to restrict a parent seeing their child, we must consider the room routine and the upset a visit may cause the child when their parent leaves the room again.

Breastfeeding

Where a staff member's baby requires breastfeeding, the nursery will adapt the above guidelines to suit both the baby's and mother's needs. Cover will be provided during this time.

Christchurch Kindergarten Children's Nursery Limited

Student Policy

At **Christchurch Kindergarten Children's Nursery Limited** we are committed to sharing good practice with those wishing to pursue a career in childcare. We welcome students to join our staff team and gain work experience within our nursery. We will accept **one student** at a time as more students than this places undue pressure on staff. We do, however, accept small groups or occasional placements when research or studies are being carried out that will be of benefit to childcare.

We expect all students to visit the nursery for an interview, followed by their student induction and nursery tour. At this time, students will have the opportunity to read and discuss relevant health and safety policies, receive a copy of the Student Handbook and sign their contract in readiness for their first day.

Our policy for those on placements is as follows:

- All students will have an enhanced Disclosure and Barring Service (DBS) check before their placement begins
- All students are assigned to a senior member of staff who will supervise their work and explain the health, safety and fire requirements of the nursery
- Students will be supervised at all times by the member of staff assigned to them and will not be left alone with the children. They may only change nappies if the manager is satisfied they are competent, responsible and know the children well enough and always under close supervision
- Students will be supported to understand nursery policies and procedures including Safeguarding children and child protection policy, Health and safety – general policy, Inclusion and equality policy, Anti-Bribery policy and Whistleblowing policy
- All students are required to maintain our Data protection and confidentiality policy
- It is expected that during the student's placement, their tutor will visit the nursery or have verbal communication with the Student Co-ordinator to receive feedback about the student's progress
- Students will be offered support and guidance throughout their placement and given constructive, honest feedback in respect of their performance. Staff will respect individual students' needs and abilities
- An accurate evaluation of ability and performance for both students and training providers will be provided and the nursery will support students who are experiencing difficulties with action plans if needed
- To maintain parent partnerships, parents will be informed when students are present in the nursery, e.g. via the parent noticeboard. Wherever possible this will be accompanied by a recent photograph of the student
- All students are encouraged to contribute fully to the nursery routine and to spend some time in every area.

- In some cases, we may include suitable students on long-term placements (aged 17 and over) and staff working as apprentices in early education (aged 16 and over) in our staff: child ratios at the level below their level of study. This will be the discretion of the manager and will only occur when the manager is satisfied that the student or apprentice is competent and responsible and if they hold a valid and current paediatric first aid (PFA) qualification.

Christchurch Kindergarten Children's Nursery Limited

Supervision of Children Policy

At **Christchurch Kindergarten Children's Nursery Limited** we have suitable staffing arrangements to meet the needs of all children and ensure their safety.

The nursery manager is responsible for all staff, students, relief and agency staff receiving information on health and safety policies and procedures in the nursery in order to ensure they are adequately supervising the children, including whilst they are eating.

Supervision of children

We ensure that children are supervised adequately at all times, whether children are in or out of the building, including eating through:

- Appropriately deploying staff members meeting the ratio and qualification requirements to ensure children's needs are met and continuing to monitor this across the setting regularly. This includes informing parents about staff deployment . Making sure that every child is always within the sight and/or hearing of a suitably vetted member of staff
- Whilst eating, every child will be within sight and hearing of a suitably competent member of staff; there will always be a member of staff in the room with a valid paediatric first aid certificate
- Completing registers as soon as soon children enter and leave the premises and carrying out head counts throughout the day
- Risk assessing activities, experiences and equipment to ensure children are not exposed to unnecessary risks, including removal of any choking hazards and fully supervising any activities that may pose this risk
- Ensuring children are fully supervised at all times when involved in all types of water play as we are aware that children can drown in only a few centimetres of water
- Taking special care when children are using large apparatus, e.g. a climbing frame, and when walking up or down steps or stairs
- Support children to identify, minimise and manage risks in their play
- Making sure staff recognise and are aware of any dangers relating to bushes, shrubs and plants when on visits or outdoors
- Supervising children at all times when eating, monitoring toddlers and babies closely and never leaving babies alone with a bottle. Babies are always bottle fed by a member of staff
- Supervising sleeping babies and children and never leaving them unattended
- Never leaving babies or children unattended during nappy changing times
- Supervising children carefully when using scissors or tools, including using knives in cooking activities where this is required.

- Strictly following any safety guidelines given by other organisations or companies relating to the hire of equipment or services, e.g. hire of a bouncy castle
- A member of staff **MUST** always supervise the children.

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Supervision of Visitors Policy

Christchurch Kindergarten Children's Nursery Limited we take all reasonable steps to ensure the safety of children in our care. This includes making sure any visitors to the nursery are properly identified and supervised at all times.

All visitors must sign the visitors' book on arrival and departure.

Visitors may include prospective parents, other professionals, e.g. local authority workers, Ofsted inspectors, people in the community that may come to talk to the children (e.g. librarians), contractors to complete work, deliveries etc.

Where applicable, we ask visitors to book in advance, so arrangements can be made to accompany them. The identity is checked of any visitors attending in a professional capacity, e.g. Ofsted inspectors, speech and language therapists.

All visitors are informed of any relevant policies including the Fire safety procedures and Mobile phone and electronic device use policy including the use of smartwatches and other devices capable of recording or sharing audio and/or images, e.g. smart (camera) glasses.

Security of premises

- All external doors must be kept locked at all times and external gates closed. All internal doors and gates must be kept closed to ensure children are not able to leave the nursery unattended
- Staff, parents, visitors and students are reminded not to hold doors open or allow entry to any person, whether they know this person or not. Staff within the nursery should be the only people allowing external visitors and parents entry to the nursery.

The nursery will under no circumstances tolerate any form of harassment from third parties, including visitors, towards others, including children, staff members and parents. The police may be called in these circumstances.

Christchurch Kindergarten Children's Nursery Limited

Supervision Policy

At **Christchurch Kindergarten Children's Nursery Limited** we implement a system of supervision for all of our staff following their induction and probation period. Supervision is part of the nursery's overall performance management system and promotes a culture of mutual support, teamwork and continuous improvement. It encourages the confidential discussion of sensitive issues including the opportunity for staff and their managers to:

- Discuss any issues – particularly concerning children's development or well-being, including child protection concerns
- Identify solutions to address issues as they arise
- Receive coaching to improve their personal effectiveness
- Develop their own skills or training needs in order to progress in their role
- Discuss any concerns relating to changes in personal circumstances that might affect an individual's ability or suitability to work with children. (This should include any incidents resulting in a reprimand, caution or prosecution by the police, any court orders or changes to their health. These changes are recorded as a declaration on the individual member of staff's supervision form and appropriate action is taken, where applicable, in line with the Safeguarding children and child protection policy and Disciplinary procedure).

The frequency of supervision meetings is termly .. A template agenda is used in all meetings to ensure consistency across the nursery. This clearly sets out who does what and the timeframe, i.e. what the manager is responsible for and what the practitioner needs to do.

There should always be something that a member of staff can discuss, e.g. a particular child's development, strengths or concerns. However, if there are times where staff may be struggling to identify areas to discuss in a supervision, we will ask them to identify three things they have enjoyed about their job or that they have done well since the last supervision and one thing they have least enjoyed or requires further improvement. They will be asked to complete this prior to supervision (as set out in their responsibilities).

There may be times when supervision may be increased for members of the team as and when needed, i.e. if they have particular concerns about a child or if they are going through personal circumstances at home, for new starters, staff returning after long-term illness or on request from staff.

It is the responsibility of the manager to plan time to ensure that all staff receive supervision.

At **Christchurch Kindergarten Children's Nursery Limited** supervision is carried out by the *manager/*deputy/*room leaders/ *line manager. If for any reason a supervision is cancelled a new date will be rearranged within *3/*5/*7 days.

All members of staff responsible for carrying out supervision are trained and supported prior to carrying them out.

Staff have a responsibility to ensure that they are available for supervision meetings and that the necessary paperwork is complete. Information shared in supervision sessions is confidential. The supervision process will be evaluated *once/*twice a year through staff feedback and is used as part of the overall performance monitoring system at the nursery.

Christchurch Kindergarten Children's Nursery Limited

Transition Policy

At **Christchurch Kindergarten Children's Nursery Limited** we recognise that young children will experience many transitions in their early years; some of these planned and some unplanned. We are sensitive to the impact of such changes to children and this policy sets out the ways in which we support children going through these transitions.

Some examples of transitions that young children and babies may experience are:

- Starting nursery
- Moving between different rooms within the nursery
- Starting school or moving nurseries
- Family breakdowns
- New siblings
- Moving home
- Death of a family member or close friend
- Death of a family pet.

Staff are trained to observe their key children and to be sensitive to any changes in their behaviour and personality. We respectfully ask that parents inform us of any changes in the home environment that may impact on their child so staff can be aware of the reasons behind any potential changes in the child's behaviour.

Starting nursery

We recognise that starting nursery may be difficult for some children and their families. We have a Settling in policy to support the child and their family.

Starting school or moving childcare providers

Starting school is an important transition and some children may feel anxious about the move. We will do all we can to facilitate a smooth transition and minimise any potential stresses. This following process relates to children going to school. However wherever possible, we will adapt this process to support children moving to another childcare provider, e.g. childminder or another nursery.

- We provide a variety of resources that relate to the school, e.g. uniform to dress up in, a role play area set up as a school classroom, photographs of all the schools the children may attend and of the teachers. This helps the children to become familiar with this new concept and will aid the transition
- Invite school representatives into the nursery, where possible, or invite them to talk via online platforms such as Zoom so they have the opportunity to introduce themselves to the children

- Where possible we plan visits to the school with the key person. Each key person will talk about the school with their key children who are due to move to school and discuss what they think may be different and what may be the same. They will talk through any concerns the child may have and initiate activities or group discussions relating to any issues to help children overcome these
- We produce a comprehensive report on every child leaving the setting and with parental permission will share this with the school to enable teachers to have a good understanding of every child received. This will include their interests, strengths and level of understanding and development in key areas. This will support continuity of care and early learning
- With parental permission around school allocation day, we may share details of the schools children are going to so parents can see which children may be going to the same school. This can offer some reassurance for the children to know that are moving with some familiar peers.

Other early years providers

Where children are attending other early years settings or are cared for by a childminder, we will work with them to share relevant information about children's development. Where a child is brought to nursery or collected from nursery by a childminder, we will ensure that key information is being provided to the child's parent by providing the information directly to the parent via email, video call or telephone.

Family breakdowns

We recognise that when parents separate it can be a difficult situation for all concerned. We have a Separated family policy that shows how the nursery will act in the best interest of the child.

Moving home and new siblings

We recognise that both these events may have an impact on a child. Normally, parents will have advance notice of these changes and we ask parents to let us know about these events so we can support the child to be prepared. The key person will spend time talking to the child and providing activities that may help the child to act out any worries they have, e.g. through role play, stories and discussions.

Bereavement

We recognise that this may be a very difficult time for children and their families and have a separate Bereavement policy, which we follow to help us offer support to all concerned should this be required.

If parents feel that their child requires additional support because of any changes and/or transitions in their life, we ask that you speak to the nursery manager and the key person to enable this effective support to be put into place.

Christchurch Kindergarten Children's Nursery Limited

Use of Dummies in Nursery Policy

At **Christchurch Kindergarten Children's Nursery Limited** we recognise that a dummy can be a source of comfort for a child who is settling and/or upset, and that it may often form part of a child's sleep routine.

We also recognise that overuse of dummies may affect a child's language development as it may restrict the mouth movements needed for speech. As babies get older, they need to learn to move their mouths in different ways, to smile, to blow bubbles, to make sounds, to chew food and eventually to talk. As babies move their mouths and experiment with babbling sounds, they are learning to make the quick mouth movements needed for speech. The more practice they get the better their awareness of their mouths and the better their speech will be.

Our nursery will:

- Discuss the use of dummies with parents as part of babies' individual care plans
- Only allow dummies for comfort if a child is really upset (for example, if they are new to the setting or going through a transition) and/or as part of their sleep routine
- Store dummies in individual hygienic dummy boxes labelled with the child's name to prevent cross-contamination with other children
- Immediately clean or sterilise any dummy or bottle that falls on the floor or is picked up by another child.
- Dummies will be disposed of if they become damaged and/or when they are required to be disposed of.

When discouraging the dummy, staff will:

- Make each child aware of a designated place where the dummy is stored
- Comfort the child and, if appropriate, explain in a sensitive manner why they do not need their dummy
- Distract the child with other activities and ensure they are settled before leaving them to play
- Offer other methods of comfort such as a toy, teddy or blanket
- Explain to the child they can have their dummy when they go home or at sleep time.

We will also offer support and advice to parents to discourage dummy use during waking hours at home and suggest ways which the child can be weaned off their dummy through books and stories (when appropriate).

Christchurch Kindergarten Children's Nursery Limited

Visits and Outings Policy

At **Christchurch Kindergarten Children's Nursery Limited** we offer children a range of local outings including walks and visits off the premises. We believe that planned outings and visits complement and enhance the learning opportunities inside the nursery environment and extend children's experiences. We always seek parental permission for children to be included in such outings.

Procedures

Visits and outings are carefully planned using the following procedures along with any local and national guidelines, whatever the length or destination of the visit:

- A pre-visit checklist, full risk assessment and outings plan will always be carried out by a senior member of staff before the outing to assess the risks or hazards which may arise for the children, and identify steps to be taken to remove, minimise and manage those risks and hazards. We will endeavour to visit the venue prior to the visit. This will ensure that the chosen venue is appropriate for the age, stage and development of the children
- Written permission will always be obtained from parents before taking children out
- We provide appropriate staffing levels for outings dependent on an assessment of the safety and the individual needs of the children.
- At least one member of staff will hold a valid and current full paediatric first aid certificate and this will be increased where risk assessment of proposed activity deems it necessary
- We designate one member of staff to be the outing leader, this may be the most senior member of staff attending and it will be their role to take the lead in the event of any emergencies and/or incidents (see Missing child from outings policy) and any safeguarding or child protection concerns (see Safeguarding children and child protection policy)
- A fully stocked first aid box will always be taken on all outings along with any special medication or equipment required
- A completed trip register together with all parent and staff contact numbers will be taken on all outings
- Regular headcounts will be carried out throughout the outing. Timings of headcounts will be discussed in full with the nursery manager prior to the outing
- All staff will be easily recognisable by other members of the group; they will wear the nursery uniform and high visibility vests or jackets
- A fully charged nursery mobile phone will be taken as a means of emergency contact (*staff are reminded of the Mobile phone and electronic device use policy and asked to leave personal phones at the setting*)

- In the event of an accident, staff will assess the situation. If required, the group will return to nursery immediately and parents will be contacted to collect their child. In the event of a serious accident an ambulance will be called at the scene, as well as parents being contacted. One member of staff will accompany the child to the hospital, and the rest of the group will return to the nursery.

Risk assessment and outings plan

The full risk assessment and outing plan will be displayed for parents to see before giving consent. This plan will include details of:

- The name of the designated person in charge - the outing leader
- The name of the place where the visit will take place
- The estimated time of arrival at the place where they are visiting and expected time they will arrive back at the nursery
- The number of children, age range of children, the ratio of staff to children, children's individual needs and the group size
- The equipment needed for the trip i.e. first aid kit, mobile phone, coats, safety reins, pushchairs, rucksack, packed lunch etc.
- Staff emergency contact numbers
- Method of transportation and travel arrangements (including the route)
- Financial arrangements
- Emergency procedures
- The name of the designated first aider and the first aid provision
- The name of the designated safeguarding lead for the outing
- Links to the child's learning and development needs.

Use of vehicles for outings

- All staff members shall inform parents in advance of any visits or outings involving the transportation of children away from the nursery
- The arrangements for transporting children will always be carefully planned and where necessary additional staff or volunteers will be used to ensure the safety of the children. This is particularly important where children with disabilities are concerned
- All vehicles used in transporting children are properly licensed, inspected and maintained
- Regular checks are made to the nursery vehicle, e.g. tyres, lights etc. and a logbook of maintenance, repairs and services is maintained
- The nursery vehicle is to be kept in proper working order, is fully insured for business use and is protected by comprehensive breakdown cover
- Drivers of vehicles are adequately insured and due diligence checks are carried out to ensure they are suitable and reputable
- All vehicles used are fitted to the supplier's instructions with sufficient numbers of safety restraints appropriate to the age and/or weight of the children carried in the vehicle. Any minibuses or coaches are fitted with 3-point seat belts

- When we use a minibus, we check that the driver is over 21 years of age and holds a Passenger Carrying Vehicle (PCV) driving licence. This entitles the driver to transport up to 16 passengers
- When children are being transported, we maintain ratios.

When planning a trip or outing using vehicles, records of vehicles and drivers including licenses, MOT certificates and business use insurance are checked. If a vehicle is used for outings the following procedures will be followed:

- Ensure seat belts are used
- Ensure the maximum seating is not exceeded
- All children will be accompanied by a registered member of staff
- No child will be left in a vehicle unattended
- Extra care will be taken when getting into or out of a vehicle
- The vehicle will be equipped with a fire extinguisher and emergency kit containing warning triangle, torch, blankets, wheel changing equipment etc.

Missing children

In the event of a child going missing, the Missing child from outings policy will be followed. Any incidents or accidents will be recorded in writing and Ofsted will be contacted and informed of any incidents.

There may be opportunities for parents to assist on outings. The manager will speak to parents prior to the visit regarding health and safety and code of conduct.

In the event of an emergency

In the event of an emergency whilst out on a visit, we encourage staff to find a safe haven and remain there until the danger passes. If necessary, the police will be contacted if it is safe to do so. Each outing will have a detailed risk assessment, which covers all these risks and is planned ahead.

This could cover other issues such as extreme weather or emergencies such as an ill or injured child, etc.

We will contact parents of the children on the visit to confirm arrangements as soon as it is safe to do so.

Ofsted will be contacted and informed of any incidents.

Further information can be found at:

<https://www.counterterrorism.police.uk/safetyadvice/>

Christchurch Kindergarten Children's Nursery Limited

Volunteers Policy

At **Christchurch Kindergarten Children's Nursery Limited** we recognise the immense benefits that volunteers bring to the nursery. In return we hope to give volunteers an opportunity to share their skills in a different environment and to undertake new experiences.

Status of volunteers

A volunteer is not an employee and will not have a contract of employment with the nursery. We will, however, insist that the volunteer follows all nursery procedures in the same manner as a paid employee to ensure consistency, safety and quality of care and early learning for the children. Volunteers will be supervised at all times.

Volunteers (aged 17 or over) may be included in the ratios at the level below their level of study, provided that the manager is satisfied that they are competent and responsible and if they hold a valid and current paediatric first aid (PFA) qualification.

Enhanced Disclosure and Barring Service (DBS) check

All volunteers will have suitability checks conducted in the same way as paid employees. This will include an enhanced DBS check. These checks will be conducted before any volunteer starts their time within the nursery and will also include two written references.

Training

Volunteers will be offered training and/or support as appropriate. We will provide any training and support required for the role, including safeguarding and child protection, paediatric first aid (where applicable) and health and safety training. The purpose of this is to enable the volunteer to be supported and enhance their development in their voluntary role within our team.

Policies and procedures

Volunteers are expected to comply with all the nursery's policies and procedures. The volunteer's induction process will include an explanation of this.

Confidentiality

Volunteers should not disclose information about the nursery, staff, children and families as stated in the Data protection and confidentiality policy and should follow the nursery confidentiality procedures at all times.

Volunteer's induction pack

On commencing their volunteer work, the volunteer will be given a pack containing:

- General information about the nursery

- A copy of the Volunteers policy
- A confidentiality statement which will require reading, signing and returning to the nursery manager
- Details of access to all nursery relevant policies and procedures.
- During the induction period, volunteers will read the main policies of the nursery including Safeguarding children and child protection, Health and safety – general policy and Promoting positive behaviour policy. The designated member of staff will discuss the policies to ensure the volunteer understands and adheres to this.

Volunteer support

The nursery has a designated officer who will take the volunteer through their induction and support and advise them throughout their time in the nursery.

Christchurch Kindergarten Children's Nursery Limited

Whistleblowing Policy

At **Christchurch Kindergarten Children's Nursery Limited** we expect all our colleagues, both internal and external, to be professional at all times and hold the welfare and safety of every child as their paramount objective. We recognise that there may be occasions where this may not happen and we have in place a procedure for staff to disclose any information that suggests children's welfare and safety may be at risk.

We expect all team members to discuss any concerns with their line manager at the earliest opportunity, so problems can be resolved as they arise.

Whistleblowing definition

Whistleblowing is the act of reporting wrongdoing.

Legal framework

The Public Interest Disclosure Act 1998, commonly referred to as the 'Whistleblowing Act', amended the Employment Rights Act 1996 to provide protection for employees who raise legitimate concerns about specified matters. These are called 'qualifying disclosures.'

A qualifying disclosure is one made in the public interest by an employee who has a reasonable belief that any of the following is being, has been, or is likely to be, committed:

- A criminal offence
- A miscarriage of justice
- An act creating risk to health and safety
- An act causing damage to the environment
- A breach of any other legal obligation or concealment of any of the above
- Any other unethical conduct
- An act that may be deemed as radicalised or a threat to national security.

Disclosures do not have to be made 'in good faith' but they must be made in the public interest. This is essential when assessing a disclosure made by an individual.

The Public Interest Disclosure Act has the following rules for making a protected disclosure:

- You must believe it to be substantially true
- You must not act maliciously or make false allegations
- You must not seek any personal gain.

Disclosure of information

If, in the course of your employment, you become aware of information which you reasonably believe indicates that a child is, or may be, or is likely to be, in risk of danger and/or one or more of the following may be happening, you **MUST** use the nursery's disclosure procedure set out below:

- That a criminal offence has been committed or is being committed or is likely to be committed
- That a person has failed, is failing or is likely to fail to comply with any legal obligation to which they are subject (e.g. EYFS, Equalities Act 2010)
- That a miscarriage of justice has occurred, is occurring, or is likely to occur
- That the health or safety of any individual has been, is being, or is likely to be endangered
- That the environment has been, is being, or is likely to be damaged
- That information tending to show any of the above, has been, is being, or is likely to be deliberately concealed.

Disclosure procedure

- If this information relates to child protection and safeguarding then the nursery's Safeguarding children and child protection policy should be followed, with particular reference to the staff and volunteering section. See below for the Whistleblowing safeguarding concerns flowchart
- Where you reasonably believe one or more of the above circumstances listed above has occurred, you should promptly disclose this to your manager so that any appropriate action can be taken. If it is inappropriate to make such a disclosure to your manager (i.e. because it relates to your manager) you should speak to **Area Manger**
- Employees will suffer no detriment of any sort for making such a disclosure in accordance with this procedure. For further guidance in the use of the disclosure procedure, employees should speak in confidence to the *nursery manager/*owner
- Any disclosure or concerns raised will be treated seriously and will be dealt with in a consistent and confidential manner and will be followed through in a detailed and thorough manner
- Any employee who is involved in victimising employees who make a disclosure, takes any action to deter employees from disclosing information or makes malicious allegations in bad faith will be subject to potential disciplinary action which may result in dismissal
- Failure to report serious matters can also be investigated and potentially lead to disciplinary action which may result in dismissal
- Any management employee who inappropriately deals with a whistleblowing issue (e.g. failing to react appropriately by not taking action in a timely manner or disclosing confidential information) may be deemed to have engaged in gross misconduct which could lead to dismissal

We give all of our staff the telephone numbers of the Local Authority Designated Officer (LADO), the local authority children's social care team and Ofsted so all staff may contact them if they cannot talk to anyone internally about the issues or concerns observed.

Christchurch Kindergarten

Christchurch Kindergarten Children's Nursery Limited

Working with Display Screen Equipment Policy

At **Christchurch Kindergarten Children's Nursery Limited** we take the welfare of our employees seriously and put safeguards in place to help protect the health and safety of all employees. This includes any staff who are required to undertake office duties as part of their role including working on a computer, laptop or tablet.

We conduct risk assessments to identify any health and safety risks associated with office duties and provide appropriate equipment for those roles.

Staff using computers/laptops/tablets can help to prevent health problems in the office by:

- Sitting comfortably at the correct height with forearms parallel to the surface of the desktop and eyes level with the top of the screen
- Maintaining a good posture
- Avoiding repetitive and awkward movements by using a copyholder and keeping frequently used items within easy reach
- Changing position regularly
- Having a separate keyboard and mouse; using a good keyboard and mouse technique with wrists straight and not using excessive force
- Making sure there are no reflections or glare on screens by carefully positioning them in relation to sources of light
- Adjusting the screen controls to prevent eyestrain
- Keeping the screen clean
- Reporting to their manager any problems associated with use of the equipment
- Planning work so that there are breaks away from the workstation.

Seating and posture for typical office tasks:

- Good lumbar support from the office seating
- Seat height and back adjustability
- No excess pressure on the underside of thighs and the backs of knees
- Foot support provided if needed
- Space for postural change, no obstacles should be under the desk
- Forearms approximately horizontal
- Minimal extensions, flexing or straining of wrists
- Screen height and angle should allow for a comfortable head position
- Space in front of the keyboard to support hands/wrists during pauses in typing.

If an employee requires additional support, please let the manager know as soon as possible
